General Summary.—Rain was fairly general in the Burdwan and Presidency Divisions, but scattered in Bihar, Orissa and Chota Nagpur. Though the recent rain has done much good to the standing crops, more rain is wanted in parts of Bihar. Harvesting of *aman* paddy is practically over. Sugarcane-pressing is going on. *Rabi* crops are doing well. Hailstorms are reported from the districts of Monghyr and Bhagalpur; slight damage by frost is also reported from parts of Palamau. Prospects otherwise good. Cattle-disease continues in seven districts. Fodder is sufficient except in parts of the Darbhanga district. Water-supply is sufficient. The price of common rice has an upward tendency; it has risen in thirteen districts and has fallen in three. The price is somewhat high in parts of Burdwan, Midnapore, the 24-Parganas, Nadia, Jessore, Khulna, Muzaffarpur, Monghyr and Purnea.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

MARINE DEPARTMENT.

Dated the 26th January 1906.

No. 14.—The following extracts from the *Ceylon Government Gazette*, regarding the Pearl Fishery of 1906, are published for general information.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

Pearl Fishery, 1906.

NOTICE is hereby given that a Pearl Fishery will take place at Marichchukkaddi, in the Island of Ceylon, on or about February 20th, 1906.

The Banks to be fished are—

The South-East Cheval, estimated to contain 6,500,000 oysters, sufficient to employ 100 boats for six days with average loads of 10,000 each per day.

The Mid-West Cheval, estimated to contain 2,000,000 oysters, sufficient to employ 100 boats for two days with average loads of 10,000 oysters.

The Muttuvaratu Paar, estimated to contain 16,000,000 oysters, sufficient to employ 100 boats for sixteen days with average loads as before stated; each boat being fully manned with divers.

In addition there will be fished 990,000 oysters, estimated to be on the North Modaragam Paar, sufficient to employ 100 boats for one day. The valuation of these oysters was Rs. 8 per 1,000 at the inspection in February 1905.

2. It is notified that fishing will begin on the first favourable day after February 19. Boat owners and divers should be at Marichchukkaddi by February 16.

3. The Marichchukkadi is on the mainland, eight miles by sea south of Sillavaturai, and supplies of good water and provisions can be obtained there.

4. The fishery will be conducted on account of Government, and the oysters put up to sale in such lots as may be deemed expedient.

5. The arrangements of the fishery will be the same as have been usual on similar occasions. Persons attending the fishery Camp from India will be permitted to travel to Ceylon by either of the following routes: (1) Tuticorin to Colombo or (2) Paumben to Marichchukkadi—and by no other. Arrangements will be made as at the last fishery for travellers to proceed from Paumben direct to the Camp. The only restriction imposed on travellers by the Paumben route will be inspection by the Medical Officer at Paumben.

6. Drafts on the Banks in Colombo or bills on the Agents of this Government in India, at ten days' sight, will be taken, on letters of credit being produced to warrant the drawing of such drafts or bills.

7. For the convenience of purchasers the Treasurer at Colombo and the different Government Agents of Provinces will be authorized to receive cash deposits from parties intending to become purchasers, and receipts of these officers will be taken in payment of any sums due on account of the fishery.

8. No deposit will be received for a less sum than Rs. 250.

9. All communications regarding the fishery must be addressed to the Government Agent, Northern Province, Jaffna, Ceylon, up to the end of January, after which date they should be addressed to him at Marichchukkadi.

By His Excellency's command,

A. M. ASHMORE,

Colonial Secretary.

COLONIAL SECY'S. OFFICE COLOMBO, *December 23, 1905.*

Pearl Fishery, 1906.

It is hereby notified that draft on the Government Treasury at Marichchukkadi will be issued on the following conditions during the Pearl Fishery :—

(*a*) Persons desirous of drawing money from the Government at Marichchukkaddi will be required to make a deposit in cash in the Colonial Treasury at Colombo either by telegraphic transfer or otherwise.

(*b*) Against such deposits the Colonial Treasurer will, on properly authenticated requisitions, issue drafts payable at Marichchukkadi up to such sums as he knows to be available there.

(*c*) In the event of money being urgently required the Colonial Treasurer will arrange to wire the amount to Marichchukkadi provided there are funds available there, and the persons requiring the money will have to make arrangements for their representatives being properly identified before the money is paid to them.

(*d*) The Colonial Treasurer will on no account issue drafts or wire remittances beyond the amount he knows to be available at Marichchukkadi from time to time, and will incur no responsibility for interest or otherwise on sums deposited with him in excess of the amounts he may be able to issue.

(*e*) The Government will reserve to itself the right of allowing any Bank in Colombo to issue drafts on the available balances at Marichchukkadi in addition to such drafts as may be issued by the Colonial Treasurer.

By His Excellency's command,

A. M. ASHMORE,

Colonial Secretary.

DEPARTMENT OF STATISTICS, INDIA

CALCUTTA, APRIL 21, 1919.

Supplementary Memorandum on the SESAMUM (til or jinjili) crop of 1918-19.

THIS memorandum deals with the final estimates of the crop received from Madras and Hyderabad, and supplements the final general memorandum issued on the 22nd January last.

Madras (15·8 per cent of the total area under sesamum in British India).—The total area is now estimated at 656,000 acres, which is 20 per cent below last year's area. The decrease is reported to be probably due to the failure of the rice crop, especially in the Circars, after which sesamum is frequently taken as a second crop. There have, however, been good sowing rains in the south, where a good deal of late sesamum has been and is being sown. The total yield is estimated at 81,000 tons as against 113,000 tons last year, or a decrease of 28 per cent.

Hyderabad reports the area sown to be 512,000 acres, which is 13 per cent below the area of last year. The total outturn, as estimated by the District authorities, amounts to 14,000 tons as compared with 19,000 tons last year or a decrease of 26 per cent. But this estimate is considered too low as compared with the figures of export and the average yield of the adjoining British Territories and the Revenue Department of His Exalted Highness the Nizam's Government has thus raised it to 42,000 tons.

Consequent on the revised figures noted above, the estimates in the table appended to the final forecast, issued in January last, require modification, and the general results for all the provinces from which reports have been received are as follows :—

	Acres	Tons
1918-19 . .	3,501,000	278,000
1917-18 . .	4,271,000	351,000
Average for 5 years ending 1916-17 .	5,167,000	484,000

The detailed figures for the provinces are as follows :—

(1) *Area*

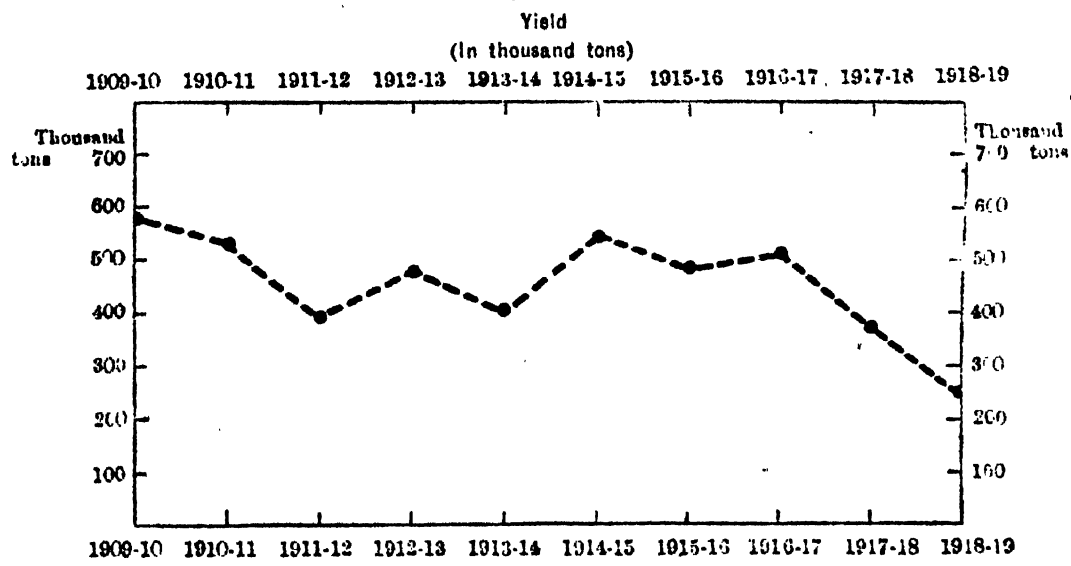
Total .	278,000	381,000	—123,000	165	



In addition to the area for which particulars are given above, the crop is grown in certain other tracts in British India (mainly in Burma.) and the average area so grown for the last five years has been some 1,232,000 acres with an estimated production of 90,000 tons.

Exports—The quantity exported by sea from British India to foreign countries during the last five years ended 31st March has been :—

	Tons
1914-15	49,705
1915-16	13,771
1916-17	84,181
1917-18	19,193
1918-19	2,384

Charts.—The charts below show the present estimates of the total area and yield as compared with the figures of the preceding nine years. The curve for area represents millions of acres and that for yield thousands of tons.

RESOLUTION—By the Government of India, Home Department.

During the session of the Imperial Legislative Council at Delhi in the cold weather of 1913-14, a resolution was adopted recommending that a joint Commission of officials and non-officials be appointed to investigate the whole subject of jail administration and to suggest improvements in the light of the experience of the West. Such a course is consistent with the manner in which prison management has developed in this country. Four general enquiries have already been held, in the years 1838, 1864, 1877 and 1888-89, respectively, into the whole question of the administration of jails. There have, of course, been numerous independent discussions and declarations of policy on special points, either of a general character or in relation particularly to individual provinces, but the main lines of advance followed have been the result of the reports then submitted. This, therefore, is the first reason for advocating such a procedure now, namely, that it has yielded beneficial results in the past and that a considerable period of time has elapsed since resort was last had to a general enquiry

2. But an even stronger ground than this exists. Without in any way desiring to underestimate the valuable results which have accrued from the labours of these different committees, and while fully cognisant of the great advances which have been made in jail management, thanks to the energetic efforts of local Governments, the Governor General in Council considers that, as a general statement, it is not unfair to say that attention has mainly been directed hitherto to the improvement of prison administration on lines and standards which in recent times have undergone considerable modification, at any rate in the West. This was, indeed, inevitably the case. When an attempt was first made in 1838 to deal with the subject comprehensively and thoroughly, the foundations of an efficient system had practically still to be laid. Diversity of practice in different provinces was the rule rather than the exception, and this complaint recurs even in connection with the latest enquiry of 1888-89. The Prisons Act of 1894 (Act IX of 1894) was the first recognition by the Legislature that in certain respects uniformity must be insisted upon, and its enactment was the result of Surgeon-Major Lethbridge's recommendations, as subsequently re-examined in 1891-92 by a departmental committee. In appointing the committee of 1888-89, the Government of India (*vide* their resolution nos. 458—464, dated the 9th October 1888) expressly stated that they had no wish to reconsider the principles laid down by the three preceding investigations, and so great has been the leeway to be made up in what may be termed the essentials of any prison system, *e.g.*, an efficient jail service, proper buildings and diet scales, suitable forms of labour, and the

classification of prison offences and punishments, etc., etc., that progress in these directions has absorbed much of the attention of the capable officers to whom the control of the Department is now entrusted. In all these directions a great advance has been achieved, but a review of the development of prison administration in the various provinces, in order to see what has been accomplished and what still remains to be done, would naturally form part of any further enquiry now held.

3. But, over and above this, something more is required. Ideas on the subject of the treatment of prisoners have advanced rapidly in recent years largely under the stimulus of the quinquennial International Conferences of which the first was held in London in 1872 and the latest in America in 1910, and the deliberations of these bodies point to the importance of reformation as a main end to be sought for in a large number of cases. The Probation of Offenders Act, 1907, the Prevention of Crimes Act, 1908, and the Children's Act of the latter year are all instances of modern English legislation on the subject, of which the Borstal system (with the after-care Borstal Association) and the encouragement given to Discharged Prisoners Aid Societies are conspicuous results. The Government of India are well aware of the differences in prison practice in England and India, and they do not desire in any way to imply that all the latest experiments of the West are necessarily suitable for introduction in the East, but they are of opinion that the subject well merits detailed expert examination if the prevalent system in this country is to be saved from the reproach that it is failing to keep pace with modern ideas. It is true that in various provinces experiments with the Borstal system and with preventive methods as applied to criminal tribes are being made, but action is being taken by provinces individually, and the scrutiny and co-ordination of the results attained are likely to ensure that lines of future policy are defined and mistakes avoided in the early stages. Exact uniformity of procedure in all provinces is no doubt impossible, and possibly undesirable, but, with adaptation in degree and detail to varying local conditions, there is no reason why the general principles governing the treatment of criminals should not be the same throughout the country.

4. There remains the very important subject of transportation, about which much has been written in the past and into a discussion of the merits of which it is not proposed to enter, but recent enquiries and events have led the Government of India to doubt whether the administration of the Andamans as a penal settlement is not susceptible, with advantage, of material change, or whether in fact the continuance of the Settlement in its present shape is in itself expedient. An enquiry in this direction may be expected to yield results of special value.

5. Subsequent to the discussion in the Legislative Council referred to above, the Government of India consulted all local Governments regarding the proposed enquiry into prison administration in India and found that opinion was unanimously in favour of such an undertaking. They then secured the consent of His Majesty's Secretary of State to the appointment of a Committee of enquiry and the steps for the constitution of the Committee were in progress on the date of the outbreak of war. That event rendered the conduct of the proposed enquiries outside India impossible and the project for appointing a Committee had to be for the time abandoned. Experience of the past 5 years has emphasized the necessity for this enquiry and the Government of India have now resolved, with the concurrence of the Right Hon'ble the Secretary of State, to take up the matter again. Accordingly it has been decided now to appoint a Committee to investigate the whole system of prison administration in India with special reference to recent legislation and experience in Western countries. The constitution of the Committee will be as follows:

Chairman.

The HON'BLE SIR ALEXANDER CARDEW, K.C.S.I.,

Member of Executive Council, Madras.

Members.

The HON'BLE SIR JAMES DUBOULAY, K.C.I.E., C.S.I.,
Secretary to the Government of India, Home Department.

LIEUTENANT-COLONEL J. JACKSON, C.I.E., I.M.S.,
Inspector-General of Prisons, Bombay.

LIEUTENANT-COLONEL SIR WALTER J. BUCHANAN, K.C.I.E., I.M.S.,
Inspector-General of Prisons, Bengal.

KHAN BAHADUR HAMID HUSSAIN,
Delhi.

MR. D. M. DURAI RAJA, B.A., B.L.,
Madras.

Mr. N. G. MITCHELL-INNES,
Inspector of Prisons, Home Office, London.

Secretary.

Mr. D. JOHNSTONE, I.C.S.

This Committee will assemble at an early date in London, and after examining the working of the prison system of Great Britain, and possibly of other countries including the United States of America, will return to India and, in the course of the next cold weather, visit the various provinces of India and the Andamans. The Committee's inquiries will have particular reference to the following subjects, namely:—

(*i*) the efficacy and appropriateness of the existing systems of prison administration and restraint on liberty in India, including the Andamans and any settlements constituted under the Criminal Tribes Act, 1911;

(*ii*) the possibility of strengthening the reformatory influence of prison administration and discriminating in regard to the treatment of criminals of different classes and ages; and

(*iii*) the best means of assisting prisoners after release to regain a position in society.

The Governor General in Council does not propose to attempt an enumeration of the different points which under these main heads should occupy the attention of the Committee but, generally, it will be its duty to consider how far the methods which have been shown, by recent experience in other countries, to be beneficial in the treatment of prisoners, can usefully be applied to Indian conditions; how far the existing Indian prison system is susceptible of improvement; and what steps should be taken to render it both more deterrent to crime and more reformatory in its influence.

No. 2550.—The following extract from the Board of Trade Journal, dated the 27th March 1919, is published for general information :—

PROHIBITIONS ON IMPORTS.

In the following pages is contained a complete list of articles the importation of which into the United Kingdom has been prohibited, except under licence, by Royal Proclamations of February 15th, 1916, and subsequent dates, and in respect of which applications for licences should be addressed to the Controller, Department of Import Restrictions, 22, Carlisle Place, London, S. W. 1.

IMPORTS FROM THE BRITISH EMPIRE.

All prohibited articles are admitted under general licence if produced in and exported from, any part of the British Empire, except gold and articles containing gold, other than gold consigned direct to the Bank of England ; spirits, other than brandy and rum ; and hops.

IMPORTS FROM FRANCE AND ALGERIA.

Applications for licences for all articles of French or Algerian origin should be made by the French *exporter* to the Paris Branch of the Department of Import Restrictions, 10, Place Edouard VII, Paris, on an application from which may be obtained from that address. The French exporter must undertake not to ship the goods before the licence has been granted.

The following articles are exceptions to this rule, and applications in respect of them should be made to the London Office at 22, Carlisle Place S.W. 1.

Agricultural machinery ; cotton hosiery ; feathers, ornamental, of reserved descriptions (herons, egrets, birds of Paradise, lyre birds, albatrosses, condors, argus pheasants) ; gold, and articles in which the value of the gold exceeds 4 per cent ; hops ; motor cars, motor bicycles and their parts ; spirits ; stones and slates, dressed ; pit props and pit wood ; wood-working machinery.

Paper and paper-making materials and articles manufactured therefrom, except engravings, etchings, photographs, pictures, picture postcards, and silk-embroidered postcards. (Licences for these goods must be obtained from the Department of the Controller of Paper, 23, Buckingham Gate, S.W. 1.

This list of exceptions is that which is in force at the date of issue of this Supplement. It is now undergoing revision.

Goods imported from France are licensable in London if they are not of French or Algerian origin.

ALPHABETICAL LIST OF THE PROHIBITIONS OF IMPORTS.

The following is a complete list of articles the importation of which into the United Kingdom has been prohibited, except under licence, by Royal Proclamations of 15th February 1916, and subsequent dates, and in respect of which applications for licences should be addressed to the Controller, Department of Import Restrictions, 22, Carlisle Place, Westminster, London S.W. 1.

An * denotes that the prohibition on the article against which it appears has been suspended by the issue of a general licence.

Government Notices affecting Trade.

EXPORT AND IMPORT SECTION.

RELAXATION OF EXPORT PROHIBITIONS.

The Board of Trade announce that the following relaxation of the existing prohibitions of export will be brought into force as from to-day.

Further relaxations will be announced in subsequent issues of the "Journal."

EXPORT PROHIBITIONS.

The following is a list of the articles affected and of the changes made in the nature of the prohibitions applicable to each. In explanation of the changes it should be noted that goods on List A. are prohibited to all destinations and goods on List B. to all destinations outside the British Empire, while goods on List C. are prohibited only to countries neighbouring enemy countries.*

It will of course be understood that the existing position regarding trading with enemy countries is in no way affected by these modifications.

[NOTE.—Attention is called to the fact that by the Proclamation of the 1st October, 1918, *all goods* whether mentioned by name or not (except printed matter, accompanied by personal effects, and the goods on the Export Free List published in the "Journal" of 20th March) are prohibited on List C.]

GOODS ON THE EXPORT FREE LIST.

With reference to the notice appearing on page 394 of the "Board of Trade Journal" of the 20th instant in which it was stated that guarantees against re-export would not be required in respect of certain goods, it is to be noted that the guarantees referred to are those usually required for exports to neutral countries in Europe in connection with the blockade of the Central Empires, viz., Netherlands Oversea Trust Certificates, Danish Merchants' Guild guarantees, and so forth.

This concession does not affect any special guarantee unconnected with the blockade which may be required as a condition of the export of certain goods, such as opium and opium alkaloids.

It should be noted that the heading on the free list "Iron and Steel Manufactures" does not cover manufactures containing more than 10 per cent in weight of metals other than iron or steel.

The heading "Machinery, etc.," which covers machinery made of any material provided it does not contain more than 50 per cent copper or brass, remains unaltered.

The heading relating to bicycles should be altered to read: "Bicycles and accessories, including tyres actually fitted to bicycles."

OPEN GENERAL LICENCE FOR CERTAIN FOODSTUFFS.

The Director of the War Trade Department announces that an open General Licence has been issued permitting the exportation of the undermentioned goods to all destinations, except those destinations to which goods on List C. are prohibited from export:—

Koffio,

Egg powder,

Cake mixture,

Mapleton's nut food.

Applications to the War Trade Department will in future not be required in respect of these goods when it is desired to export them to destinations other than those specified.

EXPORT OF COD-LIVER OIL AND MALT EXTRACT.

The Board of Trade are advised that the demand for certain medicinal preparations at present exceeds the supply, and in view of the importance of their conservation for the purpose of combating the influenza epidemic, it has been found necessary to place the following articles by name on Section A of the prohibited list as from the 27th instant:—

Cod Liver Oil and preparations containing cod liver oil.

Malt Extract and preparations containing malt extract.

No. 2550-A.—The following extract from the Board of Trade Journal, dated the 3rd April 1919, is published for general information:—

Relaxation of Export Prohibitions.

The Board of Trade announce that the following relaxation of the existing prohibitions of export will be brought into force as from to-day.

Further relaxations will be announced in subsequent issues of the "Journal."

EXPORT PROHIBITIONS.

The following is a list of the articles affected and of the changes made in the nature of the prohibitions applicable to each. In explanation of the changes it should be noted that goods on List A are prohibited to all destinations, and goods on List B to all destinations outside the British Empire, while goods on List C are prohibited only to countries neighbouring enemy countries.*

It will of course be understood that the existing position regarding trading with enemy countries is in no way affected by the modifications.

[NOTE.—Attention is called to the fact that by the Proclamation of the 1st October, 1918, *all goods*, whether mentioned by name or not (except printed matter, accompanied by personal effects, and the goods on the Export Free List published in the "Journal" of 20th March) are prohibited on List C.]

Awarded the Military Cross.

Risaldar B. P. Krishne Urs, I.D.S.M., Mysore Imperial Service Lancers.

During the action of the 26th October 1918, this Indian officer showed great gallantry while leading his squadron in a charge against a strongly held enemy position under very heavy fire. He was severely wounded in the hand and chest, but continued to lead his squadron until exhaustion compelled him to fall out. His splendid example inspired all ranks.

Awarded the Indian Order of Merit (2nd Class).

Jemadar Indar Singh, 3rd Skinner's Horse.

During the action on the 26th October 1918, this Indian officer laid a cable line to Advanced Brigade Headquarters under heavy fire. He was quite regardless of danger throughout the operation, running to fetch messages dropped by aeroplanes, and bringing them to Brigade Headquarters.

Jemadar Abdul Guffar Khan, Mysore Imperial Service Lancers.

On the 26th October 1918, this Indian officer showed great coolness and gallantry under very heavy fire, while leading his squadron in a charge against a strongly held enemy position. He rallied the squadron after his British officer had been killed, and continued in action though the squadron had suffered heavy casualties.

Awarded the Indian Distinguished Service Medal.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

INDIAN PUBLIC WORKS DEPARTMENT AND INDIAN STATE RAILWAYS.

REGULATIONS AS TO APPOINTMENT OF ASSISTANT ENGINEERS IN 1919.

[*The Secretary of State is unable to give any undertaking that the Regulations will remain unaltered in the future.*]

1. Until further notice the Secretary of State for India in Council will, during each year, make a number of appointments of Assistant Engineers in the Public Works and State Railway Departments of the Government of India.

In making these appointments he will act with the advice of a Selection Committee, including at least one eminent representative of the Engineering profession.

In 1919 it is intended that 75 appointments of Europeans and 3 of Indians should be made.*

The Selection Committee will hold three sittings in April or May, July or August, and October or November respectively. The Committee will fix a maximum of appointments to be filled up at each sitting; they may allow a candidate who has failed at the first or second sitting to appear at a later sitting if they consider it necessary or advisable.

2. Applications must be made on a printed form, which may be obtained from the Secretary, Public Works Department, India Office, Whitehall, S. W. 1, or, in the case of officers in India and Mesopotamia, from the Secretary to the Government of India, Public Works Department, Simla. Applications to the India Office must be received not later than 31st March, 30th June, and 30th September for the three sittings respectively of the Selection Committee. Applications to the Government of India must be received not later than 31st July.

Applications from natives of India must be received at the India Office not later than 30th June, and Indian candidates will be examined by the Selection Committee only at their meeting in July or August.

3. An Indian candidate must have attained the age of 21 and not attained the age of 24 years on the first day of July of the year in which he offers himself for appointment.

Every European candidate must have been born on or after the 2nd August 1891 and on or before the 1st August 1897.

[N. B.—*Natives of India must obtain a certificate of age and nationality in the form contained in Appendix II. As the production of this certificate is a necessary condition of appointment, intending candidates are advised to procure it without delay. The certificate should be forwarded to the India Office together with the candidate's form of application or at the earliest subsequent opportunity.*

4. Every European candidate in 1919, subject to the exception stated below, must have served in His Majesty's Naval, Military or Air Forces during the war for at least one year, or, if his service be less than one year, have been discharged on account of wounds or sickness resulting from such service.

In the case of Europeans who have been prevented on adequate grounds from joining His Majesty's Forces, applications to be exceptionally admitted as candidates may be made to the India Office for consideration.

5. Every European candidate must be a British subject and, except as provided in Regulation 6, if he or his father or his mother was not born within His Majesty's Dominions and allegiance, the father must at the time of the candidate's

*It has been a standing rule that natives of India shall be selected to the extent of 10 per cent. of the total number of Assistant Engineers recruited by the Secretary of State, if otherwise duly qualified. Since 1914 only six Europeans have been recruited (all in the year 1915). During the same period 11 natives of India have been recruited. In 1919 it is proposed to recruit 75 Europeans and 3 Indians, making a total since 1914 of 81 Europeans and 14 Indians.

birth have been a British subject and still be (or have continued to be until his death) a British subject. The decision of the Secretary of State in Council whether a candidate satisfies these conditions shall be final. A candidate must also be of good moral character and sound bodily health and, in the opinion of the Secretary of State for India in Council, in all respects suitable to hold an appointment in the Indian Public Works Department or State Railway Department.

6. Natives of India are eligible for the three appointments open to Indians provided that they are British subjects or that the Governor-General in Council has made a declaration under Section 96A of the Government of India Act, 1915, as amended by Section 3 of the Government of India (Amendment) Act, 1916, that they are to be considered eligible.

7. Applications sent in to the Government of India will, in the first instance, be examined by an Advisory Committee in India, who will, in the case of applicants whom they think fit for appointment, submit their names with the necessary papers to the Secretary of State to be laid before the Selection Committee.

8. Indian candidates must produce evidence that they have either (1) obtained one of the University degrees mentioned in Appendix I; or (2) passed Sections A. and B. of the A.M.I.C.E. examination; or (3) obtained such other diploma or distinction in Engineering as the Secretary of State may decide to accept in any particular case. It is preferred that candidates should have taken a college course and obtained one of the degrees mentioned in Appendix I. It is advisable that in addition they should have had at least one full year's practical experience of Civil Engineering under a qualified civil engineer at the time when they appear before the Selection Committee. Those whose qualifying diploma has been obtained without a college course should have had a full three years of such practical experience.

9. European applicants eligible under Rule 4 who can produce evidence of the above qualifications will be admitted as candidates; others not holding one of the recognised degrees or diplomas must produce evidence—

(*a*) of having received a general education high enough to fit them to receive proper professional training and to become members of the Engineering profession;

(*b*) of such technical education (University or otherwise) in Engineering as they have received; and

(*c*) of their practical training and experience in Engineering as civilians and in military or quasi-military service.

An applicant, if serving at the time of his application, must produce, if possible, a report by his Commanding Officer on his character, administrative capacity and powers of organisation, and aptitude, natural bent, and Engineering experience.

10. In the event of any candidate being selected who has not, in the opinion of the Selection Committee, had sufficient practical experience, he may be required to undergo, after arrival in India, such period of probation in charge of works as may be decided upon, and his final appointment will be made dependent upon the result of such probation.

11. Candidates must be prepared, if called upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee. Applicants to the Government of India (*see* Rule 7 above) must be prepared to attend before the Local Advisory Committee authorised by the Government of India to investigate their candidature.

12. Candidates will further be required, before final appointment by the Secretary of State in Council, to appear, at their own expense, before the Medical Board at the India Office for examination as to their physical fitness for service in India or, in case of applicants selected without attendance at the India Office, before such Medical Board as the Government of India may appoint.

The Regulations governing the physical examination of candidates for the Public Works and State Railway Departments of the Government of India are given in Appendix V.

*13. Selected candidates will also be required to satisfy the Secretary of State of their ability to ride.

14. They will on appointment be provided with a free first-class passage to India and they will be expected to proceed thither about the end of September or later in the year in which they are appointed.

Their pay will begin from the date of their landing in India, and, if they so desire, they will be able to obtain an advance of two months' pay, recoverable by monthly instalments of one-third of salary. Of this advance a portion not exceeding one-half may be drawn in England. The pay of candidates appointed in India will begin from the date of reporting for duty as they may be directed.

15. If less than 24 years of age on 1st August 1919, European candidates will enter the service as Assistant Engineers on a salary of Rs. 4,560 a year. If above 24 years, they will be credited with service as though they had been appointed in their 24th year. The years of service so credited will subsequently count for purposes of pay and promotion, but not for leave or pension.

16. The instruments required by Assistant Engineers are supplied to them in India.

17. Particulars as to pay, pension, etc., are contained in Appendices III and IV.

INDIA OFFICE,

January 1919.

NOTE FOR THE INFORMATION AND GUIDANCE OF CANDIDATES.

The Selection Committee of 1906 drew attention to the subjects which were held to be of most importance for the Public Works Service, *viz.*,

Pure Mathematics, including a knowledge of the differential and integral calculus.

Applied Mathematics.

Geometrical and Engineering Drawing.

Surveying and Geodesy.

Strength of Materials and Theory of Structures.

Hydraulics.

Heat Engines.

Materials used in Construction.

Building Construction.—Wood and metal work, lines and cements, and building with stone, brick, and concrete.

Knowledge of the principles of road-making, waterworks, sanitary and railway engineering. (Important.)

The Selection Committee were further of opinion that all candidates should have had some workshop training.

---

* Selected candidates will be examined by the Civil Service Commissioners as to their ability to ride, and will be required to obtain either —

(*a*) a certificate from the Civil Service Commissioners that they are sufficiently at home in the saddle for the efficient performance of all the duties of the Indian Public Works and State Railway Departments; or

(*b*) a certificate from the Civil Service Commissioners of minimum proficiency in riding.

In the latter case they will be subjected, on their arrival in India, to such further tests in riding as may be prescribed by their Government.

Candidates are warned that the certificate of minimum proficiency in riding, without which they will not be allowed to proceed to India, is only granted to those who can qualify in a series of tests, which includes jumping.

The chief tests will be saddling and bridling; mounting and dismounting; trotting and cantering; riding at a trot without stirrups; riding at a trot with stirrups but without reins; jumping a hedge hurdle about 3 feet in height.

Although the examination will, in the main, be confined to these points, the examiner will not be debarred from applying any other tests which may appear desirable.

APPENDICES.

APPENDIX I.

LIST OF DEGREES REFERRED TO IN PARAGRAPH 8.

The degrees shown in Lists A and B are accepted without reservation in the case of candidates who matriculated on or before 30th June 1914. The special conditions applicable to candidates who matriculated on or after 1st July 1914 are stated in the Notes appended to the two lists.

Candidates who rely on a degree in "Mechanical" or "Electrical" Engineering or in "Naval Architecture" should have had at least one year's practical experience in Civil Engineering.

LIST A.

Oxford.—B.A. (with Honours in the Engineering Science Final Honours School).

Cambridge.—B.A. (with Honours in Mechanical Science Tripos).

St. Andrews.—B.Sc. in Engineering.

Glasgow.—B.Sc. in Engineering.

Edinburgh.—B.Sc. in Engineering.

Dublin.—B.A.I. with Honours in Engineering.

Durham.—B.Sc., with Honours in "Civil," "Mechanical," or "Electrical" Engineering, or in Naval Architecture.

London.—B.Sc., with Honours in "Civil and Mechanical" or "Electrical" Engineering.

Victoria University (Manchester).—B.Sc., with Honours in Engineering.

Birmingham.—B.Sc., with Honours in "Civil," "Mechanical," or "Electrical" Engineering.

Liverpool.—B.Eng., with Honours in "Civil," "Mechanical," or "Electrical" Engineering, or Naval Architecture.

Leeds.—B.Sc., with Honours in "Civil," "Mechanical," or "Electrical" Engineering.

Sheffield.—B.Eng., with Honours in "Civil," "Mechanical," or "Electrical" Engineering.

Bristol.—B.Sc., with Honours in "Civil," or "Mechanical" Engineering.

Note to List A.—In the case of candidates who matriculated after 30th June 1914 the above degrees will be accepted only if taken after three years' study and the passing of the regular examinations in the several Universities. The condition as to three years' study will not, however, apply to Indians who, having taken an Indian degree which exempts them from part of the University course, shall have taken one of the above degrees in less than three years in accordance with the Regulations of the University concerned.

LIST B.

Dublin.—B.A.I.

Durham.—B.Sc., in "Civil," "Mechanical," or "Electrical" Engineering, or in Naval Architecture.

London.—B.Sc. (Engineering).

Victoria University (Manchester).—B.Sc., Tech. in "Mechanical" or "Electrical" Engineering (Honours Division in the Final Examination).

University of Wales.—B.Sc. (in "Civil," "Mechanical," or "Electrical" Engineering).

Birmingham.—B.Sc. (Engineering).

Liverpool.—B.Eng.

Leeds.—B.Sc. in "Civil" or "Mechanical" Engineering.

Sheffield.—B.Eng. (First Class in the Final Examination).

National University of Ireland.—B.E.

Bristol.—B.Sc. in "Civil" or "Mechanical" Engineering.

Note to List B.—In the case of candidates who matriculated after 30th June 1914 the degrees in List B. will be accepted only if (1) the Matriculation or other Entrance Examination accepted by the Institution of Civil Engineers to the Engineering course in the University has been passed, and (2) a regular course of study occupying not less than three Academical years has been pursued in the University between the passing of such Matriculation or other Entrance Examination and the passing of the final examination for the degree.

But Indians who have taken an Indian degree which exempts them from part of the University course will be regarded as having satisfied condition (1), and will be exempted from condition (2) if their degree has been obtained in less than three years in accordance with the Regulations of the University concerned.

APPENDIX II.

Particulars regarding the Certificate of Age and Nationality to be obtained by candidates who are Natives of India.

A.—*Rules for Candidates born within His Majesty's Dominions.*

1. A candidate who is resident in British India must obtain a certificate, signed either (*a*) by the Secretary to Government (or his lawful deputy) of the province in which his family resides, or (*b*) by the Commissioner (or his lawful deputy) of the district in which his family resides.

2. A candidate who is resident in a Native State must obtain a certificate signed by the highest Political Officer (or his lawful deputy) accredited to the State in which his family resides.

3. The certificate required must be in the following form:—

"I hereby certify that has submitted the proofs of his birth detailed below,* and has satisfactorily shown that he was actually born on or about the date stated, *viz.*, the day of 18, at a place within His Majesty's Dominions."

* (*Here enter details.*)

and the nature of the evidence produced must be such as to satisfy the officer who issues the certificate.

4. The documentary evidence which a candidate may be expected to produce in order to obtain such certificate comprises:—

(*a*) The horoscope.

(*b*) Family books.

(*c*) Tradesmen's account books showing entries relating to the birth.

(*d*) The record of admission in the registers of the school in which the candidate was educated, and the record of the candidate's age at various periodical school examinations.

(*e*) If the candidate is matriculated, a certified copy of his application to the Registrar in Form A.

Oral testimony from persons able to give relevant evidence may also be taken.

5. If a candidate has proceeded to England without obtaining a certificate, the certificate may be granted to his father or guardian on production of the requisite evidence.

B.—*Rules for Candidates not born within His Majesty's Dominions.*

6. The rules are the same as the foregoing except that a candidate not born within His Majesty's Dominions must also prove that he is the son or grandson of

a person born in those Dominions, and in his case the form of certificate must be not as in paragraph 3 above but as follows:—

"I hereby certify that has submitted the proofs of his birth detailed below* and has satisfactorily shown that he was actually born on or about the date stated, *viz.*, the day of 18 ; and that he was born at a place without His Majesty's Dominions, but that his $\frac{\text{father}}{\text{paternal grandfather}}$ was a person born in those Dominions."

* (*Here enter details.*)

APPENDIX III.

PARTICULARS REGARDING THE INDIAN PUBLIC WORKS DEPARTMENT (EXECUTIVE BRANCH).

(*The arrangements and salaries hereinafter described are subject to revision according to the requirements of the Service.*)

1. The Engineer Establishment of the Indian Public Works Department consists of a staff of Engineers, Military and Civil, engaged on the construction and maintenance of the various public works undertaken by the State in India.

2. The permanent establishment of the Department is recruited from the following sources:—

(1) Officers of Royal Engineers.

(2) Persons appointed to the Imperial Service by the Secretary of State by selection from the United Kingdom.

(3) Persons educated at the Government Civil Engineering Colleges in India, and appointed to the Provincial Services by the Government of India.

(4) Occasional admission of other qualified persons.

3. The various ranks of the Department are at present as follows:—

	Salary per annum (Imperial Service).
	Rs.
Chief Engineer, First Class	33,000
,, ,, Second Class	30,000
Superintending Engineer, First Class	24,000
,, ,, Second Class	21,000
,, ,, Third Class	18,000
Executive Engineer, 20th year of service and following years.	15,000
,, ,, 19th year of service	14,400
,, ,, 18th year of service	13,800
,, ,, 17th year of service	13,200
,, ,, 16th year of service	12,600
,, ,, 15th year of service	12,000
,, ,, 14th year of service	11,400
,, ,, 13th year of service	10,800
,, ,, 12th year of service	10,200
,, ,, 11th year of service	9,600
Assistant† Engineer, 10th year of service	9,000
,, ,, 9th year of service	8,400
,, ,, 8th year of service	7,920
,, ,, 7th year of service	7,440
,, ,, 6th year of service	6,960
,, ,, 5th year of service	6,480
,, ,, 4th year of service	6,000
,, ,, 3rd year of service	5,520
,, ,, 2nd year of service	5,040
,, ,, 1st year of service	4,560

†Officers of the Assistant Class will ordinarily pass into the executive class in the 11th year of service, but an Imperial Engineer may draw more than Rs. 9,600 per annum unless he holds charge of a division or a charge of equal importance.

4. The increments will be given for approved service only, and in accordance with the rules of the Department.

Exchange compensation allowance will not be granted to future entrants.

5. Promotions above the grade of Executive Engineer are dependent on the occurrence of vacancies in the sanctioned establishment, and are made wholly by selection; mere seniority is considered to confer no claim to promotion.

APPENDIX IV.

PARTICULARS RELATING TO PENSIONS, PROVIDENT FUND, AND LEAVE.

[N.B.—*This Appendix is compiled from the regulations for the time being, and is subject to alterations from time to time. The full leave and pension rules are contained in the Civil Service Regulations published by the Government of India.*]

1. The following is a summary of the principal pension rules applicable to Engineers appointed to the Imperial Service by the Secretary of State from the United Kingdom.

An officer is eligible for a pension on voluntary retirement after completing 20 years' qualifying service or attaining the age of 55 years. If at an earlier date he is compelled to retire from the Service through ill-health not occasioned by irregular or intemperate habits, he becomes eligible for an invalid pension or a gratuity according to the length of his service.

The amount of pension or gratuity is regulated as follows:—

After a service of less than 10 years, an invalid gratuity not exceeding one month's emoluments for each completed year of service.

After a service of not less than 10 years, an invalid pension not exceeding the following amounts:—

Years of Completed Service.	Maximum Limit of Pension.
	Rs.
10	1,000 a year.
11	1,400 „ „
12	1,800 „ „
13	2,200 „ „
14	2,600 „ „
15, 16, 17, 18, 19	3,000 „ „

After a service of not less than 20 years, a retiring pension not exceeding the following amounts:—

Years of Completed Service.	Maximum Limit of Pension.
20 to 24	Rs. 4,000 a year.
25 and above	5,000 a year.

Officers who have shown special energy and efficiency during an effective service of three years in certain appointments may, at the discretion of the Government of India, be allowed an additional pension of Rs. 1,000 a year, subject to the condition that the officer must not retire voluntarily before the completion of a total qualifying service of 28 years.

Subject to certain prescribed conditions, rupee pensions are now issued at the rate of exchange of 1*s.* 9*d.* the rupee to pensioners residing in countries in which the Indian Government rupee is not legal tender.

2. A general provident fund to which all Civil Engineers entering the Public Works Department in the future will subscribe, has been established for all Civil Engineers of the Department on the following basis:—

(1) The contribution is compulsory up to 6¼ per cent. on salaries, with not more than a further 9⅜ per cent. voluntary contribution. Subscriptions on leave of any kind are optional.

(2) Compound interest on such payment is annually credited by Government to each officer subscribing, the rate being at present 4 per cent. per annum.

(3) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him unconditionally on quitting the Service; or, in the event of his death before retirement, to such person or persons as, under the rules of the Fund for the time being in force, may be entitled thereto.

(4) Other forms of life insurance will, however, if they fulfil certain conditions, be accepted in lieu of the contributions in (1).

LEAVE.

3. The following is a summary of the principal regulations relating to the leave admissible to Engineers appointed to the Imperial Service by the Secretary of State from the United Kingdom.

(a) Short Leave.

4. Privilege leave is a holiday which may be granted to the extent of one-eleventh part of the time that an officer has been on duty without interruption; and it may be accumulated up to three months, earned by 33 months' duty. During privilege leave the officer retains a lien on his appointment, and receives an allowance equal to the salary which he would receive if he were on duty in the appointment on which he has a lien. An interval of not less than six months must elapse between two periods of absence on privilege leave.

Privilege leave may be prefixed to furlough, special leave, or extraordinary leave without allowances. The whole period of leave thus taken in combination is known as combined leave. Combined leave cannot be granted for a shorter period than six months, nor, except on medical certificate, may it be extended beyond two years.

5. Extraordinary leave without allowances may be granted in case of necessity, and, except in certain specified cases, only when no other kind of leave is by rule admissible. It may be granted in continuation of other leave.

6. Subsidiary Leave in India for a minimum of ten days, usually with half average salary, may be granted to an officer proceeding on or returning from leave out of India, or on retirement, to enable him to reach the port of embarkation or to rejoin his appointment. It is admissible only at the end, and not at the beginning, of combined leave.

7. Short leave is also granted to enable officers to appear at examinations, &c.

(b) Long Leave.

8. Furlough and special leave with allowances (*see* paragraph 10) are admissible to an aggregate maximum amount of six years during an officer's service. The amount of furlough "earned" is one-fourth of an officer's active service, and the amount "due" is that amount less any enjoyed.

Furlough without medical certificate can, if due, be generally taken after eight years' active service, and again after intervals of not less than three years' continuous service. It is limited to two years at a time.

Furlough on medical certificate may be granted (*a*) to an officer who has rendered three years' continuous service, for not more than two years, but capable of extension up to three years, and (*b*) to an officer who has not rendered three years'

continuous service, up to one year in any case, and up to such longer period, if any (but not exceeding two years), as the officer may have furlough "due" to him.

9. The allowances admissible during furlough are :—

(1) During the first two years of furlough without medical certificate and during so much of furlough with medical certificate as may be "due," —half average salary subject to certain maximum and minimum limits.

(2) After the expiration of the period for which the foregoing allowances are admissible,—one quarter of average salary, subject to certain maximum and minimum limits.

10. Special leave may be granted at any time for not more than six months with intervals of six years' service; allowances, calculated as during furlough, are given during the first six months only, whether taken in one or more instalments.

General Rules.

11. Leave of absence, whether on furlough or on privilege leave, can never be claimed as of right, and is given or refused at the discretion of Government.

12. After five years' continuous absence from India, an officer is considered to be out of the employment of Government.

13. When leave allowances other than privilege leave pay are paid at the Home Treasury, or in a Colony where the standard of currency is gold, rupees are converted into sterling at the rate of exchange fixed for the time being for the adjustment of financial transactions between the Imperial and Indian Treasuries, unless any other rate has been exceptionally authorised. But for the present the rate of conversion is subject to a minimum of 1*s.* 6*d.* to the rupee.

APPENDIX V.

REGULATIONS AS TO THE PHYSICAL EXAMINATION OF CANDIDATES FOR APPOINTMENT TO THE PUBLIC WORKS DEPARTMENT OF THE GOVERNMENT OF INDIA.

Note.—These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service; and that his discretion is in no respect limited by these Regulations.

It is not the practice to communicate to candidates who may be reported as physically unfit for service in India the reasons for the Medical Board's opinion.

General Physical Requirements.

1. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

2. In the examination of candidates the Medical Board will apply the following table of correlation of age, height, and chest girth :—

Age.	Height without shoes.	Chest.	
		Girth when expanded.	Range of Expansion.
	Inches.	Inches.	Inches.
21 and upwards	62½ and under 65	35	2
	65 „ 68	35½	3
	68 „ 70	36	2
	70 „ 72	36½	2½
	72 and upwards	37	2½

3. *Measurement of Height.*—The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks, and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths. In the Indian Police Force a minimum height of 5 feet 4 inches is required, but in other Departments no fixed limit of height is imposed.

4. *Measurement of Chest.*—The candidates will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest, with its posterior upper edge touching the interior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. This maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded.

5. The hearing must be good.

6. The speech without impediment.

7. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication.

8. The chest must be well formed, the lungs and heart sound.

9. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation.

10. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.

11. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

12. A candidate must not be the subject of chronic skin disease.

13. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

14. The Regulations as to the standard of vision required are shown separately for each department. In all cases of "colour blindness" a note of the same will be made on the candidate's papers.

Candidates may, if they wish it, undergo a preliminary examination by the Medical Board, which meets at the India Office every Tuesday, under the following conditions:—

(*a*) Applications must be addressed to the Under Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas, and a statement as to the particular appointment which the candidate desires to obtain.

(*b*) Candidates must pay their travelling expenses.

(*c*) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, *at their own risk*, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board, prior to the examination, or to their appointment.

(*d*) On the other hand, it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information, and, that if after that examination he is reported to be apparently fit, he has

not on that account any claim to be accepted as physically fit when he presents himself for the final Medical Examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the Service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

REGULATIONS AS TO THE STANDARD OF VISION.

1. If myopia in one or both eyes exists, a candidate may be passed provided the ametropia does not exceed 3·5 D. and if, with correcting glasses not exceeding 3·5 D, the acuteness of vision in one eye equals $\frac{6}{6}$ and in the other $\frac{6}{9}$, there being normal range of accommodation with the glasses.

2. Myopic astigmatism does not disqualify a candidate, provided the lens, or the combined spherical and cylindrical lenses, required to correct the error of refraction, does not exceed 3·5 D; the acuteness of vision in one eye, when corrected, being equal to $\frac{6}{6}$, and in the other $\frac{6}{9}$, together with normal range of accommodation with the correcting glasses, there being no evidence of progressive disease in the choroid or retina.

3. A candidate having total hypermetropia not exceeding 4 D is not disqualified, provided the sight in one eye (when under the influence of atropine) equals $\frac{6}{6}$, and in the other eye equals $\frac{6}{9}$, with +4 D glasses, or any lower power.

4. Hypermetropic astigmatism does not disqualify, provided the lens or combined lenses required to cover the error of refraction do not exceed 4 D, and that the sight of one eye equals $\frac{6}{6}$, and the other $\frac{6}{9}$, with or without such lens or lenses.

5. A candidate having a defect of vision arising from nebula of the cornea is disqualified if the sight of one eye be less than $\frac{6}{12}$. In such a case the better eye must be emmetropic. Defects of vision arising from pathological or other changes in the deeper structures of either eye, which are not referred to in these rules, may exclude a candidate.

6. Squint or any morbid condition, subject to the risk of aggravation or recurrence, in either eye, may cause the rejection of a candidate. Any defection of the colour sense is a disqualification for appointments to the executive branch of the Railway Department. In other cases the evidence of any defection of colour sense will be noted on the candidate's papers.

FOR ALL APPOINTMENTS UNDER THE INDIAN GOVERNMENT A DECLARATION AS FOLLOWS IS REQUIRED FROM CANDIDATES.

1. I ..... do declare upon honour that, to the best of my knowledge and belief, I am not at present suffering or affected with any form of disease or bodily infirmity, viz.:—

(*a*) Disease of the heart or lungs.
(*b*) Venereal disease.
(*c*) Fits.
(*d*) Rupture.
(*e*) Varicocele or varicose veins.
(*f*) Hydrocele.
(*g*) Malformation.
(*h*) Congenital defect.
(*i*) Defective sight or hearing.
(*j*) Loss of teeth.
(*k*) Impediment in speech.
(*l*) Gout or rheumatism.

2. That I have not to my knowledge any hereditary tendency or predisposition to mental or constitutional disease, such as—

(*a*) Fits or insanity.

(*b*) Cancer

(*c*) Consumption or scrofula.

3. That I will fully reveal to the Medical Board all circumstances within my knowledge that concern my health and fitness for the appointment for which I am a candidate.

4. That I have previously been examined by a Medical Board for the public service and was declared . on the

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 1st May 1919, based on the Indian Daily Weather Reports of the period.

1. On the first day of the week weather was disturbed over the greater part of the country, and widespread rain fell in the west of the United Provinces and local rain in Bengal, with a few falls over the rest of northern India and in the south of the Peninsula. A period of less unsettled weather followed, in which rainfall occurred chiefly on the north Madras coast and in south Madras. On the 28th rain reappeared in Assam and was nearly general on the 29th and 30th.

2. *Burma.*—Myitkyina, Yamethin and Victoria Point reported rain during the week.

Northeast India, including Orissa.—In Assam nearly general rain fell on the 29th and 30th, and local rain on the 28th, while a few falls were recorded on three other days; in Bengal rainfall was local on the 24th, and occurred at a few stations between the 25th and 28th. In Bihar weather was dry except for a light fall at Gaya, while in Chota Nagpur nearly general rain fell on the 25th, and in Orissa there was local rain on the 24th and 26th with a few falls on the 30th.

The United Provinces, Central India and the Central Provinces.—There was nearly general rain in the west of the United Provinces and local rain in the west of Central India on the 24th; over the rest of the division rain was limited to a moderate fall at Gorakhpur, and to a light fall at Allahabad, Chanda and Pendra.

Northwest India.—Rainfall was local in the Punjab hills on the 28th, in Kashmir and the North-West Frontier Province on the 27th, and in west Rajputana on the 26th; a few falls occurred on two other days in the North-West Frontier Province. In the rest of the division the week was rainless except for a light fall at Udaipur.

The Peninsula.—Local rain fell in Malabar and on the north Madras coast on the 25th, and in southeast Madras on this and the succeeding day; there were a few falls in Malabar on three other days, and in southeast Madras on one other day. In the other subdivisions Belgaum and Mercara were the only stations that received rain during the week.

3. The chief amounts of rainfall reported were as follows:—

April 24th. Yamethin 1·17″, Barisal 0·85″, Jessore 0·86″, Dinajpur 0·70″, Balasore 0·59″, Jhansi 0·27″, Agra 0·25″, Mainpuri 0·22″, Bareilly 0·30″, Dehra Dun 0·20″, Mukteswar 1·93″, Pendra 0·22″, Udhaipur 0·30″, Parachinar 0·40″, Cuddalore 2·33″ and Ootacamund 0·73″.

„ 25th. Jalpaiguri 0·75″, Gorakhpur 0·40″, Cochin 1·70″, Masulipatam 1·25″, Ootacamund 0·82″ and Kodaikanal 0·86″.

„ 26th. Mymensingh 0·39″, Parachinar 0·25″, Jodhpur 1·05″ and Kodaikanal 0·84″.

„ 27th. Mercara 0·50″.

„ 28th. Shillong 0·82″, Murree 0·35″ and Belgaum 0·61″.

„ 29th. Dibrugarh 0·64″, Tezpur 0·88″ and Mercara 0·50″.

„ 30th. Tezpur 0·93″, Cherrapunji 7·45″ and Cochin 0·38″.

4. The week's rainfall was 20 per cent or more in excess in Orissa, the United Provinces West, Rajputana, Central India West and the Madras Coast North: and was 20 per cent or more in defect in the Bay Islands, Burma, Assam, Bengal, Bihar, the Punjab, Kashmir, the North-West Frontier Province, Baluchistan, Central India East, Berar, the Central Provinces, the Konkan, Hyderabad, Mysore, Malabar and the Madras Deccan. It was normal in Chota Nagpur, the United Provinces East, the Bombay Deccan and Madras Southeast. No rain usually falls at this time of year in Sind and Gujarat.

The rainfall from the 29th November to date is 20 per cent or more in defect in Bay Islands, Upper Burma, Assam, the North-West Frontier Province, the Konkan and the Bombay Deccan; and is 20 per cent or more in excess in Orissa, Chota Nagpur, the United Provinces West, Sind, Rajputana West, Gujarat, Central India, Berar, the Central Provinces, Hyderabad and the Madras Coast North. GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 26th April 1919.

Burma.—Except in Yamethin and Chin Hills, where a fall of over an inch is recorded, slight showers fell in twelve districts. In Upper Burma cultivation of spring rice, sowing of early sesamum and gathering of island crops continue. Standing crops are generally in good condition. Cattle are generally healthy. The price of unhusked rice at Rangoon has risen to Rs. 147 per hundred baskets and is much above normal. The market for white rice is firm at Rs. 335 per hundred baskets for specials but there are no sellers.

Assam.—The weather during the week was seasonable and favourable. Pressing of sugarcane is nearing completion. Harvesting of spring rice, ploughing for and sowing of autumn and broadcast winter rice and jute, plucking of tea and ploughing for rice seedlings are in progress. Prospects and outturn of crops are fair. Cattle disease is reported from five districts. The price of common rice is rising seasonably.

Bengal.—The rainfall during the week was seasonable and has generally improved the prospects of standing crops. Sowings of jute, and autumn paddy continue in full swing. The average price of common rice has risen by 5 per cent. Distress continues in Bankura where loans are being granted and 7,576 persons received gratuitous relief. The number of persons engaged on District Board works was 4,430. The daily average of persons on test works in the Brahmanbaria subdivision of the Tippera district was 1,329.

Bihar and Orissa.—Light rain was general over the Province. Preparation of lands for the next season's crops continues. Threshing of spring crops is going on. Standing crops are doing well. The daily average number of persons attending test works was 2,910 in Bhagalpur, 3,375 in Angul, 2,177 in Manbhum and 10 in Ranchi. Gratuitous relief was given to 379 persons in Bhagalpur and 4,246 in Angul. Figures for Cuttack have not been received. The price of common rice has risen in nine districts, fallen in three and remained stationary in the remaining districts as compared with that of the preceding week. Cattle disease is reported from ten districts. During the week ending the 19th April, 15,121 persons were given gratuitous relief and 10,924 attended test works in ten Feudatory States of Orissa, *viz.*, Athgarh, Nayagarh, Dhenkanal, Narsinghpur, Hindol Khanpara, Baramba, Figiria, Daspalla and Talcher.

United Provinces.—During the week light rain fell in most districts. Threshing of spring crops, irrigation of extra crops and sugarcane and weighments of opium continue. The condition of standing crops is good. Prospects are favourable. The condition of agricultural stock is, on the whole, satisfactory though cattle disease is reported to be increasing. Fodder is still scarce and dear in a few districts. Water and market supplies are generally sufficient. Prices are mostly stationary.

The weekly report on scarcity is as follows.—Light but general rain fell throughout the affected districts. Prospects are good. The condition of agricultural stock is reported to be deteriorating in the Hamirpur, Banda and Etawah districts. Elsewhere it is satisfactory. Cattle disease is reported from parts of Jalaun and Jhansi. Fodder is still scarce in some districts. Forest hay is being steadily supplied. Water is sufficient. Markets are well supplied. The price basis in Garhwal was 4 seers, in Agra and Etawah 6 seers, in Benares and Mirzapur 6¼ seers, and elsewhere 7 seers per rupee. Subsistence takavi is being given in Garhwal. Advances for aided works are also being freely given in Etawah. Distress is still severe in affected tracts of Etawah but elsewhere it is slight. The public health is reported to be satisfactory except for a few cases of cholera and smallpox in Benares, Basti and Etawah. No marked increase in crime and no wandering or emaciation are noticeable. Some emigration from Mirzapur and immigration into the Etawah district from Gwalior are reported. Clothing is being provided from famine store fund and from district charitable relief funds. The condition of people on works is satisfactory. Number of persons relieved :—Garhwal—gratuitous relief 988; Etawah—works 11,862, aided works 507, private works 586, gratuitous relief 2,661, total 15,616; Benares—private works 303, gratuitous relief 352, total 655; Jalaun—works 294, private works 30, poorhouse 19, gratuitous relief 653, total 996; Jhansi—poorhouse 9, gratuitous relief 402, total 411; Hamirpur—works 533, private works 132, poorhouse 141, gratuitous relief 2,008, total 2,814; Banda—works 69, private works 62, poorhouse 22, gratuitous relief 3,598, total 3,751; Agra—works 276; Mirzapore—works 126, private works 230, poorhouse 41, gratuitous relief 1,020, total 1,417; Basti—works 882, aided works 337, private works 52, gratuitous relief 205, total 1,476.

Punjab.—Light rain fell during the week in almost all the reporting districts and was useful for extra spring and autumn crops. The condition of standing crops is

generally good on irrigated and below average to average on unirrigated areas. Sowings of extra spring crops, sugarcane, cotton and fodder continue and are below normal to normal. Reaping of wheat and other spring crops continues. The yield is normal or above normal on irrigated and generally below normal on unirrigated areas. Cattle are generally healthy. Dry fodder is scarce in most districts but green fodder is available. Water is generally sufficient. Prices are generally stationary and above scarcity rates. Price of wheat:—Rawalpindi and Lyallpur 6¼, Ferozepore 7¼ and Lahore 7¾ seers per rupee.

North-West Frontier Province.—During the week rain fell throughout the Province. The condition of standing crops both on irrigated and unirrigated lands is average in Peshawar and Bannu and below normal in Dera Ismail Khan. Sowings of extra spring crops, and cotton continue in places and are normal. Harvesting of spring crops is in progress. The price of wheat in Peshawar was 7¼ and in Dera Ismail Khan 7¾ seers per rupee. Fodder is deficient in Dera Ismail Khan.

Jammu.—Slight rain fell during the week. Prices are falling slightly. Fodder is sufficient. There is no cattle disease.

Kashmir.—The week was generally rainy and mild. Spring crops are in fair condition. Cattle are generally healthy. Prices are fluctuating.

Rajputana.—Report on season and crop not received.

The weekly report on famine in Karauli is as follows:—Distress is not acute but will probably increase after spring crops are harvested. Classes affected are labourers, low-paid servants and cultivaters. People are resorting to works. There is no wandering or emaciation and no epidemic disease. The public health continues to be good. There is no serious crime. Prices are high and stationary. Staple food grain sells at 7 seers per rupee. Numbers on relief in tens:—works 48, gratuitous 16, total 64.

Central India.—Slight showers fell in Bundelkhand and in the Southern States. Sugarcane is being irrigated in Malwa. Harvesting of spring crops is approaching completion in Gwalior, Indore and Bundelkhand and progressing elsewhere. The condition of standing crops is good in Gwalior, fair to good in Baghelkhand, bad in Malwa except Bagli and Piploda, and indifferent elsewhere. The probable outturn is fair to good except in parts of Indore, Bundelkhand, Malwa and the Southern States. The condition of agricultural stock is bad in parts of Gwalior, Bundelkhand and the Southern States, poor in parts of Malwa, and fair elsewhere, except for cattle disease in parts of Bhopal, Baghelkhand, Malwa and the Southern States. Scarcity of fodder prevails in Gwalior, Indore, Bundelkhand and in parts of Malwa and the Southern States. Prices are high but stationary. Poppy is in fair condition in Indore and collection of opium is nearing completion in Gwalior.

The weekly report on famine is as follows:—

Bundelkhand.—Distress is not acute. The number of persons on relief is slightly increasing as harvesting approaches completion. There is no wandering or emaciation. Relief measures are adequate. Suspension of land revenue is being granted and *takavi* advances are sufficient. The public health is good but smallpox is prevalent. Prices range from 6 to 2¾ seers per rupee save in Orchha, Ajaigarh, Bijawar, Chhatarpur and Alipura where *kodo* is available from 9 to 11 seers per rupee. Numbers on relief in thousands:—works 12·7, gratuitous 7·3, total 20.

Baghelkhand.—The condition of people is good. Relief measures are adequate. Fodder and water are plentiful. Prices are 7 to 8 seers per rupee. The number of persons on Kothi relief works was 302 and in receipt of gratuitous relief 53, total 355.

Central Provinces.—The weather during the week was hot and occasionally cloudy. Bilaspur received 17 cents of rain. Light hail is reported in parts of the Chhatisgarh district but no damage was caused. Threshing is approaching completion and winnowing is in full swing. Land is being prepared for autumn sowings. Picking of *jadi* cotton continues in Chanda. Cotton is still coming in large quantities to Nagpur market for sale. Picking of *Mahua* flowers continues and about half the normal yield is anticipated. The condition of agricultural stock is generally good but cattle disease is reported in parts of seven districts. The supply of fodder and water is adequate except in Hoshangabad, Betul and Chhindwara and in Berar districts. Cholera has appeared in parts of Raipur and Bilaspur districts. Relief measures continue in seven districts. The price of rice has fallen in northern districts but prices of other food grains are still high.

Feudatory States.—Five States received rain ranging between 10 to 85 cents. Threshing and winnowing have been nearly completed. Preparation of land for autumn sowings is in progress.

The weekly report on famine and scarcity is as follows:—In Jubbulpore though distress is somewhat less, numbers on works are increasing owing to completion of harvesting operations. Famine has been declared in the whole of the Mandla district where special arrangements for importation of grain have been made and extensive road and forest programme started. The public health is good except for some cholera in Jubbulpore and

cholera and small-pox in Raipur and Bilaspur. Private charity continues to give relief in most districts. Numbers on works still kept down by *mahua* picking. Prices of food-grains are high but stationary except in Betul where it is falling slightly. Number on works :—Jubbulpore 4,146, Damoh 1,030, Seoni 1,150, Mandla 948, Betul 3,608, Chanda 32, Raipur 18,169, Bilaspur 2,004, Drug 3,600, Amraoti 1,578, Buldana 155, Akola *nil* : total 31,420. Numbers on gratuitous relief :—Jubbulpore 18,708, Damoh 3,100, Seoni 1,119, Mandla 2,397, Betul 4,923, Chanda 156, Raipur 26, Bilaspur 3,000, Drug 1,600, Amraoti 2,857, Buldana 1,741, Akola *nil* ; total 39,127.

Bombay.—Slight rain fell in parts of Karachi, Sukkur, Larkana, Thar and Parkar, Kolhapur and Dharwar and heavy rain in some parts of Thar and Parkar and Dharwar. Standing crops are in fair to good condition in several districts but have been damaged slightly by hail storms in Larkana. Harvesting of spring crops is nearing completion. Preparations are being made for the next season's cultivation. The fodder supply is generally insufficient but supplies continue to be moved to worst affected areas under Government arrangements. Agricultural stock is generally sufficient but cattle continue to deteriorate except in the Konkan. Irrigation is generally deficient. Prices of food grains are high but generally steady.

The weekly report on famine and scarcity is as follows :—Slight rain fell during the week in Broach, Satara and Belgaum. Lands are being prepared for the next season. Raising of hot weather crops continues in the Panch Mahals, Kaira and Broach. Relief works are in progress in Ahmednagar, parts of the Panch Mahals, Poona and Satara. Village works continue in Gujarat and Ahmednagar. Test works are open in the Panch Mahals, Poona and in two States of Kathiawar. The poor house opened at Chembur in the Thana District for receiving destitute immigrants into Bombay City had 541 inmates on 26th April. The number of persons on relief works including dependants on the last day of the week ending 26th April, was :—Panch Mahals 16,997, Ahmednagar 29,800, Poona 16,863, Satara 9,248, total 72,908. The number of persons in receipt of gratuitous relief including village servants was :—Ahmedabad 4,613, Panch Mahals 22,124, Kaira 11,028, Broach 4,620, Kathiawar 5,370, East Khandesh 90, West Khandesh 4,558, Ahmednagar 13,900, Poona 11,451, Sholapur 1,428, Satara 3,490, Bijapur 5,416, Belgaum 2,580, total 90,728 ; Native States of Kathiawar 1,914 and Rewa Kantha 124. Numbers on village works were :—Ahmedabad 127, Panch Mahals 459, Kaira 2,153, Broach 2,074, Ahmednagar 300, Rewa Kantha Agency 587, total 5,700 ; Native States of Rewa Kantha 1,329. Numbers on test works were :—Panch Mahals 848, Poona 1,723, total 2,571 ; Native States of Kathiawar 157. People on relief are in good condition and relief measures are adequate. There is no marked increase in mortality and crime. Medical arrangements are adequate. Numbers on works are increasing. No wandering or emaciation is noticed. The public health is generally good except for slight cholera and smallpox in some places. Prices of foodgrains are high but generally stationary. The supply of rice is deficient in some districts. Cheap grain shops are working in the Panch Mahals, Broach, Khandesh, Nasik and Kathiawar. Private charitable relief is being organized and distributed in some districts. The supply of fodder and water is deficient in many places. Fodder is still being supplied to affected areas under Government arrangements, and prickly pear is extensively used in some districts especially in Ahmednagar (24,000 cattle), Poona and Broach. The condition of cattle is generally indifferent.

Hyderabad.—The average rainfall during the week was 17 cents. Late rice is being harvested and the crop is in fair condition except in parts of three districts. Lands for autumn crops are being prepared. Cattle are generally healthy. Fodder is scarce in most districts. Prices of grains continue to be abnormally high. *Jaar* is selling at 3¼ seers per rupee in the Karimnagar district.

Mysore.—Slight rain fell during the week. The outturn of harvested sugarcane and rice is poor. Standing crops are in fair condition. Cattle are generally healthy. Water and fodder are generally available. Prices are high and fluctuating. Prospects of the season are fair. Ploughing, manuring and sowing of sugarcane and rice are in progress in parts.

Coorg.—Light rain fell during the week. Coffee is in blossom. Cattle are generally healthy. Water and fodder for cattle are sufficient. The public health is fair. Prices of foodgrains are high.

Madras.—The rainfall during the week was good in Godavari, South Arcot, Trichinopoly, Malabar and the Hills, fair in Ganjam, the Vizagapatam Agency, Kistna, Guntur, Kurnool, Cuddapah, Central except Trichinopoly, Tanjore, Madura, Tinnevelly, Travancore and Cochin, and light or *nil* elsewhere. Standing crops are in fair condition generally but are withering in limited areas in Cuddapah, Chingleput, Chittoor, Ramnad and Tinnevelly. Harvesting of paddy, sugarcane and dry crops is limited with outturn sometimes fair but poor in parts of eleven districts. Late sowings of paddy and dry crops are proceeding under wells and tanks to a small extent. The condition of cattle is good

generally. Water is insufficient except in Nellore, Chingleput, Malabar and the Hills. Pasture is sufficient except in parts of eighteen districts. Fodder is insufficient in parts of seven districts. Prices are generally steady. Prospects are fair generally but bad in parts of Vizagapatam, Godavari, Kistna, Guntur, Bellary, Chittoor, North Arcot and Salem. The number of persons on one test work in Kistna was 250 and in receipt of gratuitous relief 100, total 350.

The weekly report on famine in Ganjam is as follows:—Twenty four relief works in Gumsur and eleven in Udayagiri are in progress. Khonds and Panos, mostly affected people, are resorting freely to works. There is no marked foreign influx. The condition of people is generally fair. The public health is fair though smallpox and cholera prevail in parts. Relief measures are adequate. Distribution of cloths provided by private subscriptions continues, and suspensions and remissions of revenue are being granted and State loans advanced. The price of rice in Gumsur was 4·3 seers per rupee The number of persons on works was 15,806 and in receipt of gratuitous relief 43,639, total 59,445. Two test works were started on 25th April in Kalliketa and Atagada Estates. The average attendance was 887.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the *Gazette of India* is sometimes sent to the Press late on Friday evenings for publication in the next day's *Gazette* and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Press not later than 2 P.M. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's *Gazette*. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next *Gazette*.

J. P. HEWETT,
Secretary to the Government of India."

NOTICES.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

1. *All communications* relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) must be made in English and addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed and a full address given in all communications.

2. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. *These should be consulted before an application is made to the Controller.*

3. *Advice.* The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs

or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Models are not required unless specially asked for. Drawings must be on tracing cloth and the Rules and Instructions for the preparation of drawings as given in the Handbook should be strictly followed. A provisional patent cannot be secured under the Indian Patents and Designs Act, 1911.

4. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India application should be made to the patent offices in the countries concerned.

5. *Fees* are payable in *cash* and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission for which due allowance should be made. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

6. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with *pictures, photographs, etc.*, for which copyright is obtainable under the Indian Copyright Act, 1914.

7. *Printed Specifications* of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the *Gazette of India*. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

The following is a List of Maps published at the Head-Quarter Offices, Calcutta and Dehra Dun, during the Quarter ending 31st March 1919.

EXPLANATION.

All maps from Surveys after 1905 called "Modern" are printed in 4 or 5 colours, i.e., water forms in blue, towns and roads in red, forests and jungle in green, cultivation in yellow, hill contours in brown with shading to emphasize the hills, and other details in black.

All Maps from Surveys prior to 1905 called "Old" are printed in black only or in black with hills in brown.

All Maps on scales 1"=4 miles, $\frac{1}{1,000,000}$ or nearly 1"=16 miles and $\frac{1}{2,000,000}$ or nearly 1"=32 miles are printed in either one or two of the following editions, except those marked "Provisional Issue" which are from old surveys :—

(1) *Layered edition*, printed in colours with contours and graduated layer tints to show altitudes and shading to emphasize the hills. (*Colour ribands along boundaries cannot be added to this edition.*)

(2) *Political edition*, printed in colours with colour ribands along boundaries, contours to show altitudes and shading to emphasize the hills.

(3) *Provisional Issue*, generally printed in black or in black with hills in brown. Colour ribands along boundaries are added by hand when required at an extra cost of 2 annas per sheet.

IMPORTS INTO CHIEF PORTS DURING FEBRUARY, 1919

RETURN SHOWING the QUANTITIES of the PRINCIPAL STAPLES OF AGRICULTURAL PRODUCE IMPORTED into CALCUTTA, BOMBAY, KARACHI, and MADRAS PORTS by RAIL, RIVER, and SEA during FEBRUARY, 1919

DEPARTMENT OF STATISTICS, INDIA
April 24, 1919

G. FINDLAY SHIRRAS,
Director of Statistics

Published by order of the Governor-General in Council

DEPARTMENT OF STATISTICS, INDIA.

TRADE FLUCTUATIONS IN SELECTED ARTICLES IN FEBRUARY, 1919.

The object of the tables appended is to show the quantities of the principal staples of agricultural produce imported from the various provinces and Indian states and from foreign countries into the ports of Calcutta, Bombay, Karachi, and into the Madras ports during the month of February, 1919, and for the eleven months, April to February, 1919 as compared with the corresponding periods of 1918. The statistics include sea-borne foreign and coasting trade as well as inland (rail and river-borne) trade. They have been furnished by Collectors of Customs, Steamer Companies, Railway Audit Officers, and the Commissioners for the Port of Calcutta.

TRADE FLUCTUATIONS IN FEBRUARY, 1918 AND 1919.

It will be seen from Table I that the imports by rail, river, and sea in February, 1919, as against the corresponding month of 1918, show (in round numbers) a decrease of—

71 per cent in wheat (excluding wheat flour)
(20,300 tons as against 70,500 tons last year),
25 per cent in gram and pulse
(50,900 tons as against 68,300 tons last year),
21 per cent in tea
(17,265,600 lbs as against 21,953,000 lbs last year),
7 per cent in linseed
(6,400 tons as against 6,900 tons last year), and
1 per cent in rape and mustard seed
(8,300 tons as against 8,400 tons last year).

The imports of rice (including paddy) by rail, river, and sea into ports show an increase of 45 per cent (155,800 tons as against 107,300 tons last year) due mainly to larger exports from Bengal and Burma. The increase of 14 per cent (319,800 bales as against 281,000 bales last year) in the imports of raw cotton is accounted for by larger exports from Bombay and the Nizam's territory. The rise of 8 per cent (347,900 bales as against 321,900 bales last year) in the imports of jute is due to an increase in the exports mainly from Bihar and Orissa.

It will be seen from Table IV (wheat, excluding wheat flour) that the principal sources of the imports in February, 1918, were the United Provinces and the Central Provinces and Berar. During February, 1919, the Provinces from which the ports received their supplies were mainly the Punjab (47 per cent of the total) and the United Provinces (39 per cent). Table XI shows the *exports* from India by sea of wheat (including wheat flour) month by month during the last six years.

NOTE.—One bale of cotton or jute is equivalent to 400 lbs.
One maund is equivalent to 82⅔ lbs.
One maund of paddy is taken as equivalent to 25 seers of rice.

GENERAL RESULTS—ELEVEN MONTHS' IMPORTS INTO THE PORTS FROM UP-COUNTRY, ETC., THIS YEAR AND LAST YEAR.

The eleven months' figures in table I show (in round numbers) an increase of—

113 per cent in linseed
(315,700 tons as against 148,200 tons last year),

12 per cent in jute
(4,566,600 bales as against 4,059,300 bales last year),

5 per cent in rape and mustard seed
(121,500 tons as against 115,800 tons last year), and

4 per cent in rice (including paddy)
(1,031,100 tons as against 989,300 tons last year).

Imports of wheat (excluding wheat flour) by rail, river, and sea into ports show a decrease of 52 per cent (862,600 tons as against 1,797,000 tons last year), mainly on account of smaller exports from the Punjab, the United Provinces, the Central Provinces, Rajputana and Central India and Sind and British Baluchistan. The decrease of 19 per cent (242,845,300 lbs as against 300,384,300 lbs last year), in tea is mainly accounted for by smaller exports from Assam and Bengal. The fall of 11 per cent (2,629,400 bales as against 2,946,800 bales last year) in the imports of raw cotton is mainly due to smaller exports from Bombay, Rajputana and Central India, Madras, the United Provinces, and the Central Provinces and Berar, and smaller shipments from Sind and British Baluchistan. The imports of gram and pulse into ports show a decrease of 8 per cent (731,700 tons as against 792,800 tons last year) owing mainly to smaller exports from the United Provinces, Bihar and Orissa, Rajputana and Central India and the Central Provinces and Berar.

TRADE FLUCTUATIONS IN FEBRUARY, 1919, AS COMPARED WITH THE PREVIOUS MONTH.

As compared with January, 1919, the imports in February, 1919, into the ports referred to above show (in round numbers) a decrease of—

63 per cent in linseed
(6,400 tons as against 17,300 tons previous month),

44 per cent in wheat (excluding wheat flour)
(20,300 tons as against 35,800 tons previous month),

31 per cent in rape and mustard seed
(8,300 tons as against 12,000 tons previous month), and

25 per cent in raw cotton
(319,800 bales as against 425,600 bales previous month),

and an increase of—

58 per cent in rice (including paddy)
(155,800 tons as against 98,400 tons previous month),

49 per cent in gram and pulse
(50,900 tons as against 34,100 tons previous month),

44 per cent in tea
(17,265,600 lbs as against 12,022,000 lbs previous month), and

30 per cent in jute
(347,900 bales as against 268,600 bales previous month).

The Statistics for February, 1918 and 1919, as also for the eleven months ending February, 1918 and 1919, together with those for January, 1919 and February, 1919, are summarised below :—

NOTE.—One bale of jute is equivalent to 400 lbs.

By "Calcutta" is meant the town of Calcutta with Howrah and the Kidderpore Docks The imports exclude, therefore, imports into those jute mills which are outside this area. Such mills form the large majority of the total number of mills manufacturing jute.

WHOLESALE AND RETAIL (FORTNIGHTLY) PRICES

RETURN SHOWING the WHOLESALE and RETAIL PRICES of CEREALS, PULSES, OILSEEDS, SUGAR (RAW), SALT, ETC., in INDIA by DISTRICTS for the FORTNIGHT ENDING THE 31ST MARCH 1919

DEPARTMENT OF STATISTICS, INDIA
April 30, 1919

G. FINDLAY SHIRRAS,
Director of Statistics

Published by order of the Governor-General in Council

PREFATORY NOTE.

Prices of Country Produce and Salt in India at the end of March 1919.

(*a*) *March 1919 as compared with March 1918.*

The wholesale prices of food grains and pulses in India at the end of March, 1919, advanced, owing to the unsatisfactory monsoon of 1918, by 56 per cent (unweighted average), as compared with the corresponding date of the previous year. The weighted average showed a rise of 61 per cent. The price of rice increased by 60 per cent, Bengal showing a rise of 71 per cent, Bihar and Orissa 101 per cent, the Madras Presidency 39 per cent, and Burma 33 per cent. Among the minor rice-producing provinces, there was an increase of 88 per cent in the Central Provinces and Berar, and 81 per cent in Assam and the North-West Frontier Province each. Wheat prices rose by 34 per cent; among the great wheat-producing areas, the Punjab showed an increase of 21 per cent, the United Provinces 34 per cent, the Central Provinces and Berar 62 per cent, and Bihar and Orissa 45 per cent. The price of barley in India increased by 29 per cent (unweighted average), the weighted average showing a rise of 19 per cent. The rise in Bihar and Orissa (60 per cent) and the United Provinces (57 per cent) is noteworthy. The price of jawar advanced by 70 per cent. The chief increases were: 107 per cent in the Punjab, 85 per cent in Bihar and Orissa, 80 per cent in the Central Provinces and Berar, 79 per cent in the United Provinces, and 66 per cent in the Madras Presidency. Bajra showed a rise of 76 per cent (unweighted average), the weighted average being 68 per cent. There was a rise of 115 per cent in the North-West Frontier Province, 82 per cent in the United Provinces, 74 per cent in the Punjab, 63 per cent in Sind and Baluchistan and the Madras Presidency each, and 61 per cent in the Bombay Presidency. The price of maize increased by 48 per cent (unweighted average). The weighted average showed a rise of 81 per cent. The rise of 120 per cent in Bihar and Orissa and of 104 per cent in the United Provinces is striking. Gram was 54 per cent above the level of last year; in Bihar and Orissa and in the Central Provinces and Berar, it rose by 92 per cent, in the United Provinces by 86 per cent, and in the Madras Presidency by 75 per cent. The average price of arhar dál showed a rise of 74 per cent. In Bihar and Orissa, the United Provinces and the Central Provinces and Berar the price was more than double the rate for the previous year. The price of ghi and raw sugar (*gur*) increased by 28 per cent and 49 per cent, respectively. There was a rise of 53 per cent in the price of ghi in the Madras Presidency and of more than 75 per cent in raw sugar (*gur*) in the Punjab and the North-West Frontier Province. The average price of salt in India declined by 8 per cent, although in the North-West Frontier Province, the Punjab, and Sind and Baluchistan it rose by 46, 16 and 5 per cent respectively. The most noticeable decreases in salt prices were in the United Provinces (34 per cent), Bengal (29 per cent) and Assam (27 per cent).

Rice. Wheat. Barley. Jawar. Bajra. Maize. Gram. Arhar dál. Ghi and Sugar, raw (*gur*). Salt.

(*b*) *The last fortnight of March 1919 as compared with the previous fortnight.*

2. Compared with the preceding fortnight, the prices of cereals and pulses in India at the end of March, 1919, showed a fall of 4 per cent. The prices of wheat and bajra declined by no less than 6 per cent each. There was a fall of 8 per cent in barley, 5 per cent in maize, 7 per cent in gram, and 3 per cent in arhar dál. The prices of rice, jawar and ghi showed no fluctuation, while those of raw sugar (*gur*) and salt fell by 1 and 3 per cent, respectively.

FOREIGN SEA-BORNE TRADE DURING MARCH, 1919.

REVIEW of the SEA-BORNE TRADE of BRITISH INDIA for the month of MARCH, 1919, and for the twelve months ended March, 1919.

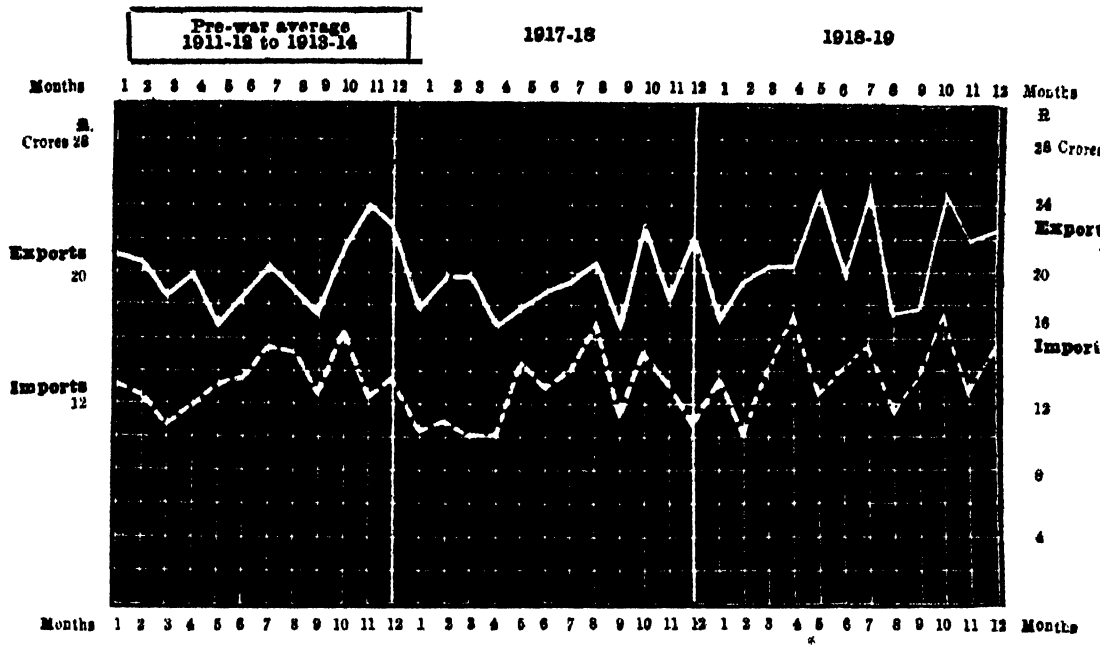
FOREIGN COMMERCE.

MARCH AND THE TWELVE MONTHS ENDED MARCH, 1919.

The trade returns of British India for March, 1919, as compared with those of its immediate predecessor, showed increases in the import and re-export trade. The total imports of merchandise in March, 1919, were valued at R15,26 lakhs as against R12,84 lakhs in the preceding month, and the value of the exports was R20,21 lakhs as against R20,53 lakhs, and of the re-exports R2,45 lakhs as against R1,39 lakhs. Imports increased by 19 per cent and re-exports by 77 per cent, while exports decreased by nearly 2 per cent. As compared with March, 1918, imports showed an increase of 40 per cent and re-exports of 81 per cent, while exports showed a decrease of 19 per cent. A review of the trade of the twelve months ended March, 1919, will be found on page 865.

The most interesting features of the month, as compared with the corresponding month of the previous year, were (1) a considerable decrease in the exports of rice, wheat, barley, gram, pulse, gunny cloth, and tea, (2) an increase in the shipments of raw and tanned hides and skins, linseed, raw cotton, raw jute, rubber, and raw wool, (3) a large increase in the imports of wheat from Australia, of grey piece goods, and of mineral oils (other than kerosene) and (4) a large decrease in the imports of sugar, 16 D. S. and above.

The quantity of wheat shipped in March, 1919, was only 624 tons as against 79,479 tons in March, 1918. The shipments were made mainly to the Persian Gulf ports of Asiatic Turkey, Persia, and Arabia. Shipments of rice not in the husk decreased to 67,258 tons from 372,970 tons in March, 1918. The quantity of wheat imported amounted to 55,220 tons, valued at R1,01 lakhs in March, 1919 as against *nil* in March, 1918.



The following statement shows the monthly imports and exports of merchandise during October, 1918, to March, 1919, as compared with the corresponding months of the preceding year :—

Average rate of exchange	d. 16·911	d. 18·031 (a)

In the twelve months ended, March 1919, the excess of exports over imports of private merchandise was ₹84,82 lakhs, as against ₹92,13 lakhs in the corresponding period of 1917-18 and ₹65,63 lakhs in the same period of 1913-14. As the publication of treasure figures has been temporarily discontinued, it is not possible to give here the net (private) exports from April to March, nor the net balance of trade in the same period. It may, however, be of interest to note that the net (private) exports in 1918-19 were higher than those of 1917-18, but below those of 1916-17. The balance of trade, so far as shown by the statistics of merchandise, treasure, Council Bills, and Enfaced Rupee paper in the twelve months ended March, 1919, was in favour of India, and this was to an extent greater than in 1917-18 and 1916-17.

The amount of Council Bills and Telegraphic Transfers paid in India in the twelve months ended March, 1919, was ₹30,91 lakhs, of which ₹21,52 lakhs were paid through the Paper Currency Reserve and ₹9,39 lakhs through the Treasuries ; but Reverse Council Bills were sold to the extent of ₹7,08 lakhs during the period, the net imports of funds by Council Bills thus amounting

to R23,83 lakhs. In the twelve months ended March, 1918, the amount was R50,72 lakhs, of which R2,07 lakhs† were paid through the Gold Standard Reserve, R12,98 lakhs through the Paper Currency Reserve, and R35,67 lakhs through the Treasuries. In the twelve months ended March, 1917, the amount of Council Bills paid was R47,07 lakhs. As regards Enfaced Rupee paper, R96 lakhs represented the amount of paper enfaced to London and over R26 lakhs the amount re-transferred from London in the twelve months, April, 1918, to March, 1919, while in the corresponding period of 1917-18, R12 lakhs represented the amount of paper enfaced to London and R95 lakhs the amount re-transferred from London.

The customs duty figures are an index to the volume of the import trade only, since under exports jute, rice, and tea only are subject to duty. In the twelve months ended March, 1919, the import duties increased to over R12,53 lakhs from nearly R12,00 lakhs in 1917-18, and the export duties rose to R3,68 lakhs from over R3,32 lakhs. The grand total of gross Indian sea and land customs revenue (excluding salt revenue) in the twelve months, April to March, 1918-19, amounted to over R18,20 lakhs, as compared with R16,57 lakhs in the preceding year.

SHIPPING.

The following table shows the number and tonnage (net register tonnage) of vessels which entered and cleared with cargoes at ports in British India during March, 1919, as compared with February, 1919, and March, 1918 and 1914 :—

March, 1914 (pre-war month)	307	844 941	172	14,821	479	859,762

The total tonnage entered and cleared with cargoes in March, 1919, as compared with that in the preceding month (February, 1919) and in the corresponding month of 1914 and 1918, is shown in the last column of the table above. In the month of March, 1919, there were 264 arrivals* and 507 sailings† with cargoes in and from India. As regards tonnage, if a comparison be made with March, 1914, the corresponding pre-war month, it will be seen that there was a decrease in the tonnage of vessels cleared with cargoes of 452,077 tons or 53 per cent. The decrease in the entries (with cargoes) amounted to 250,727 tons or 39 per cent.

The shipping clearances with cargoes in the foreign trade from the ports of British India in the twelve months, April to March, 1918-19, as compared with 1913-14, *i.e.*, before the war broke out, were as follows :—

TONNAGE (NET REGISTER TONNAGE) CLEARANCES IN THE TWELVE MONTHS, APRIL TO MARCH

	1913-14 (Pre-war year)	1918-19
British ships (including British Indian)	6,281,915	3,412,072
Foreign ships	1,970,272	1,527,246
TOTAL .	8,252,187	4,939,318

In 1918-19, as against 1913-14, the total tonnage clearances with cargoes declined 40 per cent. In 1913-14 the British (including British Indian) tonnage was 76 per cent and foreign tonnage 24 per cent of the total, while in 1918-19 the British (including British Indian) tonnage was 69 per cent and foreign tonnage 31 per cent.

Railway Statistics.

Railway statistics, like the import and export statistics above, are a valuable index to the general movement of trade throughout the country, and show that the earnings from 1st April, 1918, to 31st March, 1919, were R84,97 lakhs, as against R76,82 lakhs in the corresponding period of 1917-18, or an increase of R8,15 lakhs.

Trade of Aden in February and March, 1919.

The grand total value of the imports and exports of merchandise, by sea, into and from the port of Aden amounted to R1,01 lakhs in the month of February and R1,74 lakhs in the month of March, 1919, and R14,04 lakhs in the twelve months, April, 1918, to March, 1919. The value of the principal articles of import and export was as follows:—

Joint Stock Companies.

MARCH, 1919, AND TWELVE MONTHS, APRIL, 1918, TO MARCH, 1919.

During the month under report, as many as 41 companies were registered with an authorised capital of R6,98 lakhs, Bombay accounting for 4,89 lakhs, or 70 per cent of the total and Bengal, for R2,04 lakhs, or 29 per cent of the total. For the twelve months, April, 1918, to March, 1919, the number of companies registered was 292, with an authorised capital of R21,38 lakhs, as against 278 companies, with R30,58 lakhs of authorised capital, in the preceding year. The following statement shows the trend of registration in recent years :—

Year	No. of Companies	Index Number (pre-war year = 100)	Aggregate authorised Capital	Index Number (pre-war year = 100)	Average authorised Capital per company
			Rs.		Rs.
1913-14 (pre-war year) . .	356	100	66,91,53,000	100	18,79,000
1914-15	112	31	4,43,20,000	7	3,96,000
1915-16	131	37	7,20,19,000	11	5,50,000
1916-17	184	52	17,25,70,000	26	9,38,000
1917-18	278	78	30,57,93,000	46	11,00,000
1918-19	292	82	21,38,35,000	32	7,32,000

It will be seen that, as compared with 1913-14, the pre-war year, there was, in 1914-15, a considerable falling off in the number and authorised capital of new companies registered, owing to (1) the stringent provisions of the Indian Companies Act, VII of 1913, which came into force on 1st April, 1914, some of the flotations of 1913-14, especially among the banking, insurance, navigation, and cotton manufacturing companies, having been made in order to take advantage of the registration law then in force; and (2) the banking crisis in 1913-14 followed by the financial stringency due to war. Since 1914-15, there has been a steady increase in the number of companies, but the aggregate authorised capital and the average authorised capital per company, after increasing steadily up to 1917-18, showed a decrease in the year under review. Restrictions on the flotation of public companies were brought into effect on the passing of Act XII in March, 1918. Table No, 2 shows the various classes of companies that were registered in British India and in the Mysore State during the pre-war (1913-14) and the four years (1915-16 to 1918-19). The total number of companies registered during the five war years (1914-15 to 1918-19) is 997 with a total authorised capital of Rs. 80,85,67,000.

In the United Kingdom, it is interesting to note, by way of comparison, that the number of companies registered declined from 7,425 in 1913 to 3,504 in 1918, and the nominal capital from £157,187,000 to £127,879,000. The following statement shows the number of companies registered, and the nominal capital invested therein, in the United Kingdom, during the pre-war and the five war years ending 1918 :—

Year	No. of Companies	Nominal Capital
		£
1913 (pre-war year)	7,425	157,187,000

COTTON PRESS RETURN

No. 13 of 1918-19.

PREFATORY NOTE.

The Cotton Season, 1918-19.

In the Final Cotton Forecast, published on the 19th February, 1919, the yield of the crop was estimated at 3,671,000 bales on an area of 20,497,000 acres, as compared with 4,000,000* bales on an area of 25,188,000 acres, the final estimates of last year, a decrease of 8 per cent in the outturn. There were 1,107,000 bales of cotton pressed in the pressing factories, and 262,000 bales of unpressed cotton received in the spinning mills, from 1st September to 15th March, 1919, as against 894,000 bales and 315,000 bales, respectively, during the corresponding period of last year, showing an increase of 24 per cent in the case of presses, but a decrease of 17 per cent in the case of mills. The increase in the quantity of cotton pressed this season is due to larger receipts in the presses of the Central Provinces and Berar, where the yield of this year's crop is reported to be 33 per cent better than last year. Too much stress should not be laid on the accuracy of these returns as a means of checking the forecast estimates of outturn, as there is at present no system in vogue of furnishing complete returns from all the presses and mills in India. The figures for the States of Hyderabad, Central India, Rajputana, and Mysore are, as will be seen from the footnotes to the tables, mostly incomplete and have been excluded for the purpose of comparison.

* The trade estimate is, however, 4,204,000 bales. (Net exports 1,410,000 bales, mill consumption 2,044,000 bales, and extra-factory consumption 750,000 bales.) The estimate of mill consumption is based on returns furnished by mills to the Millowners' Association, Bombay. The previous method of calculating mill consumption from the returns of yarn produced by mills, and furnished under the Cotton Excise Duties Act, has been discarded in favour of the Millowners' returns.

I.—Cotton Press Return for India in the half-month ending 15th March, 1919.

DEPARTMENT OF STATISTICS, INDIA

Director of Statistics.

DEPARTMENT OF STATISTICS, INDIA.

CALCUTTA, APRIL 22, 1919.

Special WHEAT Forecast, 1918-19.

THIS Special Forecast is based on reports received from provinces and States, and refers to 98·6 per cent of the total wheat acreage of India.

The total area now reported is 23,425,000 acres, as compared with 35,316,000 acres * at this time last year, or a decrease of 33 per cent. As compared with the final figure of last year, 35,497,000 acres (revised), the present estimate shows a decrease of 34 per cent. The total yield is estimated at 7,447,000 tons, as against 10,130,000 tons * estimated at this time last year, or a decrease of 26 per cent. This estimate falls short of the final revised figure (10,171,000 tons) of last year by 27 per cent.

General condition of the crop.—The condition of the crop continues to be fair in the important wheat growing provinces, except in Bombay, Sind, Hyderabad, and Rajputana, where the crop was very adversely affected by the unfavourable character of the season.

The decrease in the estimate of yield this year is due to smaller areas having been sown owing to the failure of monsoon and the prevalence of influenza at the sowing time. On the other hand, as will be seen from the statement (2) below, the yield per acre in the three important wheat growing provinces, namely, the Punjab, the United Provinces, and the Central Provinces and Berar, which have more than two-thirds of the total wheat area of India, is greater as compared with the corresponding estimate this time last year. The present estimate of yield as against that made at this time last year shows a decrease of 70 per cent in Bombay, 53 per cent in Sind, 28 per cent in Bihar and Orissa, 24 per cent in the Punjab, 20 per cent in the United Provinces, 19 per cent in Central India, and 13 per cent in the Central Provinces and Berar.

The detailed figures are as follows :—

The provincial reports are summarised below :—

Punjab (32·7 per cent of the total area under wheat in India).—The combined area of British districts and Indian States is now reported to be 8,070,000 acres, which is 30 per cent less than the area reported at this time last year. The area sown in the British districts is reported to be 7,241,000 acres, which is 30 per cent below the corresponding estimate of last year, and that in Indian States 829,000 acres, which is 37 per cent less than last year's estimate. The total yield of the British districts is estimated by the District Officers at 2,532,000 tons, as against 3,063,000 tons, the corresponding estimate made at this time last year, or a decrease of 17 per cent. The total estimated yield in the Indian States is 263,000 tons, which is 36 per cent below last year's yield. During the last week of February and the first three weeks of March the weather remained generally dry. Light but fairly general rain fell on and after the 23rd March and was useful to the standing crop. The total rainfall, however, was insufficient for the maturing of the unirrigated crop, especially in the south-west. The yield of the standing crop is expected to be normal or above normal on irrigated, and generally below normal on unirrigated area.

United Provinces (22 per cent of the total area under wheat in India).—The total area under wheat, pure and mixed, is reported to be 5,395,000 acres, as against 7,156,000 acres, estimated at this time last year, or a decrease of about 25 per cent. The total yield is at present estimated at 2,290,000 tons, which is 20 per cent below the estimate made at this time last year. The crop looked very promising up to the end of February, but its condition deteriorated owing to hot winds in the beginning of March. Harvesting operations are in full swing

in the eastern, and are commencing in the western districts. Reports received up to the 7th April indicate that the crop will weigh out light and the average outturn will be reduced owing to poor yields on the lands sown late in December. For the provinces as a whole, the average outturn is estimated at 85 per cent of the normal.

Central Provinces and Berar (11·6 per cent of the total area under wheat in India).—The total area sown is now estimated at 3,003,000 acres (204,000 acres being in Berar and 92,000 acres in the Khairagarh and Nandgaon States), which is about 25 per cent below the estimate made at this time last year. The total yield is estimated at 714,000 tons (30,000 tons being in Berar and 18,000 tons in the two States mentioned above), as compared with 817,000 tons, the corresponding estimate of last year, showing a decrease of 13 per cent. The showers received in January and part of February, and also in the latter part of March, which were accompanied by hail in most districts, caused some damage to the early crop in places, although the late sown crop was greatly benefited by the rainfall. For both the Central Provinces and Berar the average outturn is estimated at 90 per cent of the normal, as against 75 per cent at this time last year.

Bombay (6·8 per cent of the total area under wheat in India).—The total area is now reported to be 918,000 acres (259,000 acres being in the Indian States), which is 62 per cent below the estimate made at this time last year. The total estimated outturn is 193,000 tons (including 71,000 tons in the Indian States), which falls short of last year's corresponding estimate by about 70 per cent. Since the issue of the last report, some isolated showers were received at the end of March in Poona and Satara, but they were too late to be of any value. Owing to the unfavourable character of the season the crop was irrigated to a considerably larger extent (363,000 acres) than usual. The harvesting of the unirrigated crop has been almost finished, and its threshing is in progress. The irrigated crop is being harvested.

Sind (1·9 per cent of the total area under wheat in India).—The total area is now estimated to be 326,000 acres (15,000 acres being in the Indian States), which is 51 per cent below the corresponding estimate of last year. Of this area 232,000 acres were under irrigation this year owing to the dry season. The total yield is estimated at 85,000 tons (3,000 tons being in the Indian States), which is 53 per cent below the corresponding estimate of last year. The rains received at the end of the last month were too late to be of any value. The crop has improved to some extent under favourable winds and absence of pests. The harvesting of the crop has commenced.

Bihar and Orissa (4·1 per cent of the total area under wheat in India).—The area sown is reported to be 979,000 acres which is 20 per cent less than that estimated at this time last year. The decrease is ascribed to the failure of the late rains. The total yield is estimated at 365,000 tons as compared with 507,000 tons, estimated at the corresponding forecast last year. The rainfall in February was general over the province but below the normal except in Orissa where it was above the normal. In March rain fell in most districts, the fall being generally above the normal in Chota Nagpur but below the normal elsewhere. The outturn per acre is now estimated to approximate to 85 per cent of the normal, and on this basis the yield stated above has been estimated.

North-West Frontier Province (3·2 per cent of the total area under wheat in India).—The total area now ascertained amounts to 851,000 acres, as compared with 1,248,000 acres reported at this time last year, showing a decrease of 32 per cent. The total yield is estimated at 228,000 tons, which is 25 per cent below the corresponding estimate of last year. Harvesting operations have not yet commenced and accurate estimates of yield are not known at present. The outturn is, however, expected to be average on the whole on the irrigated lands, except in Dera Ismail Khan, while on the unirrigated lands it is generally rather below average throughout the province.

Bengal (0·4 per cent of the total area under wheat in India).—The total area sown is estimated at 114,000 acres, which is 8 per cent less than the estimate made at this time last year. The total yield is estimated at 22,000 tons, as compared with 32,000 tons, the corresponding estimate of last year, showing a decrease of 31 per cent. Rainfall in January and February proved beneficial but was too late to secure a normal crop. The average outturn for the province is estimated at 61 per cent of the normal, as against 67 per cent at this time last year.

Delhi (0·1 per cent of the total area under wheat in India).—The total area and yield are now estimated at 23,000 acres and 12,000 tons, as against 42,000 acres and 12,000 tons, the corresponding estimates of last year. Harvesting began in parts of the province from the beginning of this month.

Ajmer-Merwara (0·05 per cent of the total area under wheat in India).—The present estimates are 5,000 acres and 2,000 tons as against 19,000 acres and 6,000 tons, estimated at this time last year.

Central India (9·9 per cent of the total area under wheat in India).—The total area is estimated at 2,533,000 acres, as compared with 4,143,000 acres (revised) estimated at this time last year, showing a decrease of 39 per cent. The total yield is estimated at 580,000 tons, which is 19 per cent below the corresponding estimate of last year. The detailed figures are :—

Hyderabad (3·1 per cent of the total area under wheat in India).—The total area is now estimated at 614,000 acres, which is 51 per cent below the estimate made at this time last year. The total yield is estimated at 31,000 tons, as against 114,000 tons, estimated at this time last year, or a decrease of 73 per cent. The decrease in area as well as in yield is due to the prevalence of influenza and scanty rainfall. Detailed figures for districts are given below :—

Wheat in Foreign Countries.—It appears from the latest information published by the International Institute of Agriculture, Rome, that the area and yield of the 1918-19 crop in the Argentine are 16,961,000 acres and 4,925,000 tons, which are below the final estimates for 1917-18 by 5 per cent and 16 per cent, respectively. The estimates for Australia for 1918-19 are 8,645,000 acres and 2,161,000 tons, which are 11 per cent and 30 per cent, respectively, below the final figures of the previous year. The estimates for the other principal countries are shown below :—

	Area (acres)		Yield (tons)	
	1918	1917	1918	1917
United States of America	59,085,600	45,070,000	24,514,000	17,018,000
Canada	17,346,000	14,795,000	5,622,000	6,248,000
France†	11,922,000	10,393,000	*	3,853,000
Italy†	10,794,000	10,433,000	4,714,000	3,678,000
Spain	10,224,000	10,336,000	3,627,000	3,814,000
Algeria	3,185,000	3,220,000	*	775,000
United Kingdom	2,773,000	2,103,000	2,497,000	1,719,000

From unofficial sources it appears that the condition of the winter wheat crop in the United States of America is still very favourable. It is reported that the growing wheat shows exceptional condition and it is expected that abandoned area will be very small. Indications continue to point that an increased acreage will be put under the spring wheat, both in the United States of America and Canada. In France spring ploughing and sowing were greatly retarded by rains.

Simla, the 10th May, 1919.

The following Proclamation by His Excellency the Governor General dated May 10, 1919, is published for general information :—

PROCLAMATION.

His Excellency the Viceroy and Governor General of India desires to make known to the loyal subjects of the King Emperor the regrettable news that the Amir of Afghanistan, in violation of the treaties and in disregard of the steadfast policy of his wiser predecessors, has resolved to make a sudden and wanton attack upon the peace of India.

His Excellency believes that this surprising folly is due directly to the course of internal events in Afghanistan which followed upon the murder of His late Majesty the Amir Habibullah. A powerful section of opinion in Afghanistan is not satisfied that the true culprits have been brought to account, and resents the method in which punishment was meted out. The growth of this internal dissatisfaction is the reason which, His Excellency believes, led Amir Amanullah to his present rash adventure, in the hope of distracting his subjects' minds from internal discontents. But there is also reason to apprehend that the present breach of faith with India may be in part the long delayed fruit of the efforts of friends of Germany in Kabul who failed in all their endeavours to seduce the judgment or shake the loyalty of the late Amir. Whatever the cause, however, the results are apparent.

Evidence is in His Excellency's hands which shows that the Amir excuses his act of treachery by pretending that India is in a state of revolution which will react on his own country. The Amir has professed to his people that in India neither men's property nor their religion is safe: that three men are forbidden to speak together; that Muslims are excluded from their mosques and Hindus from their temples. Every man in India knows that these statements are false. Relying on such misstatements the Amir has called on Hindus and Muslims alike to show him allegiance. He has also caused it to be falsely stated that Sikhs have fired on British troops; that Germany is about to recommence war; and that the English have been destroyed. The Viceroy has also proof that the Amir has caused to be prepared false leaflets and proclamations of this kind for dissemination in India, and has made plans to corrupt such newspapers as he hoped might be willing to be bought.

Inspired by these futile hopes of seducing His Majesty's subjects from their allegiance the Amir has already commenced military operations. Yesterday Afghan troops were driven back by our forces from various points which they had occupied in our limits in the vicinity of Landi Kotal; military objectives at and near Dakka in Afghanistan were bombed by our aeroplanes with excellent results. In his suicidal folly the Amir has ventured to measure his strength against that of a Power which has just emerged victorious from the greatest war ever fought. The Government have overwhelming strength at their disposal and this wanton and criminal incursion will meet with the speedy punishment that it deserves. Meanwhile His Excellency the Viceroy having thus taken into his confidence the people of India bids them to abstain from believing the false rumours which the enemy seeks to circulate, to do nothing to impair the public confidence, and to refrain from any conduct which may add to the burden, of his Government. They have in times now long past had sorrowful experience of invasions from the North-West frontier. From any repetition of those miseries the power of the Government has always been and is well able to protect them. In the name of the King Emperor His Excellency the Viceroy enjoins all loyal people to assist his Government in crushing the enemy of the peace of India, and to refrain from any action which might give colour to the false stories so assiduously disseminated.

SEPARATE REVENUE.
EXCESS PROFIT DUTY.

The 9th May, 1919.

No. 1180-F.—The following draft of certain rules which it is proposed to make in exercise of the powers conferred by sub-section (1) and clauses (*b*), (*c*) and (*d*) of sub-section (2) of section 18 of the Excess Profits Duty Act, 1919 (X of 1919), is published for the information of all persons likely to be affected thereby. The rules embody the modifications of sections 20, 21, 22, 23, 24, 26, 27 and of Chapters IV and V and of sections 42, 45, 46, 47 and 49 to 52 of the Indian Income-tax Act, 1918 (VII of 1918), as applied by section 15 of the Excess Profits Duty Act, 1919, such modifications being indicated by marginal references to the corresponding sections.

Notice is hereby given that the said draft will be taken into consideration on or after the tenth day of June 1919. Any objection or suggestion which may be received from any person with respect to the draft before the date specified will be considered by the Governor General in Council.

THE EXCESS PROFITS DUTY RULES.

Short title.

1. These rules may be called the Excess Profits Duty Rules, 1919.

Definitions.

2. In these rules, unless there is anything repugnant in the subject or context,—

(*a*) "the Act" means the Excess Profits Duty Act, 1919 (X of 1919);

(*b*) "section" means a section of the Act;

(*c*) "Board" means a Board of Referees appointed under section 8; and

(*d*) "duty" means excess profits duty.

Changes of Ownership.

Where change of ownership has occurred between 1st of April 1912 and the beginning of the accounting period.

3. Where between the 1st April 1912 and the beginning of the accounting period there has been a change of ownership of the business, the standard profits shall be determined in accordance with clause (*a*) of sub-section (*1*) of section 6, except in cases where the person by whom duty is payable in respect of the business makes an application that the provisions of the Act shall apply as if there had not been a change of ownership.

Limitation for and contents of application under rule

4. (*1*) An application under rule 3 shall be presented to the Collector on or before the 15th July, 1919:

Provided that the Collector may receive an application after that date if he is satisfied that the applicant had sufficient cause for not presenting it before that date.

(*2*) An application shall state which of the options specified in clause (*b*) of sub-section (*1*) of section 6 the applicant elects for the determination of the standard profits of the business.

Where change of ownership has occurred during the accounting period.

5. Where there has been a change of ownership during the accounting period the duty shall be assessed separately for the portions of the accounting period corresponding to the different ownerships. The duty may be assessed for each portion of the accounting period on any person owning or carrying on the business immediately before the end of such portion, and each of such portions shall be deemed to be the accounting period for the purposes of the proviso to section 4 and of clause (*a*) and the first proviso to clause (*b*) of sub-section (1) of section 6; and in all such cases the provisions of section 6 shall apply for the determination of the standard profits of the business as if there had not been a change of ownership.

Method of assessment.

6. On receipt of an application under Rule 4 and in the case of an assessment under Rule 5, the Collector shall determine the standard profits of the

business according to the method desired by the person by whom duty is payable and may make such modifications in applying the Act and these rules as may be necessary to make the basis on which the standard profits are determined the same as that on which the profits of the accounting period are ascertained.

Modifications of standard and minimum profits.

7. Where under rule 5 duty is assessed on a person in respect of the profits of a business for a period of less than one year, the standard profits of the business shall be proportionately reduced and the proviso to section 4 shall be construed as if there were substituted for the amount of thirty thousand rupees a proportionately reduced amount.

Where change of ownership has occurred after the end of the accounting period and before the 1st of April, 1919.

8. Where there has been a change of ownership after the end of the accounting period and before the 1st of April, 1919, the duty may be assessed on any person owning or carrying on the business at the end of the accounting period.

Liability in special cases.

Agents.

[Modification of section 31 of Act VII of 1918 as applied.]

9. In the case of any agent of any person residing out of British India being in receipt on behalf of such person of any profits chargeable to duty under the Act, the duty may be assessed upon and recovered from such agent in like manner and to the same amount as it might be assessed upon and recovered from any such person if resident in British India and in direct receipt of such profits, and all the provisions of the Act and these rules shall apply accordingly.

Administrators-General, etc.

[Modification of section 32 of Act VII of 1918 as applied.]

10. In the case of profits chargeable under the Act which are received by an Administrator-General, an Official Trustee or by any receiver or manager (including any person whatever his designation who in fact manages property on behalf of another) appointed by or under any order of a Court, the duty may be assessed upon and recovered from such Administrator-General, Official Trustee, receiver or manager in the like manner and to the same amount as it might be assessed upon and recovered from any person on whose behalf such profits are received, and all the provisions of the Act and these rules shall apply accordingly.

Non-residents.

[Modification of section 33 of Act VII of 1918 as applied.]

11. (*1*) In the case of any person residing out of British India, all profits or gains accruing or arising to such person, whether directly or indirectly, through or from any business connection in British India shall be deemed to be profits accruing or arising within British India, and, subject to the provisions of the Act and these rules, shall be chargeable to duty in the name of the agent of any such person, and such agent shall be deemed to be for all the purposes of the Act and these rules the person by whom such duty is payable:

Provided that any arrears of duty may be recovered also in accordance with the provisions of these rules from any assets of the non-resident person which are, or may at any time come, within British India.

(*2*) Where a person not resident in British India, and not being a British subject or a firm or company constituted within His Majesty's dominions or a branch thereof, carries on business with a person resident in British India, and it appears to the Collector or the Chief Revenue-authority, as the case may be, that, owing to the close connection between the resident and the non-resident person and to the substantial control exercised by the non-resident over the resident, the course of business between those persons is so arranged that the business done by the resident in pursuance of his connection with the non-resident produces to the resident either no profits or less than the ordinary profits which might be expected to arise in that business, the profits derived therefrom or which may reasonably be deemed to have been derived therefrom shall, subject to the provisions of the Act and these rules, be chargeable to duty in the name of the resident person who shall be deemed to be, for all the purposes of the Act and these rules, the person by whom such duty is payable.

Agent to include persons treated as such.

[Modification of section 34 of Act VII of 1918 as applied.]

12. Any person employed by or on behalf of a person residing out of British India, or having any business connection with such person, upon whom the Collector has caused a notice to be served of his intention of treating him

as the agent of the non-resident person shall, for the purpose of the Act and these rules, be deemed to be such agent:

Provided that no person shall be deemed to be the agent of a non-resident person, unless he has had an opportunity of being heard by the Collector as to his liability.

Demand.

[Modification of section 20 of Act VII of 1918 as applied.]

Notice of demand.

13. When the Collector has assessed the amount of duty to be paid by a person under section 13, he shall serve on the person a notice of demand in Form I set out in the Schedule to these rules specifying the sum so payable.

Petitions, Appeals, Reference, and Revision.

[Modification of section 21 of Act VII of 1918 as applied.]

Petitions against assessment, and appeals under section 8.

14. (*1*) Any person (other than a person who has knowingly and wilfully failed to furnish any particulars referred to in section 11) objecting to the amount at which he is assessed under section 13 or denying his liability to be assessed under the Act may by petition apply, and any person dissatisfied with a decision of the Collector under section 7 may appeal, to the Chief Revenue-authority.

(*2*) Any person entitled to prefer a petition under sub-rule (*1*) and desiring to prefer both a petition and an appeal shall do so at one and the same time.

(*3*) A petition or an appeal or a petition and an appeal shall ordinarily be presented within thirty days of the receipt of the notice of demand:

Provided that the Chief Revenue-authority may receive any petition or appeal after the expiry of that period if it is satisfied that the petitioner or the appellant had sufficient cause for not presenting it within that period.

(*4*) A petition shall be made as nearly as may be in Form II set out in the Schedule to these rules, and shall be signed and verified by the petitioner in the manner therein provided.

(*5*) An appeal shall be made as nearly as may be in Form III set out in the Schedule to these rules, and shall state which of the options specified in section 8 the appellant elects.

(*6*) The appeal shall be accompanied by four copies of a concise statement of any facts upon which the appellant relies to support the matters alleged therein.

(*7*) The appeal and the statement shall be signed and verified by the appellant as provided in Form III.

[Modification of section 23 of Act VII of 1918 as applied.]

Hearing of petitions and appeals by the Chief Revenue-authority.

15. (*1*) On receipt of a petition or an appeal or of a petition and an appeal under rule 14 (such appeal not being one which the appellant desires to be referred to a Board), the Chief Revenue-authority shall fix a day and place for the hearing of the petition, and on the day and at the place so fixed, or on the day and at the place, if any, to which it may have adjourned the hearing, shall hear the petition or appeal or the petition and appeal and pass such order thereon, conformably to the provisions of section 8, as it thinks fit, and shall communicate such order to the Collector.

(*2*) When both a petition and an appeal have been preferred by one person and such person desires that the appeal be referred to a Board, the Chief Revenue-authority shall adjourn the hearing of the petition until receipt of the decision of the Board on the appeal, and shall then proceed to hear and to pass such order on the petition, conformably to the provisions of section 8, as it thinks fit, and shall communicate such order to the Collector.

(*3*) When only an appeal has been preferred and such appeal has been referred to a Board under section 8, the Chief Revenue-authority shall, on receipt of the decision of the Board thereon, communicate such decision to the Collector.

(*4*) The Collector on receipt of such order or decision as aforesaid shall, if necessary, serve on the person by whom duty is payable a revised notice of demand as nearly as may be in Form I set out in the Schedule to these rules.

Forwarding of documents to the Board.

16. Where the appellant desires that his appeal be referred to a Board, the Chief Revenue-authority shall obtain from the Collector a copy of the application made to him under section 7 together with a statement of his decision thereon and of the reasons for that decision, and shall forward such statement to the Board together with the appeal and any documents submitted therewith by the appellant.

Hearing and adjournment.

17. The Board shall thereupon fix a day and place for the hearing of the appeal, and shall give at least seven days' notice to the appellant of the day and place so fixed. On such day and thereafter from time to time the Board may adjourn the hearing of the appeal as it thinks fit.

Appearance by Collector.

18. In any proceeding before the Board the Collector may appear in person or by any representative appointed by him in writing, and, subject to the directions of the Board, the Collector or such representative may be heard on the questions arising for determination.

Power to take evidence on oath, etc.

19. The Collector, the Chief Revenue-authority and the Board shall, for the purposes of any inquiry under the Act or these rules, have the same powers as are vested in a Court under the Code of Civil Procedure, 1908, when trying a suit, in respect of the following matters :— [Modification of section 27 of Act VII of 1918 as applied.] V of 1908.

(*a*) enforcing the attendance of any person and examining him on oath or affirmation ;

(*b*) compelling the production of any document, and

(*c*) issuing commissions for the examination of witnesses ;

and any proceeding before a Collector, a Chief Revenue-authority or a Board under the Act or these rules shall be deemed to be a "judicial proceeding" within the meaning of sections 193 and 228 of the Indian Penal Code. XLV of 1860.

Revision.

20. The Chief Revenue-authority may of its own motion call for the record of any assessment proceeding which has been taken by any officer subordinate to it, and may make such inquiry and pass such order thereon as it thinks fit : [Modification of section 28 of Act VII of 1918 as applied.]

Provided that it shall not pass any order enhancing the sum payable by an assessee without hearing him or giving him a reasonable opportunity of being heard either in person or by a representative appointed by him in writing.

Penal assessment.

21. If the Collector or Chief Revenue-authority in making any assessment under the Act is satisfied that any person by whom duty is payable has deliberately furnished inaccurate particulars in connection with any business to which the Act applies, and has thereby caused the standard profits of the business or the profits during the accounting period to be calculated respectively above or below their real amount, the Collector or the Chief Revenue-authority may direct that such person shall pay either on the difference between the amount of profits liable to duty as finally ascertained and the amount of such profits calculated according to the particulars originally returned by him or, if according to such particulars no duty was payable, on the whole amount of profits liable to duty as finally ascertained, a duty at a rate not exceeding one and a half times the rate which would otherwise have been payable : [Modification of section 24 of Act VII of 1918 as applied.]

Provided that no such order shall be made unless the person has been heard or has been given a reasonable opportunity of being heard :

Provided further that no prosecution for an offence against the Act shall be instituted in respect of the same facts on which a penal assessment is made under this rule.

Rectification of mistake.

22. The Collector may at any time within one year from the date of any demand made upon a person by whom duty is payable rectify any mistake in connection therewith which has been brought to his notice by such person and make a refund to such person in respect thereof. [Modification of section 26 of Act VII of 1918 as applied.]

Recovery of Duty.

Tax when payable.

23. The amount of each instalment of duty specified as payable in a notice of demand under rule 13 or sub-rule (*4*) of rule 15, or in an order under rule 20 or rule 21 shall be paid within the time, at the place and to the person mentioned in the notice or order, and any person failing so to pay shall be deemed to be in default : [Modification of section 25 of Act VII of 1918 as applied.]

Provided that when a person has presented a petition or an appeal under rule 14 the Collector may treat the person as not being in default so long as such petition or appeal is undisposed of.

[Modification of section 36 of Act VII of 1918 as applied.]

Mode and time of recovery.

24. (*1*) When a person is in default in making payment of duty or, where instalments have been fixed, of any instalment of duty, the Collector, in his discretion, may recover from him a sum not exceeding one and a half times the amount of the duty or instalment, as the case may be, either as if it were an arrear of land-revenue, or by any process enforceable for the recovery of an arrear of any municipal tax or local rate imposed under any enactment for the time being in force in any part of the territories administered by the Local Government to which the Collector is subordinate.

(*2*) The Local Government may direct by what authority any powers or duties incident under any such enactment as aforesaid to the enforcement of any process for the recovery of a municipal tax or local rate shall be exercised or performed when that process is employed under sub-rule (*1*) for the recovery of duty.

(*3*) Save in accordance with the provisions of sub-rule (*1*) of rule 11, no proceedings for the recovery of any sum payable under the Act or these rules shall be commenced after the 31st of March 1921.

Penalty.

[Modification of section 42 of Act VII of 1918 as applied.]

Disclosure of information by public servant.

25. All particulars contained in any statement or return made or furnished under the provisions of the Act or these rules shall be treated as confidential, and if a public servant discloses any particulars contained in any statement or return so made or furnished, he shall be punishable with imprisonment which may extend to six months, and shall also be liable to fine:

Provided that no prosecution shall be instituted under this rule except with the previous sanction of the Local Government.

Miscellaneous.

[Modification of section 45 of Act VII of 1918 as applied.]

Receipts and their contents.

26. When any money is paid under the Act or these rules to the Collector or is recovered thereunder by him, he shall give a receipt for the same, specifying—

(*a*) the date of payment or recovery of the money;

(*b*) the amount paid or recovered; and

(*c*) the person by whom, and the business in respect of which, the duty was payable.

[Modification of section 46 of Act VII of 1918 as applied.]

Service of notices.

27. A notice or requisition under the Act or these rules may be served on the person therein named either by post or by the delivery or tender to him of a copy of the notice or requisition in the manner provided by the Code of Civil Procedure, 1908, for the service of summons.

V of 1908.

[Modification of section 47 of Act VII of 1918 as applied.]

Power to declare principal places of business.

28. (*1*) When a person by whom duty is payable has several places of business in territories subject to different Local Governments, the Governor General in Council may declare which of those places shall, for the purposes of the Act, be deemed to be his principal place of business.

(*2*) When a person by whom duty is payable has several places of business in the territories subject to a single Local Government, that Government may declare which of them shall, for the purposes of the Act, be deemed to be his principal place of business.

(*3*) The powers referred to in this rule may be delegated to, and exercised by, such officers as the Governor General in Council or the Local Government, as the case may be, may appoint in this behalf

[Modification of section 49 of Act VII of 1918 as applied.]

Powers exercisable from time to time.

29. All powers conferred by, or conferrable under, the Act may be exercised from time to time as occasion requires.

Delegation of certain powers of Local Government.

30. The Local Government may, by notification in the local official gazette, delegate to the Chief Revenue-authority all or any of the powers conferred on it by the Act for the appointment of officers to exercise or perform the powers or duties of Collectors or Commissioners, and all or any of its powers referred to in rule 24 and the proviso to rule 25. [Modification of section 50 of Act VII of 1918 as applied.]

Statement of case by Chief Revenue-authority to High Court.

31. (*1*) If in the course of any assessment under the Act or these rules or any proceeding in connection therewith, other than a proceeding under section 12, or sub-section (*2*) of section 17, or rule 25, a question has arisen with reference to the interpretation of any of the provisions of the Act or of these rules, the Chief Revenue-authority on a reference from the Board or from any Revenue Officer subordinate to such Chief Revenue-authority or on its own motion may draw up a statement of the case and refer it, with its own opinion thereon, to the High Court, and shall so refer any such question on the application of a person by whom duty is payable unless it is satisfied that the application is frivolous or that a reference is unnecessary. [Modification of section 51 of Act VII of 1918 as applied.]

(*2*) If the High Court is not satisfied that the statements contained in the case are sufficient to enable it to determine the questions raised thereby, the Court may refer the case back to the Chief Revenue-authority by which it was stated, to make such additions thereto, or alterations therein, as the Court may direct in that behalf.

(*3*) The High Court upon the hearing of any such case shall decide the questions raised thereby, and shall deliver its judgment thereon containing the grounds on which such decision is founded, and shall send to the Chief Revenue-authority by which the case was stated a copy of such judgment under the seal of the Court and the signature of the Registrar; and the Chief Revenue-authority shall dispose of the case accordingly, or, if the case arose on reference from the Board or any Revenue Officer subordinate to such Chief Revenue-authority, shall forward a copy of such judgment to the Board or such officer; and the Board or such officer shall dispose of the case conformably to such judgment.

(*4*) Where a reference is made to the High Court on the application of a person by whom duty is payable, costs shall be in the discretion of the Court.

Bar of suits in Civil Court.

32. No suit shall be brought in any Civil Court to set aside or modify any assessment made under the Act or these rules, and no prosecution, suit or other proceeding shall lie against any Government officer for anything in good faith done or intended to be done under the Act or these rules. [Modification of section 53 of Act VII of 1918 as applied.]

4. (*a*) Carriages, motor cars and palanquins left on the Railway premises over the Jorhat Provincial Railway awaiting removal by consignee will, after the expiration of 24 hours from the time they are available for delivery, be subject to a wharfage charge of Rs. 2 per carriage or motor car, and Re. 1 per palanquin for each subsequent day or part thereof.

(*b*) A similar charge will be levied on all carriages, motor cars and palanquins left on the Railway premises awaiting despatch order from consignor after the expiration of 24 hours from the time they are brought to the station, but until a Railway Receipt is granted the Railway does not acknowledge any responsibility in respect to such carriages, motor cars or palanquins which must be at owner's risk.

On Birds, Poultry and Animals.

5. For birds, poultry and animals charges may be made as follows, after the expiry of 6 hours from the time they are available for delivery :—

Animals.—One anna per animal per hour or part of an hour.

Poultry.—Six pies per head per hour or part of an hour.

Birds in baskets or crates, etc., one anna per cubic foot or part of a cubic foot per hour or part of an hour.

These charges to be in addition to any expenses entailed in feeding the birds, animals, etc.

Under any circumstances, live animals should be removed from the Railway premises within 24 hours, from the time of their arrival at destination, failing which they may be disposed of under section 56, Clause 2, Railway Act IX of 1890.

Notice of Arrival.

6. The Jorhat Provincial Railway do not undertake to send notice of arrival of goods and parcels to consignees; and the absence of such notice will not entitle consignees to claim exemption from wharfage or demurrage or storage charges if goods and parcels are not removed within the time allowed. Endeavours will, however, be made at receiving stations to advise consignees when practicable of the arrival of their goods and parcels. The cost of advices sent by post will be borne by the Administration.

Treatment and Disposal of Unclaimed Goods and Parcels.

7. (*a*) Subject to the exception mentioned in Rule (*e*) below, unclaimed goods (parcels and luggage) are kept on hand at the station to which booked for a period of not less than one month, during which time the notice prescribed in section 56, sub-section (1), of the Indian Railways Act (IX of 1890), will be issued if the owner of the goods or person entitled thereto is known.

(*b*) If not taken delivery of within a period of not less than one month after receipt at the station to which invoiced or waybilled, unclaimed goods, luggage and parcels will be sent to the Jorhat Station Godown and dealt with as laid down in Rule (*f*) below.

(*c*) Unclaimed articles will be liable to the wharfage and demurrage charges hereinbefore referred to, as well as to all freight and special expenditure incurred by the Railway on account of their custody and disposal.

(*d*) Where articles such as arms, ammunition, explosives, intoxicating liquors, opium and its preparations, and hemp drugs, the sale of which by unlicensed persons is prohibited by law, are left unclaimed in the possession of the Railway, they will be made over to the Police or Excise authorities for disposal under the laws affecting the article. When not of a dangerous, perishable or offensive character, they will, however, be retained in the possession of the Railway for the same period as that prescribed for other unclaimed articles.

This Rule, in so far as it relates to explosives, is supplemental to, and not in modification of, the rules made under the Indian Explosives Act.

(*e*) Perishable articles unclaimed or not taken delivery of, will be disposed of by auction at owner's risk and expense by the Station Master of the station at which they may be left after the expiry of 24 hours or earlier if they are, or are likely to become, offensive.

(*f*) Public sales by auction will be held every quarter of the year of all unclaimed or lost property which has remained in the possession of the Railway over 6 months. At least 15 days' previous notice of each auction will be given by advertisement in a newspaper.

(*g*) Any surplus proceeds arising out of sale of lost property or unclaimed consignments after payment of all charges and expenses due to the Railway, will be paid to the person or persons thereto entitled.

Lost Property.

8. (*a*) Lost property found in Railway vehicles or on Railway premises will, subject to the exception mentioned in paragraph (*e*) above, be sent to the Office of the Manager, Jorhat Provincial Railway, after 48 hours, and will be dealt with in the same manner as unclaimed booked goods.

(*b*) Application for the recovery of lost property should be made to the nearest Station Master, and also to the Manager, Jorhat, marked on the outside cover "Lost Property."

(*c*) The Office of the Manager, Jorhat Provincial Railway, is situated at Jorhat.

(*d*) A fee of two annas for each article or package will be charged in addition to a storage charge of annas 4 per month or portion of a month during which it has remained in the possession of the Railway Company as Lost Property.

Left Luggage Offices or Cloak-Rooms.

9. (*a*) Luggage may be placed for temporary custody in charge of the Station Masters at certain stations.

(*b*) A Left Luggage Ticket will be given to any person depositing luggage or parcels for custody in a cloak-room; and delivery will be made to any person presenting such receipt ticket, after which all responsibility of the Railway Administration in respect of such luggage or parcels shall absolutely cease and determine. The person

presenting the ticket must sign his name on the ticket and enter the date. An Indemnity Bond should be executed by the owner in all cases of loss of Left Luggage receipts.

(*c*) Before a Left Luggage Ticket is given, the Luggage Ticket issued at the forwarding station in the case of luggage received by Railway, must be collected.

(*d*) A charge of two annas per package will be levied, for each 24 hours or part of 24 hours, during which the luggage or parcel remains in a cloak-room.

For the purpose of this rule, Sundays, Good Friday and Christmas Day are not considered *dies non*. The charge will be calculated from the time the package is deposited in the cloak-room. This time will be marked on the Left Luggage Ticket just below the date.

(*e*) The responsibility of the Railway Administration for articles left in a cloak-room shall be that of a bailee under Sections 151, 152 and 161 of the Indian Contract Act, 1872 (IX of 1872).

Articles deposited in cloak-rooms, which are unclaimed, will, after a period of one month, be transferred to the Jorhat Station Godown and be dealt with as prescribed in rules for unclaimed packages.

II.—RULES FOR REGULATING THE USE OF ROLLING-STOCK, ENGINES AND TRAINS.

10. Demurrage.

Circumstances.	Time allowed free.	Rate per ton or part of a ton of carrying capacity per hour or part of an hour in excess of the free time.	Remarks.
In Railway Premises.			
On vehicles ordered and waiting to be loaded by senders, or detained for consignment note or otherwise owing to default of or at the request of the sender.	6 hours of day-light from the time at which the vehicles placed position.	4 pies.	
On loaded vehicles waiting to be discharged by owners.	6 hours of day-light from the time at which the vehicles are placed in position for unloading.	Same rates as above.	The Railway Administration will at its option unload the vehicles and charge the consignee for doing so and will also charge wharfage on the contents under Rule 1. The Railway Company reserves the right of unloading owner's loads at destination immediately on arrival or within 9 hours of day-light after arrival. In such cases the cost of unloading will be borne by the Railway.
In Private Sidings.			
On vehicles waiting to be loaded at a private siding.	6 hours of day-light from the time at which the vehicles are placed within the limits of such a siding.	4 pies.	
On loaded vehicles waiting to be discharged in a private siding.	6 hours of day-light from the time at which the vehicles are shunted within the limits of such a siding.	Same rates above.	

NOTE.—Day-light hours are reckoned as from 6 to 18 o'clock.

Demurrage will be charged for every hour, day or night, in excess of the free time.

Demurrage Charge on Reserved Carriages.

11. When, for the convenience of passengers, reserved carriages are detained at intermediate stations, a charge of 8 annas for an 8-wheeled carriage, 6 annas for a 6-wheeled and 4 annas for a 4-wheeled carriage per hour or part of an hour will be made, but the charge will only be collected when orders to this effect are specially issued.

The same charge applies for detention to carriages ordered by intending passengers and not used from the time the vehicle is available till the time when intimation is received that it is not required.

Demurrage Charge for Engine.

12. A demurrage charge of Rs. 8 per hour or part of an hour on account of engine hire will be made for the extra hours if an engine of a public special train is detained *en route* at the party's request.

III.—CALCULATION OF CHARGES.

13. In calculating wharfage and demurrage charges, fractions of one anna less than six pies shall be dropped and six pies and over shall be charged as one anna. Where the total amount of demurrage or wharfage due on any consignment is less than 2 annas it shall be foregone.

IV.—GENERAL.

14. (*a*) In the event of goods requiring to be loaded or unloaded by owners becoming liable to both demurrage and wharfage charges, the Railway Administration may levy both demurrage and wharfage charges for such periods as the goods would be liable to such charges under these rules.

(*b*) If and for so long as the state of the traffic or any sudden emergency makes it necessary and after advertisement in the local newspapers, the rate of demurrage or wharfage may be increased and the free time may be curtailed.

(*c*) Sundays, Christmas Day and Good Friday will be reckoned in charging demurrage on all wagons made available for unloading on those days and stations will also be opened for unloading of wagons on those days so that merchants receiving wagons to their addresses which they are required to unload may do so.

This does not apply in the case of wharfage in which connection the above days will be treated as *dies non* as hithertofore.

(*d*) Explosives or dangerous goods must be removed by the consignee from the receiving station during the 12 hours of day-light after arrival; if this condition is not strictly complied with, the Railway Administration may return the consignment to the consignor at his risk and expense.

(*e*) Should the wharfage or storage on actual weight exceed the demurrage charge at the wagon rate for the full time, the latter rate will be charged.

(*f*) The Railway Administration have the same lien on goods for demurrage and wharfage, and, if incurred, for unloading, as for freight, and these charges must be paid before the goods are removed.

EMIGRATION

RESOLUTION

Simla, the 9th May 1919.

The following papers regarding reciprocity in matters of immigration between India and the Dominions are published for the information of those interested in the subject :—

Extract from a letter from the Colonial Office to the India Office No. 35892, dated London the 7th August 1918, and annexures.

From Colonial Office to India Office.

No. 35892. Downing Street,

SIR, 7th August 1918.

I am directed by Mr. Secretary Long to transmit to you, to be laid before Mr. Secretary Montagu, copies of an extract from the Fifteenth Day's Proceedings at the Imperial Conference, together with copies of the memorandum prepared by Sir S. P. Sinha.

I am, &c.,

The Under Secretary of State for India. HENRY LAMBERT.

ANNEX. I :—*Memorandum by Sir S. P. Sinha.*

The views and recommendations of the Indian representatives on the position of Indians in the self-governing Dominions were placed before the War Conference last year in the form of a memorandum, which appears as an annexure to the printed report of the Conference. The subject was discussed on Friday the 27th April 1917, and the "Conference unanimously accepted the "principle of reciprocity of treatment between India and the Dominions, and "recommended the memorandum to the favourable consideration of the "Governments concerned." It is mainly with a view to eliciting information as to whether any action has been actually taken, and, if not, how soon it is likely to be taken, by the Governments concerned to give effect to our suggestions that a few of the outstanding questions are mentioned in the present note.

2. The Indian grievances dealt with in the last memorandum fall conveniently under the following three groups :—

(1) Treatment of Indians who are already settled and resident in the self-governing Dominions.

(2) The difficulties and disadvantages of Indians intending to visit the Dominions not with the object of settlement but for purpose of travel, education, or business.

(3) The question of future immigration to the Dominions.

PART

3. As regards the difficulties of resident Indians, the disability imposed on the Sikh settlers in Canada, numbering about 4,000 men, of not being allowed to bring their wives and minor children to live with them is a very real and serious hardship, and, as was pointed out in last year's note, has caused acute dissatisfaction amongst perhaps the most prominent martial race in India, and those who have flocked with the greatest alacrity to the Indian Army for the defence of the Empire. This unfair and unnatural prohibition is the more galling because the Indians resident in South Africa have, since the passing of the Indians Relief Act of 1914, the privilege of introducing into the Colony *one* wife, as well as her minor children. The Japanese have the right of taking not only their wives, but also their domestic servants. No further time should be lost in removing the prohibition, which appears to be in force in Australia also.

4. Of the Indians settled in the self-governing Dominions, by far the largest number is domiciled in South Africa. Cape Colony has an Indian population of 6,606, Transvaal of 10,048, Orange Free State of 106, and Natal of 133,031 souls. The Indians Relief Act of 1914 has removed many disabilities, but from reliable materials placed before us it appears that there are still many substantial grievances and disabilities which are not merely of an administrative character, as General Smuts seemed to be under the impression last year, but are based upon already existing or impending statutory enactments.

The following would appear to be some of the principal grievances of South African Indians:—

(1) *Trading Licences.*—It is necessary to obtain a licence in order to be able to carry on any trade or business in South Africa. Each Province has its own trading licence legislation, and the tendency recently has been in every Province to transfer the control of licences from the Government to municipalities. Although there is a system of appeals from the decisions of the municipalities, *e.g.*, in Natal to Town Councils or to Licensing Appeal Boards, the right of appeal to the Courts is extremely limited. Thus, in Natal, against refusals of application for new licences there is a right of appeal in matters of procedure, but not of facts, to the Provincial Division of the Supreme Court, whereas, in cases of refusal to renew licences there is a right of appeal on facts also. It is generally contended that the municipalities arbitrarily refuse to grant licences to Indians with the improper and indirect object of destroying Indian trade, and the Indian newspapers are full of such instances. The trading rights of Indians in South Africa are a vital issue. If the Indian community remains at the mercy of their European rivals in respect of the right of their members to earn an honest livelihood by trade it is only a question of time for the whole community to become impoverished and be reduced to industrial helotry. The remedy seems to be to give the fullest right of appeal in all cases of refusal of licences to the Provincial Division of the Supreme Court—on questions of fact as well as of procedure.

(2) *Parliamentary and Municipal Franchise.*—As observed in last year's note, there are stronger and more obvious grounds for extending the municipal franchise to the Indians resident in South Africa than the Parliamentary franchise. It might be pointed out, however, that we are nearer to the introduction of representative institutions in India this year than we were last year, and therefore the argument for depriving the African Indians of the franchise on the ground of their coming from a country where representative institutions do not exist will carry still less weight now, and there is a strong case for granting the franchise, at least to the richer Indian merchants. Their claim to the extension of the municipal franchise in all the States seems to be much stronger, as this right

is enjoyed in Natal and Cape Colony, where some Indians are reported to be discharging municipal functions to their credit. The special necessity for the grant of the municipal franchise will appear from what has already been stated with regard to trade licences.

(3) *The Ownership of Land.*—Unlike their compatriots in Natal and at the Cape, Transvaal Indians, under the old Republican Law 3 of 1885, remain under the disability that they are denied the right to own fixed property, *i.e*, from having the legal ownership registered in their own names. The system of indirect ownership, in other words nominal European ownership, originally suggested by the Republican Government themselves, prevailed until quite recently, and is still occasionally adopted. The process is round-about, cumbrous, and expensive, but the facts are notorious, and the circumstances are legally recognised by the Courts.

Since about the year 1914, the practice has grown up of forming and registering, under the Transvaal Companies Act, 1909, small private companies, with limited liability, whose members are all Indians (frequently an Indian and his wife), and possessing an independent legal *persona*, for the purpose, amongst other things, of acquiring fixed property. All these transactions have recently received judicial recognition. It is said that attempts are now being made by interested parties to deprive Indians of this right of indirect ownership of fixed property. Recently a question was put on the subject in Parliament, and the Government spokesman replied that it was intended to examine into the question when the new companies law was under consideration. Advantage has frequently been taken by Indians of these indirect, but quite legal, methods to open business in townships whose private regulations prohibit the sale of stands to Indians, which, in themselves, are intended indirectly to compel Indians to reside and trade in special locations, which, again, would mean financial ruin to most of them, and against which attempt the Indian community has fought since long before the Boer War.

On the contrary, the prohibition against Indian ownership of fixed or landed property should be repealed by Parliament, on the grounds that it tends to foster insincerity on all sides, to deprive Indians of some of the elementary rights and responsibilities of citizenship, which are not denied even to the aboriginal natives and other non-Asiatic coloured peoples of the Province, and which are possessed by their compatriots in the coast Provinces, and especially in Natal, where the bulk of the Indian population of the Union is to be found. Transvaal Indians ought not to be compelled to regard themselves as possessing an inferior status, in this respect, to their compatriots resident in the coast Provinces, and such a statute as Law 8 of 1885 is an anachronism and opposed to the spirit of modern legislation.

(4) *Railway Regulations.*—In the Transvaal, for a number of years past, the policy of racial segregation has been enforced on the railways. Special legislation to that end was sought in 1910, but was strenuously opposed by the Indian community, with the result that certain regulations were eventually agreed to, embodied in the papers published in Blue Book [Cd. 5363] of 1910 (pages 102-5 and 114), at a time when the Indian community was in a relatively weak position, having its energies fully engaged in the passive resistance struggle, which was then at its height, and which left the community powerless effectively to resist further encroachments upon its liberties. But the arrangements therein referred to were

of purely local application, and were not intended in any way to affect the position or diminish the rights of Indians in the other Provinces. Recently, however, regulations applicable throughout the Union have been published, some of which have already been withdrawn in deference to strong Indian opposition, whilst others remain, in spite of that opposition, not only embodying provisions contained in the old Transvaal arrangement, but going much farther, and extending to other Provinces of the Union a racial discrimination not hitherto known there. The Indian community, for a long period of years, has consistently fought against statutory discrimination based upon racial distinction. Segregation in travelling would only be tolerable if designed by statute, where exactly equal opportunities and facilities were provided for the different races affected. This is impossible for financial reasons, no such remedy is available. Apart from this, the situation in the Transvaal, and in South Africa generally, is very different from what it was in 1910, and less than ever are Indians disposed to depart from the principle of equality under the law, which they regard as fundamental in the British Constitution, and for which they have suffered enormously in the past, and are prepared to suffer for again. Not only ought the position of Indians elsewhere in the Union not be reduced to the level of that in the Transvaal, but the latter should be raised to the highest level anywhere in the Union.

The settlement of these and other outstanding difficulties should receive the earnest attention of the Provincial Governments and the Union Government. It should not be forgotten that the bulk of the Indian settlement in South Africa is the result of the action of the South Africans themselves, and Natal, where the majority are domiciled, owes much of its prosperity to Indian labour. "The whole of Durban was absolutely built up by the Indian population," said Sir Leige Hewlett, ex Prime Minister of Natal in 1903. In his farewell speech at Pretoria in November 1912, Mr. Gokhale appealed to the European community in the following words: "You have all the power, and "yours, therefore, is the responsibility for the manner in which the affairs of "this land are administered. You owe it to your good name, you owe it to "your civilization, you owe it to the Empire of which you are a part and "whose flag stands for opportunities, for progress for all who live under its "protection, that your administration should be such that you can justify it in "the eyes of the civilized world." This noble exhortation points to an angle of vision which is much nearer reality to-day than it was in Mr. Gokhale's time, and after the promise of "peaceful and statesmanlike" solution made by General Smuts last year there should really be no difficulty now. In order to enable the Union Government to deal with Indian problems impartially and promptly, the provision of a convenient agency by which Indian grievances can be brought to the notice of the local Government authorities would be a first step. The appointment of a local agent of the Indian Government at Pretoria should be an advantage both to the Indians in South Africa and the South African Government which has to deal with them.

5. For the group of questions relating to facilities for travel, education, or business, it is clear that it should be easy to arrive at a liberal and satisfactory solution almost immediately.

The present position is that the Dominion laws allow persons with good credentials to enter on temporary visits, in Canada as "tourists," and elsewhere by special permits, which presumably are granted in the Dominion concerned. For instance, Australian Circular No. 31 of August 1904 lays down "that any persons *bonâ fide* merchants, students, and tourist travellers, provided they are in possession of passports, may be admitted. On arrival in the Commonwealth the education test in their cases will not be imposed, and such persons are to be permitted to land without restriction, but, in the event of their wishing to stay longer than twelve months, an application for a certificate of exemption should be made before the expiry of the term stating reason for extended stay."

In the case of *bond fide* students intending to study at any of the Australian Universities, the above requirement of special certificate of exemption appears to be quite unnecessary. The question of the Indian student problem in Australasia has assumed special importance, because at the present moment most of the Western world is practically almost shut out from Indian students, and will be for some time after the war, on account of the great rise of the cost of living and other causes. Australian Universities are out of the war zone and comparatively cheap, and the Indian student is poor, and the West Australian University is only about nine-and-a-half days from Colombo.

6. Finally, as regards the question of future emigration of Indians to the Colonies for purposes of settlement, there is no change from the position which was taken up last year, that in this matter the Indian British subjects have a right to expect that they should not receive a less favourable treatment than other Asiatic people who are not subjects of the British Empire. But this question is not of any immediate urgency for India, and might well wait future discussion.

On our side we are being pressed to give practical effect to the resolution of last year's Conference.

7. It is only necessary, in conclusion, to emphasise the necessity of definite action and a forward advance in these matters without any more delay. "I do not lose a due sense of proportion," says the Aga Khan in his recent book, "India in Transition," "when I say that one of the deeper causes "if not of discontent or disaffection, at any rate of the distrust of England and "Englishmen that appeared on the surface in India of recent years was the "strained relationship between Indians and their white fellow-subjects in East "Africa. A rankling sense of injustice was aroused by the reservation of the "best lands for Europeans, and by a succession of ordinances and regulations "based on an assumption of race inferiority. It must be remembered that "such a state of injured feeling evokes a subconscious spirit, which, in a few "decades, may lead to results out of all proportion in importance to the "original causes." If the Indian representatives did not press this aspect of the question last year it is not because they did not realise their force or importance, but because they felt that the sympathetic attitude of the oversea Ministers made it unnecessary for any special emphasis to be laid on the racial aspect of these questions. A most excellent start was made last year and the impression created in India was most favourable. It would be a thousand pities if steps were not now taken to give effect and tangible shape to the good understanding and mutual comprehension attained last year. It is also obvious that these important questions should be settled not in any petty huckstering spirit of reciprocity only, far less of militant animosity and retaliation, but on those broad principles of justice and equality which are now more than ever the guiding principles of the British Empire, and which must be the foundations of the mighty Empire round the shores of the Pacific and the Indian Ocean which are slowly but surely rising before one's eyes.

ANNEX. 2:—*Extract from Proceedings at Imperial War Conference, 24th July 1918.*

CHAIRMAN: Mr. Hughes cannot come this morning, and Sir Robert Borden is away. The first subject on the agenda is Reciprocity of Treatment between India and the Dominions, on which there is a Memorandum by Sir Satyendra Sinha, which has been circulated, and also a draft Resolution, which I understand is the result of a meeting at the India Office. Shall I read the draft Resolution as the basis of discussion?

SIR S. P. SINHA: As you please, Sir.

CHAIRMAN: The Resolution is as follows:—

"The Imperial War Conference is of opinion that effect should now be given to the principle of reciprocity approved by Resolution 22 of the Imperial War Conference, 1917. In pursuance of that Resolution it is agreed that:—

"1. It is an inherent function of the Governments of the several communities of the British Commonwealth, including India, that each should enjoy complete control of the composition of its own population by means of restriction on immigration from any of the other communities.

No. 448M.—The 29th January 1906.—In exercise of the power conferred on the Local Government by section 53, clause 3, of the Calcutta Hackney Carriage Act, II of 1891, the Lieutenant-Governor is pleased to confirm the following by-laws which have been framed by the Commissioners of the Bhagalpur Municipality, in the district of Bhagalpur, under clause 1 of the said section:—

Bhagalpur.

(a)—First class.

1. First class Hackney Carriage licenses shall only be granted for comfortable, roomy, clean, easy running vehicles of a superior description in all respects to second class carriages. They may be of any approved pattern, such as broughams, landaus, phaetons, etc.; each carriage must have a thoroughly good pair of horses and lamps.

(*b*)—*Second class.*

1. No carriage shall receive a second class license unless it be in a thoroughly fit condition.

2. If it be of the kind known as "Palki Gharry" or "Brownberry," it shall conform to the following dimensions :—

	Inches.
Breadth of carriage inside	... 36
Depth of seat inside	... 18
Width of well of carriage between cushions ...	... 24
Height of roof from seat	... 40

The fore and aft blinds must have fixed *venetians*, the rest to be moveable with proper attachments to raise and lower them, and a small steel spring must be attached to each frame to prevent rolling or noise. The doors must swing on proper hinges and open down to the floor, and the locking bolts and the handles are to be securely fitted.

The roof of the carriage is to have an outer covering of zinc sheeting and the inner portion is to be of polished teak-wood. The cushions and backs to be covered with leather or leather cloth and to have clean outer covers of cloth. The cushions are to be fitted with springs besides the usual coir stuffings, and four hand straps are to be near the door. The floor and well of the carriage is to have a coir foot-mat of proper dimensions.

3. The springs and the axles must be of thoroughly sound manufacture. All the iron work strongly put together and the carriage must have a good pair of lamps.

4. No carriage drawn by a pair will be licensed in the second class unless both animals are fit for their work and at least 13 hands high ; and none drawn by a single horse unless the animal is fit for its work and at least 14 hands high.

5. On the outside of the door of a second class carriage shall be painted the figure "II" in Roman character.

(*c*)—*Third class.*

1. No carriage shall receive a third class license unless it be in a clean and safe condition and has sufficient room inside to seat four persons conveniently, and has also stout and steady axles, springs and wheels and also a good pair of lamps. No cloth-covered seats will be allowed, but plain polished wood with leather back.

2. When drawn by a pair of ponies, each pony must be in a fit condition and at least 12 hands high. When drawn by a single pony, the animal must be fit for its work and at least 13 hands high.

3. On the outside of the door of the third class carriages shall be painted the figure "III" in Roman character.

(*d*)—*General.*

1. No animal shall be deemed fit for its work unless it is so in respect of height, bone, muscle and condition and for the work of drawing the carriages.

2. Harness must be of a good description and strong. No chain or rope traces or string fastenings will be allowed.

3. Under section 16 of the Act, carriages of all three classes shall each have a plate affixed in some conspicuous part of the outside of the carriage, specifying the class, the number of such carriage in the register and the number of persons it is licensed to carry. Both the second class and third class carriages must have the owner's name legibly written *above* the door.

4. All conveyances licensed under the Act will, at all times, be subject to inspection at the place at which they are kept, or the owner may be required under special notice from the Registering Officer to take his carriages and horses to the office of the Registering Officer for the purposes of inspection not oftener than twice during the currency of the license.

5. Every person applying for a driver's license must be acquainted with the principal places and streets in and around Bhagalpur, and have a thorough knowledge of the rates and fares in the schedule.

6. No person shall be licensed as a driver unless he is in all respects a fit person for such employment.

7. In the case of a person applying for a driver's license who has previously acted in that capacity, he must produce, if so required, a certificate from his last employer.

8. Every driver of a first and second class carriage, when acting as such, must wear suitable uniform to be approved by the Commissioners, and the syce must be decently clad.

9. Every first and second class when plying or when on hire shall have at least one syce and a coachman.

10. Every driver must see that no hay, straw or fodder for his animal is carried in the front portion of his carriage, and that nothing be placed at the back of the carriage so as to prevent a full view of the registered number of the plate affixed thereon and that the lamps have the number painted on them.

11. Every place where any hackney carriage or horse is kept shall be open to the inspection of the officer of the department at any hour of the day.

12. A table of distances will be supplied for every carriage when it is registered for reference to settle any dispute as to distance arising between the hirer and the driver.

No. 451M.—The 29 h January 1906.—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor is pleased to appoint Mr. W. Egerton, I.C.S.. to be a Commissioner of the Balasore Municipality, in the district of Balasore, *vice* Mr. J. Cornes, I.C.S., resigned.

W. F. C. MONTRIOU, Deputy Collector in charge.

Revised Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Hajipur Branch Railway, in the district of Muzaffarpur, will be put up to sale at 1 o'clock on Monday, the 29th March 1906, corresponding with the 2nd Chait 1313 Fusli, at Muzaffarpur.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

WEDNESDAY, FEBRUARY 14, 1906.

NOTICES TO MARINERS.

THE following Notices are published for general information.

W. A. INGLIS,
Secretary, Marine Department.

CALCUTTA, *the 10th February 1906.*

BAY OF BENGAL—BURMA COAST.

Naaf river—Buoys relaid.

No. 52 (first publication).—The following Notice to Mariners (No. 11 of 1906), issued by the Bombay Government, is republished:—

Telegraphic information, dated 20th January 1906, has been received from the Port Officer, Akyab, that Naaf river buoys are relaid in following positions:—

Outer fairway buoy, Shapuri point, bearing N. 53° E., 4·35 miles. North Tall Tree, St. Martins Island, S. 32° E., in 13 feet low water springs.

Inner buoy, Shapuri point, bearing N. 39° E., 2·8 miles. North Tall Tree, St. Martin's Island, bearing South, in 28 feet low water springs.

This Notice affects Admiralty Chart No. 3476, Naaf river, and Bay of Bengal Pilot, page 253.

INDIA, WEST—BOMBAY COAST.

Bombay harbour—New dock works.

No. 53 (first publication).—With reference to Notice to Mariners No. 497, dated 21st December 1905, issued by this office, the Bombay Government has given further notice (No. 12 of 1906) that in consequence of the closing of the channel leading to the Bulk Oil Pier by the Dam now under construction, a pipe line will be carried out on 14 pontoons to a barge moored S. E. of the South face of the Dam, alongside of which the oil steamers will be temporarily accommodated.

2. The barge will be painted white, and at night in addition to her anchor light she will exhibit 2 red lights vertically in globular lanterns visible all round the horizon at a height of 15 feet above the water line.

3. Each pontoon will be painted red and will also exhibit one red light in a similar lantern.

4. The 4 mooring buoys for the head and stern moorings of the oil steamers will be laid in the position at present occupied by the B. I. S. N. Company's "B" moorings which will be removed.

5. All vessels are hereby warned not to pass between the barge and the Dam as the passage will be completely blocked by the pipe line.

This Notice affects Admiralty Chart No. 655, Port of Bombay: Also, West Coast of Hindoostan Pilot, 4th Edition, 1898, page 201, and Supplement, 1903, page 15.

BAY OF BENGAL—ORISSA COAST.

False Point anchorage—Actual water at the buoys.

No. 63 (first publication).—The Port Officer, Cuttack and Balasore ports, has given notice, dated 11th December 1905, that Reddie head spit is still extending northward, and the water at the anchorage is less. The actual water at the buoys, L. W. O. S., is as given below:—

	Ft.	In.
Fairway buoy	24	9
Outer Ridge	20	3
Outer Spit	15	3
Inner Spit	18	6
Reddie flat	14	0
Inner Ridge	15	10

At L. W. O. S. there is good anchorage in 23 feet midway between the Fairway and Outer Spit buoys and in 26 feet five cables east of the Fairway buoy with Hukitolla flagstaff bearing south by west magnetic.

RED SEA—GULF OF SUEZ.

The Brothers—Alteration in light.

No. 51 (second publication).—With reference to Notice to Mariners No. 299, dated 29th July 1905, issued by this office, the British Admiralty has given further notice (No. 22 of 1906) that the operations for changing the white fixed light on the Brothers to a *white flashing* light will be commenced, and that whilst the alteration is in progress two provisional *white fixed* lights will be shown from poles, 30 feet high, situated one on the north-western and the

other on the south-eastern extremity of the island, the light power of each light being 1,000 candles in lieu of the present light.

Approximate position, lat. 26° 19′ N., long. 34° 51′ E.

Further Notice will be given when necessary.

This Notice affects the following Admiralty Chart:—Red sea, with plan of the Brothers, No. 8b: Also, List of Lights, 1905, Part V, No 1441; Part VI, No. 161; Red Sea, etc., Pilot, 1900, page 71; and Supplement, 1904, page 10.

CEYLON, NORTH COAST—Point Pedro.

Caution—A barque capsized—Derelict.

No. 35 (third publication).—A telegraphic communication, dated 24th January, has been received from the Master Attendant, Colombo, stating that a barque has capsized, and the derelict is 184 miles east by north of Point Pedro, lat. 10° 15′ N., long. 83° 17′ E. Mariners are accordingly warned.

AUSTRALIA—Queensland, inner route.

Undine and Mackay reefs—Shoals.

No. 36 (third publication).—The British Admiralty has given notice (No. 1364 of 1905 that a recent survey has revealed the existence of the undermentioned dangers near Undine and Mackay reefs, on the inner edge of the Great Barrier reef; their positions and the depths over them at low-water springs are as follows:—

(*a*) A coral patch, with a depth of 2½ fathoms over it, is situated 6$\frac{1}{10}$ miles S. 12° E. from Undine reef sand cay.

(*b*) A coral head, with a depth of less than 6 feet over it, is situated 4$\frac{4}{10}$ miles S. 6° E. from Undine reef sand cay.

(*c*) A coral patch, with a depth of 2 fathoms over it, is situated 3$\frac{8}{10}$ miles S. 12° E. from Undine reef sand cay.

(*d*) A coral patch, with a depth of 4¾ fathoms over it, is situated 1$\frac{1}{10}$ miles N. 24° W. from Undine reef sand cay.

Approximate position, Undine reef sand cay, lat. 16° 6¾′ S., long. 145° 38½′ E.

(*e*) A coral patch, with a depth of 3 fathoms over it, is situated 1$\frac{3}{10}$ miles S. 23° E. from Mackay reef sand cay.

(*f*) A coral patch, with a depth of 2¼ fathoms over it, is situated 2$\frac{4}{10}$ miles N. 44° W. from Mackay reef sand cay.

(*g*) A coral patch, with a depth of 3 fathoms over it, is situated 3$\frac{1}{10}$ miles N. 38° W. from Mackay reef sand cay.

(*h*) A coral patch, with a depth of 5 fathoms over it, is situated 4$\frac{7}{10}$ miles N. 27° W. from Mackay reef sand cay.

Approximate position, Mackay reef sand cay, lat. 16° 3′ S., long. 145° 38¾′ E.

This Notice affects the following Admiralty Chart:—Cape Grafton to Hope islands, No. 2934: Also, Australia Directory, vol. II, 1898, page 368.

CHINA, NORTH COAST.

Chifu light—Character altered.

No. 37 (third publication).—With reference to Notice to Mariners, No. 307, dated 12th August 1905, issued by this office, the British Admiralty has given further notice (No. 1365) of 1905 that on the 18th October 1905, the character of Chifu light, on Kung tung tao, was altered from white fixed to *white group flashing*, showing groups of *three* short flashes *every twenty seconds*, and visible in clear weather from a distance of 22 miles. The light is of the 3rd order.

On the same date the two white fixed lantern lights, shown from the gallery of the lighthouse during alterations, were discontinued.

This light will in future be known as the Kung tung tao light.

Approximate position lat. 37° 34′ N., long. 121° 30½′ E.

This Notice affects the following Admiralty Charts:—Hong Kong to the gulf of Liau tung, No. 1262; Pe chili and Liau tung gulfs, No. 1256; Shantung promontory, No. 1255; Ching tau shan to Chifu bluff, No. 1260: Also List of Lights, Part VI, 1905, No. 828; and China Sea Directory, vol, III, 1904, page 565.

NEW ZEALAND—SOUTH ISLAND.

Greymouth harbour—Leading lights altered.

No. 38 (third publication).—The British Admiralty has given notice (No. 1368 of 1905) that the undermentioned alterations would be made in the leading lights at Greymouth harbour:—

When the depth over the bar is less than 10 feet, the *red* leading lights will not be shown from the *red* beacons; but the *green* leading lights will be shown from the white beacons situated on Richmond quay.

When the *green* lights on the white beacons and the *red* lights on the red beacons are shown, it denotes that there is more than 10 feet of water on the bar.

The larger classes of vessels should not attempt to enter until the *red* leading lights are shown.

Approximate position, lat. 42° 26′ S., long. 171° 13′ E.

This Notice affects the following Admiralty Chart:—River Waiau to cape Foulwind, with plan of Greymouth harbour, No. 2591: Also, list of Lights, Part VI, 1905, No. 1595, and remarks; and New Zealand Pilot, 1901, page 371.

PACIFIC OCEAN—PHILIPPINE ISLANDS—LUZON, EAST COAST.

Taebun channel—Shoal southward of Kanaguan islands.

No. 39 (third publication).—The British Admiralty has given notice (No. 1371 of 1905) that a small shoal, with a depth of 18 feet over it at low water, is situated in Taebun channel, about half a mile to the south-westward of the southern island of the Kanaguan group. It is surrounded by deep water.

Approximate position, lat. 13° 49′ N., long. 123° 59′ E.

This Notice affects the following Admiralty Chart:—Philippine islands between St. Bernardino and Mindoro straits, No. 2577: Also, Eastern Archipelago, Part I, 1902, page 377.

PACIFIC OCEAN—PHILIPPINE ISLANDS—LUZON, SOUTH-WEST COAST.

Balayan bay—Non-existence of Minerva rock.

No. 40 (third publication).—The British Admiralty has given notice (No. 1372 of 1905 that during a recent survey of the vicinity of the Minerva rock, Balayan bay, Luzon, no trace of this danger could be found, the depths in its assigned position varying from 175 to 200 fathoms.

This shoal was originally reported by the Master of the British ship *Minerva*, who stated that his vessel struck on it at 2 A.M. on the 10th September 1834. Its existence has always been considered doubtful, and as it has previously been searched for without effect, it has now been expunged from the Chart.

Approximate position, lat. 13° 43′ N., long. 120° 43¾′ E.

This Notice affects the following Admiralty Charts:—China sea, No. 2661b; Philippine islands, No. 943; Philippine islands between St. Bernardino and Mindoro straits, No. 2577: Also Eastern Archipelago, Part I, 1902, pages 70, 222; and China Sea Directory, vol. II, 1899, page 304.

KOREA, WEST COAST.

Irikobari somu (Pinnacle island).—Permanent light established.

No. 41 (third publication).—With reference to Notice to Mariners, No. 487, dated 12th December 1905, issued by this office, the British Admiralty has given further notice (No. 1373 of 1905) that, at the end of the month of October 1905, a *white flashing* light of the 1st order, showing *one* flash *every ten seconds*, elevated 334 feet about high water, and visible in clear weather from a distance of 26 miles, would be established in a cylindrical tower, painted white erected on the summit of Irikobari somu (Pinnacle island).

The tower is 10 feet in height, and has a white dwelling on its south-western side.

On the date that the permanent light is exhibited the provisional light (white fixed) will be discontinued.

Approximate position, lat. 34° 47¼′ N., long. 125° 47¼′ E.

This Notice affects the following Admiralty Charts:—Shantung promontory to Nagasaki, No. 3480; Korean archipelago, No. 104; western coast of Korea, No. 913; S.-W. coast of Korea, No. 3365; Also, List of Lights, Part VI, 1905, page 151; and Sailing Directions for Japan, &c., 1904, page 74.

AUSTRALIA, SOUTH—St. Vincent Gulf.

Port Adelaide river entrance—Light beacon disappeared.

No. 42 (third publication).—The British Admiralty has given notice (No. 1374 of 1905) that the inner light beacon from which a green light was exhibited, situated on the northern side of the entrance to Port Adelaide river, 2¼ cables N. 49° E. from the reflecting light-beacon, has disappeared and will not be replaced.

Approximate position, lat 34° 48′ S., long. 138° 28½′ E.

(*Variation 5° Easterly in 1905.*)

This Notice affects the following Admiralty Chart:—Port Adelaide, No. 1750: Also List of Lights, Part VI, 1905, No. 1166 (Remarks); and Australia Directory, vol. I, 1897, page 332.

JAPAN—Nipon, north-west coast—Wakasa wan.

Takahama wan—Rock.

No. 43 (third publication).—The British Admiralty has given notice (No. 1376 of 1905) of the existence of a pinnacle rock, with a depth of 4 fathoms over it at low water, in Takahama wan, situated in a position from which Mi sen summit (2,352 feet) bears N. 82° W., distant 2$\frac{5}{10}$ miles, and the western entrance point of the bay N. 14° W.

This danger, which is named Fukuguri rock, is 10 yards in extent, and has depths of from 7 to 8 fathoms around it.

Approximate position, lat. 35° 30¼′ N., long. 135° 31¾′ E.

(*Variation 5° Westerly in 1905.*)

This Notice affects the following Admiralty Chart:—Amarube zaki to Ando zaki, No. 2174: Also, Sailing Directions for Japan, &c., 1904, page 649.

CHINA, NORTH COAST—Kwang tung peninsula.

Ta Lien hwan—Wreck in entrance.

No. 44 (third publication).—The British Admiralty has given notice (No. 1380 of 1905) that a wreck of a vessel, probably the *Yenisei*, lies sunk in the entrance to Ta Lien hwan, in a position from which the summit of N. Shan shan tau bears S. 16° E., distant 1$\frac{5}{10}$ miles.

A buoy has been placed to mark the wreck.

Approximate position, lat. 38° 56′ N., long. 121° 50′ E.

(*Variation 4° Westerly in 1906.*)

This Notice temporarily affects the following Admiralty Chart:—Kwang tung peninsula, &c., No. 1798: Also, China Sea Directory, vol. III, 1904, page 586.

PACIFIC OCEAN—Philippine islands—Mindao, north-west coast.

Dapitan bay—Light on Tubud point discontinued.

No. 45 (third publication).—The British Admiralty has given notice (No. 1381 of 1905) that the red fixed light formerly shown from the lighthouse on Tubud point, Dapitan bay, has been discontinued.

Approximate position, lat. 8° 42½′ N., long. 123° 21′ E.

This Notice affects the following Admiralty Charts:—Philippine islands, No. 943; Sulu or Mindoro sea, eastern part, No. 2578; Dapitan bay on sheet, No. 957: Also, List of Lights, Part VI, 1905, No. 586, and Eastern Archipelago, Part I, 1902, page 320.

PACIFIC OCEAN—New Guinea, north-east coast.

Durour island—Amended position.

No. 46 (third publication).—With reference to notice to Notice to Mariners No. 461, dated 25th November 1905, issued by this Office, the British Admiralty has given further notice (No. 1384 of 1905) that the position of Durour island, north-east coast of New Guinea, has been fixed by the officers of H.I.M.S. *Möwe.*

The latitude of the eastern point of the island was determined by meridian altitude, taken on shore, to be 1° 27′ 30″ S. Owing to cloudy weather the longitude of this point could not be obtained by astronomical observations, but was determined on the passage to Maty island, by means of bearings taken when both islands were in sight, to be in about longitude 143° 6′ 20″ E.

The position of this island on the Chart has been amended accordingly.

Approximate position, Maty island, lat. 1° 45′ S., long. 142° 47′ E.

This Notice affects the following Admiralty Charts:—Pacific, south-west sheet, No. 780: Australia, northern portion, No. 2759a; north-east coast of New Guinea, No. 2766: Also, Pacific Islands, vol. I, 1900, page 414.

CHINA SEA—Gaspar strait.

Pare Joie reef—Reported position.

No. 47 (third publication).—With reference to Notice to Mariners No. 323, dated 26th August 1905, issued by this Office, the British Admiralty has given further notice (No. 1385 of 1905) that a repeated and careful search has been made for the Pare Joie reef in the position reported by the American S. S. *Mississipi* in May 1905, without any trace of its existence being found.

It is consequently considered that the *Mississipi* must have been deceived by the appearance of the water, but as a reef does doubtless exist in this vicinity, on which the ship *Pare Joie* remained aground for 24 hours, it is probable that the position given by that vessel is the most reliable.

Pare Joie reef has, therefore, been transferred on the Chart from the position given by the *Mississipi* to the situation originally assigned to it by the *Pare Joie*, viz., to a position from which Gaspar island summit bears S. ½ E., distant 5¼ miles. It has been marked P. D.

Approximate position, lat. 2° 19⅓′ S., long. 107° 4¼ E.

(*Variation 2° Easterly in 1905.*)

This Notice affects the following Admiralty Charts:—Eastern Archipelago, No. 941a; Banka and Gaspar straits, No. 2149; Gaspar strait, No. 2137: Also China Sea Directory, vol. I, 1896, page 461.

EASTERN ARCHIPELAGO—Borneo, east coast.

Muara Batagau—Buoy established.

No. 48 (third publication).—The British Admiralty has given notice (No. 1386 of 1905) that a black conical buoy surmounted by a ball has been moored in a depth of 7 fathoms in the entrance to Muara Batagau, in a position from which the southern extremity of Tarakan bears N. 79° W., distant 14¼ miles, and the eastern extremity of Bunju N. 4° W.

Approximate position, lat. 3° 11¼′ N., long 117° 52¼ W.

(*Variation 2° Easterly in 1905.*)

This Notice affects the following Admiralty Chart:—Strait of Makassar, No. 2636: Also Eastern Archipelago, Part II, 1904, page 341.

AUSTRALIA, SOUTH—Gulf St. Vincent.

Port Adelaide river—A Black buoy placed.

No. 49 (third publication).—The President of the Marine Board, Port Adelaide, has given notice (No. 32 of 1905) that a Black Buoy has been placed to mark the edge of the North Bank, at a position near where the inner Green Light Beacon formerly stood. As this

Buoy will probably need to be moved slightly as the work of deepening the Outer Harbour progresses, it must be taken only as indicating the edge of the shoal, and vessels navigating that part of the channel should not approach it within 50 ft.

NOTE.—This affects Admiralty Chart 2389B, 1750, and 1752.

AUSTRALIA, SOUTH—GULF ST. VINCENT.

Port Adelaide river—Semaphore Signal Station.

No. 50 (third publication)—The President of the Marine Board, Port Adelaide, has given notice (No. 33 of 1905) that, on and after the 1st January next, the method of signalling from the Semaphore Station the depth of water in the Port Adelaide River will be altered. Copies of the regulations, in which the new signals are described in detail, may be had upon application at these offices.

FIRST FORECAST OF THE WHEAT CROP OF BENGAL, 1905-1906.

THE following note is published for general information.

R. W. CARLYLE,
Offg. Chief Secy. to the Govt. of Bengal.

The 13th February 1906.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Wheat crop of Bengal, 1905-1906.

[On an average of five years ending 1903-04, the area under wheat in the territory to which this Forecast relates has represented some 6·2 per cent. of the total area under wheat in British India.
The ratio of irrigated wheat acreage to total wheat acreage (*a*) in British India and (*b*) in the territory now reported on, has in the five years ending 1903-04, averaged (*a*) 41·5 per cent. and (*b*) 2·2 per cent, respectively.]

Explanatory.—The present Forecast relates to the Province of Bengal as now constituted. That is, it excludes the 14 districts recently transferred to the new Province of Eastern Bengal and Assam while it includes Sambalpur which has been transferred to this Province from the Central

Provinces. Neither Sambalpur, however, nor most of the districts made over to the new Province grow much wheat. As a matter of fact, the crop is grown chiefly in Bihar. Outside Bihar the only important wheat-growing districts are Murshidabad and Nadia. There is practically no wheat in Orissa.

2. *Character of the season.*—The season on the whole has been favourable. In certain districts, however, the crop suffered from the failure of the *hathiya* rains in October, but in the week just closed rain was fairly general in the Presidency and Burdwan Divisions with scattered showers in Bihar. In the important wheat-growing district of Bhagalpur there was a severe hail storm on the 22nd but the extent of the damage has not yet been reported.

3. *Area sown.*—The total normal area under wheat in the Province now stands at 1,350,400 acres. The actual area sown this year is 1,256,000 acres against 1,324,800 acres of last year. The sowing took place on the whole at the normal time.

Outturn.—From the Appendix it will appear that a normal outturn is expected in three of the minor districts only (Purnea, Cuttack and Balasore); five districts return between 90 and 99 per cent.; nine districts between 80 and 89 per cent.; four between 70 and 79; while six districts return below 70 per cent. According to the estimate of the District Officers, the outturn for the whole Province works out to 83 per cent. of a normal crop.

C. E. A. W. OLDHAM,

Officer on special duty in connection with the Dept. of Agriculture, Bengal.

The increase in the area under wheat crop this year is due partly to the Subdivisional Officer, Jajpur, inducing the tenants to grow this crop in the different parts of his subdivision and supplying the seeds from the Agricultural Department for the purpose and partly to the tenants of the Kendrapara subdivision who were induced by the favourable weather to grow this crop in a greater scale. The date of sowing this year was early. If weather continues favourable, the normal outturn is expected.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, d from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the ermometers are verified, and the readings have been corrected to a standard constructed and verified at the ew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet ove the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the rveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in e Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 ours preceding 8 A.M. of that day.

CANTONMENTS.

No. 117.—In exercise of the powers conferred by section 41 of the Cantonments (House-Accommodation) Act, 1902 (II of 1902), the Governor-General in Council is pleased to make the following rules for all cantonments or parts of cantonments in British India in which the said Act is for the time being operative:—

1. Every notice prescribed by section 6 may be in the appropriate form set forth in Schedule A with such variations as the circumstances of each case require.

2. Any notice required by these rules, if not served by post under section 40, may be served by any person authorized by the Cantonment Magistrate in this behalf,

(*a*) by giving or tendering a duly signed copy thereof to the person to whom it is addressed; or

(*b*) where the notice cannot be served as prescribed in clause (*a*) by causing it to be affixed to some conspicuous part of the house to which it relates, and by publishing it in one vernacular and one English daily newspaper.

3. Every petition of appeal under section 35 shall state the grounds of appeal.

4. When a Committee of Arbitration, hereinafter referred to as "the Committee," has been duly constituted and each of the members thereof informed by the Cantonment Magistrate of the fact, as provided in sub-section (1) of section 30, the Chairman of the Committee shall, within a week from receipt of such notice, fix the time and place of meeting and give notice in writing of the same to the other members of the Committee, and, through the Cantonment Magistrate, to the parties concerned.

5. The notice given to the parties under the preceding rule shall state the purpose for which the Committee will assemble, and shall contain a direction to them to produce their evidence, oral and documentary, on the date fixed, or if they are unable to do so, to forward to the Chairman at least seven days prior to the day of the meeting, a list of the witnesses whom they desire to be summoned in their behalf, either to give evidence or to produce documents relating to the matter in dispute.

6 On receipt of the lists of witnesses and documents, if any, the Chairman shall, if he considers the request made for the attendance of the witnesses named and the production of the documents called for to be reasonable, transmit the list to the Cantonment Magistrate for issue of the necessary processes under section 30 (2) of the Act. If he considers the attendance of any witness named or the production of any document called for to be unnecessary, he shall inform the party concerned and the point whether such witness should be summoned or such document called for shall be determined by the Committee at their first meeting.

7. It shall be open to the Chairman to call for the attendance of witnesses or the production of documents other than those named by the parties, and to transmit a list of these to the Cantonment Magistrate for action.

8. The Chairman shall record in the award the question for decision, the number of the Station Order convening the Committee, the names and status of the members thereof, and the decision arrived at. The award shall be signed by the Chairman, and shall be forwarded by him in duplicate to the Cantonment Magistrate for disposal.

9. The Committee shall have power to correct any clerical mistake or error in their award which may have arisen from any accidental slip or omission.

10. The Committee, or any of their number or any person especially authorised by them in this behalf, may enter into or on any building or land, which is the subject of arbitration; and may make such inspection, aided if required, by expert evidence, as they may think fit.

11. Every requisition for reference of any question to a Committee of Arbitration shall set forth the grounds upon which the applicant relies.

12. Where any member of the Committee of Arbitration dies or becomes incapable of acting, the officer or owner, as the case may be, who nominated him shall nominate another person in his place within seven days from the date on which he is called upon to do so, and, if he fails to do so, the District Magistrate shall forthwith appoint a member in his place.

13. The parties shall be entitled to appear at and be heard at the meetings of the Committee of Arbitration, or at the hearing of appeals under Chapter V, either in person or through duly qualified pleaders.

14. The Chairman shall furnish a copy of the award to each of the parties free of charge and shall then forward the original to the Cantonment Magistrate.

15. The powers of entry conferred by section 13 and section 39, sub-section (4), and the powers of entry and inspection conferred by rule 10 shall only be exercised between sunrise and sunset:-

Provided that—

(1) no building or land which may be occupied at the time shall be entered, unless with the consent of the occupier thereof, without twenty-four hours' written notice having been given to the said occupier;

(2) when any building used as a human dwelling is entered, due regard shall be paid to the social and religious sentiments of the occupiers; and no apartment in the actual occupancy of a woman shall be entered until she has been informed that she is at liberty to withdraw, and every reasonable facility has been afforded to her for withdrawing.

16. No person in military employ below the rank of non-commissioned officer shall be authorised under the provisions of section 13 or 39, sub-section (4), or of rule 10.

17. Whoever obstructs any person authorised to inspect or enter a house, such person not being a public servant within the meaning of section 21 of the Indian Penal

Code, shall be punishable with fine, which may extend to Rs. 50, and, in the case of a continuing offence, with fine which, in addition to such fine as aforesaid, may extend to five rupees for every day after the first during which such offence continues.

No. 794L.S.-G.—The 20th February 1906.—It is hereby notified for general information that in exercise of the power conferred on him by section 138 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor intends to cancel rule 4 of the rules made under clauses (*g*), (*l*) and (*m*) of that section and published under Notification No. 3334L.S.-G., dated the 20th December 1901, at pages 293—305 of Part IB of the *Calcutta Gazette* of the 25th idem, and also rule 3 which was, by Notification No. 664T.—M., dated the 19th May 1905, substituted for rule 3 of the aforesaid rules.

2. The Lieutenant-Governor also intends to substitute the following rules for rules 2 and 12 of the aforesaid rules:—

Rule 2.—A candidate for first employment as District Engineer must be qualified in one of the manners following, that is to say, he must—

(*a*) be at the time of seeking the employment, or have previously been, a member of the permanent establishment of the Public Works Department in the grade of Executive or Assistant Engineer or Sub-Engineer or Supervisor; or

(*b*) hold the degree of Bachelor of Engineering or be a Licentiate of Engineering of the Calcutta University, or have passed the final examination of the Engineering Department of the Civil Engineering College at Sibpur; or

(*c*) have served an apprenticeship of not less than three years in the United Kingdom with some recognised firm of Engineers of high standing; or

(*d*) have passed satisfactorily through the whole course of instruction at a recognised School of Engineering in the United Kingdom (*e.g.*, King's College, London; Cooper's Hill College; the Crystal Palace School of Engineering).

Provided that in all cases the candidate must have held charge of important works for not less than five years and must produce a certificate from his immediate superior during such employment that his conduct was satisfactory. The candidate must also produce evidence that his knowledge of the native language is such as to qualify him for employment as a District Engineer.

Note to clause (*b*) —Candidates who have passed the final examination of the Engineering Department of the Colleges of Engineering of Roorkee, Madras or Poona are also eligible provided the number of candidates from the Civil Engineering College at Sibpur is found to be insufficient.

Rule 12.—On receipt of the confirmation of the Commissioner, the Chairman of the District Board shall publish an advertisement which shall be three times repeated in the *Calcutta Gazette* and in the *Statesman*, the *Englishman*, the *Indian Daily News*, the *Bengali*, the *Pioneer*, the *Civil and Military Gazette*, the *Times of India* and the *Indian Engineering* newspapers stating the terms of the appointment and the qualifications required.

3. These proposals will be taken into consideration with a view to their final adoption on the 1st April 1906. Any objection or suggestion which may be made by any person and received before that date will be considered.

No. 796M.—The 20th February 1906.—Whereas a notification No. 2249M., dated the 8th November 1905, was published in Part IB of the *Calcutta Gazette* of the 15th November 1905, declaring the intention of the Lieutenant-Governor, in exercise of the powers conferred by section 9 (*e*) of the Bengal Municipal Act, III of 1884, on the recommendation of the Commissioners of the Asansol Municipality, in the district of Burdwan, made at a meeting, to alter the number of Commissioners fixed for that Municipality so as to raise it from nine to ten, and whereas no objection has been raised to the proposal within six weeks from the date of the publication of the aforesaid notification within the Municipality, it is hereby notified for general information that, under section 9A (2) of the Act, the Lieutenant-Governor is pleased to direct that the number of Commissioners of the said Municipality shall be fixed at ten.

Alipore, the 17th February 1906.

GANGA GOVINDA GUPTA, for Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on the 27th March 1906, corresponding to 13th Chaitra 1312 (B.S.).

Conditions of sale.

1st.—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them with effect from 1st April 1906 as revenue free or subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the estate will be again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned plots of land formerly occupied by the old outpost building at Barjora, thana Gangajalghati in the district of Bankura, will be put up to sale by the Collector of the district at Sadar office, Bankura, on the 28th March 1906, corresponding to 14th Chaitra 1312 (B.S.).

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The four plots of land to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of these plots will be considered as the proprietor of these plots, and the entire proprietary right of Government in such plot will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and the purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and these plots to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

LEGISLATIVE DEPT.,
BOOK DEPÔT BRANCH,
The 9th January 1906.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

The Hon'ble MR. SYED SHURFUDDIN.

QUESTIONS AND ANSWERS.

GROWTH OF COTTON IN BENGAL.

The Hon'ble BABU JOGENDRA NATH MUKHERJEE asked:—

(*a*) Will the Government be pleased to state if any steps have been taken by it since the creation of the Department of Agriculture, to stimulate the growth of cotton in the several districts of this Province? If so, what they are?

(*b*) Will the Government be pleased to state as far as possible, what experiments have been made by it and what results have been obtained, as regards the production of cotton in the several districts of this Province?

The Hon'ble MR. CARLYLE replied:—

"The Bengal Department of Agriculture was created in 1885. It is only since 1903 that the Department has taken steps to stimulate the growth of cotton.

"Attempts are being made (1) to improve the outturn and quality of local varieties of cotton by selection of seed in the important cotton-growing districts, and (2) to introduce superior varieties of cotton from Egypt and America, and from other Provinces in India.

"The Hon'ble Member is referred to the answer given to Question No. II of the Hon'ble Babu Ambika Charan Mazumdar asked at the Council Meeting of the 2nd December, 1905, for further details.

"Besides these steps, the Department has tried the following experiments at the farms under its charge; (1) comparison of the outturn of a few select varieties, and (2) production of superior hybrids of cross fertilisation. The past two or three years have been unfavourable for cotton cultivation in this Province, and the experiments have not given results that can be safely regarded as definite. It is intended to continue the experiments."

OPERATION OF THE LAND REVENUE SALE LAW.

The Hon'ble BABU JOGENDRA NATH MUKHERJEE asked:—

Will the Government be pleased to state:—

(*a*) Whether the 19 cases of hardship mentioned in the recent Government Resolution on the Administration of the Board of Revenue, Lower Provinces, for 1904-05, regarding the operation of the Land Revenue Sale Law, comprise only those cases in which the Hon'ble Members of the Board agreed with the Divisional Commissioners in their recommendations for annulment of sales on the ground of hardship?

(*b*) Whether there were any cases during the period 1904-05 in which such recommendations of the Divisional Commissioners on the ground of hardship were not acted upon by the Board of Revenue; if so, the number of such cases?

The Hon'ble MR. CARLYLE replied:—

"(*a*) The 19 cases mentioned in the Government Resolution on the Land Revenue Administration Report for the year 1904-1905 comprise only those cases in which the Board of Revenue agreed with the Divisional Commissioners in recommending the annulment of sales on the ground of hardship.

(*b*) There were only two cases during the year 1904-1905 in which the Board did not support the recommendations of Divisional Commissioners."

THE CALCUTTA AND SUBURBAN POLICE SUPERANNUATION FUND.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

Will the Government be pleased to state what was the outstanding balance of the Calcutta and Suburban Police Superannuation Fund, which has become vested in Government under the operation of the Calcutta and Suburban Police (Superannuation Fund) Act, 1905?

The Hon'ble MR. SHIRRES replied:—

"The balance of the Calcutta and Suburban Police Superannuation Fund which has become vested in Government is Rs. 3,48,540-8-7."

REDUCTION OF ESTABLISHMENTS IN CERTAIN OFFICES IN BENGAL.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

Will the Government be pleased to lay on the table a statement showing the reduction effected under the partition of Bengal in the establishments of the following offices, viz.:—the Bengal Secretariat, the Board of Revenue, the Public Works Department and in the offices of the Inspector-General of Police, the Commissioner of Excise, the Accountant-General, the Postmaster-General, the Inspector-General of Civil Hospitals, the Inspector-General of Registration, the Director of Land Records and Agriculture, the Director of Public Instruction and the Sanitary Commissioner for Bengal?

The Hon'ble MR. CARLYLE replied:—

"The question of the reduction to be effected in the offices named in the question is still under discussion with the Government of India."

THE BENGAL SMOKE-NUISANCES ACT.

The Hon'ble MR. LARMOUR asked:—

Will the Government be pleased to state when it is proposed to bring into operation the Bengal Smoke-Nuisances Act passed by this Council last year?

The Hon'ble MR. CARLYLE replied:—

"A Commission has been appointed under the terms of section 4 of the Act, and the members have been notified in the Calcutta Gazette of the 24th January. On the same date Mr. Nicholson, who has had large experience of similar work in England and who had arrived two days before in Calcutta was appointed Chief Inspector. It was not considered advisable to appoint the Commission until Mr. Nicholson arrived. He has been diligently studying local conditions since his arrival; and the Commission with his assistance will now frame rules under section 10 of the Act. As soon as these rules have been approved by the Governor General in Council, they will be notified; and the Act will then be operative."

REDUCTION OF FEES UNDER THE PUBLIC DEMANDS RECOVERY ACT.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

Will the Government be pleased to state whether it is or it is not a fact that considerable surpluses are annually left in almost every district out of the process fees realized for the service of notices and execution of certificates under the Public Demands Recovery Act? If so, will the Government be pleased to consider whether it is not feasible to make a reduction in the rate or rates at which such fees are levied at present?

The Hon'ble Mr. CARLYLE replied:—

In the great majority of certificate cases the process fee is the only charge made for all the work done in the Certificate and Nizarat and other departments in connection with the recovery of claims. Government is not prepared to say what surplus may fairly be held to accrue when all the charges which can legitimately be debited to this head are set off, and these charges are likely to be modified as a result of the inquiries which are now being made by the Commission appointed to inquire into ministerial salaries. In the opinion of Government the present charges are moderate, and do not call for reduction. At the same time, the possibility and propriety of reducing the fees are matters which will receive attention after receipt of the Commission's report.

THE BENGAL DISORDERLY HOUSES BILL, 1905.

The Hon'ble MR. GORDON presented the Report of the Select Committee on the Bill to provide for the discontinuance of brothels and disorderly houses in certain localities in Bengal. He said:—

"The Bill has been amended in certain important particulars and the amendments are all shown in italics. Some of these amendments affected questions of principle specially those referred to in paragraph 7 of the Report. This therefore required the sanction of the Government of India. The amendments have been forwarded to that Government and until the orders of the Government of India have been received the proceedings in this Council will remain pending.

THE BENGAL LAND REGISTRATION (AMENDMENT) BILL, 1905.

The Hon'ble MR. HARE presented the Report of the Select Committee on the Bill to amend the Land Registration Act, 1876. He said:—

"The amendments which have been proposed are very slight, and they are referred to in the Report of the Select Committee. I do not think therefore there is any occasion for me to make any remarks at present.

THE BENGAL COURT OF WARDS (AMENDMENT) BILL, 1905.

The Hon'ble MR. HARE presented the Report of the Select Committee on the Bill to amend the Court of Wards Act, 1879. He said:—

"I do not propose to ask your Honour for leave that the Report of the Select Committee on the Bill to amend the Court of Wards Act, 1879, be taken into consideration, nor do I propose to ask for permission that the Bill be considered in the form recommended by the Select Committee. The reason is that certain amendments which have not been before the Select Committee for their consideration have been put in rather late, and Government have not had sufficient time to consider them in their consequences fully. We think therefore that it would be better to adjourn that part of the Business to the next meeting of Council. I beg, therefore, to move that the Motion which stands in my name, namely, that the Report of the Select Committee on the Bill to amend the Court of Wards Act, 1879, be taken into consideration, be postponed to the next meeting of Council.

The Motion was put and agreed to.

The Council was then adjourned to Saturday, the 3rd March, 1906.

CALCUTTA;
The 20th February, 1906.

COTTON CROPS OF BENGAL, FEBRUARY, 1906.

THE following note is published for general information.

R. W. CARLYLE,

Offg. Chief Secy. to the Govt. of Bengal.

The 20th February 1906.

DEPARTMENT OF AGRICULTURE, BENGAL.

REPORT ON THE COTTON CROPS OF BENGAL, FEBRUARY, 1906.

[On an average of the five years ending 1903-1904 the area under cotton crops in the territory to which this forecast relates has represented some 1·08 per cent. of the total area under cotton crops in British India.]

Explanatory.—Four forecasts of cotton are to be issued by this Department at equal intervals of two months, viz., before the 15th of August, October, December and February, the first two dealing with estimates of area sown and the

general condition of the crop, and the other two with revised estimates of area sown, together with an estimate of the probable outturn.

Since the issue of the October forecast, the important cotton district of the Chittagong Hill Tracts has been transferred to the new Province of Eastern Bengal and Assam, and Sambalpur has been added to this Province.

Character of the season.—Early cotton is grown in the Sonthal Parganas, Sambalpur, Manbhum, Singhbhum and Angul. Weather conditions were generally favourable in the early part of the season, but there was some damage in the Sonthal Parganas and Manbhum by excessive rain in September.

In respect of late cotton, the most important districts are Saran, Muzaffarpur and Darbhanga. This crop is sown partly at the beginning, and partly at the end of the rains. In the districts where it is sown at the beginning of the monsoon, excessive rain and floods caused damage to the crop.

Area sown.—The area sown with early cotton this year was 36,504 acres, and that sown with late cotton, 36,356 acres.

Outturn.—According to the revised returns the outturn of early cotton is estimated at 5,680 bales while the outturn of late cotton is estimated as 11,221 bales (one bale=400lbs.) Adding 5 per cent. to the above figures for cotton grown in the Native States, for which statistics are not available, the total estimates for early and late cotton come, respectively, to 5,964 and 11,782 bales.

General Summary.—Rain was general and for the most part heavy all over the Province except in Saran, Champaran, Muzaffarpur and Darbhanga, where the fall was light to moderate. The heavy rain of the week has adversely affected the *rabi* crops to some extent, especially the pulses that are in pod. An area of about 30 square miles in the district of Monghyr was affected by the hailstorm of the 22nd January last, and the loss of the *rabi* crops in this area is estimated at about 46 per cent. Hail is also reported this week from Sambalpur and Palamau. Prospects of *rabi* crops are otherwise fair. Cattle-disease is reported from seven districts. Fodder is still insufficient in parts of the Darbhanga district. Water-supply is plentiful. The price of common rice has risen in ten districts and has fallen in two. It continues high in most of the districts of the Burdwan and Presidency Divisions and also in Monghyr and Purnea.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN EASTERN BENGAL AND ASSAM, FOR THE MONTH OF JANUARY, 1906.

THE first month of the New Year was, like its predecessors of the present cold weather, of a very ordinary type. The most remarkable feature of the month was its considerable coolness, due during the first twenty days of the month to a strong monsoon bringing down cold air from the north, and during the last ten days to excessive precipitation and heavy clouds which, while preventing the nights cooling down as much as they otherwise would, even more acted as a protection from the sun's rays during the day.

The light rain which prevailed in the south of Bengal during the last few days of December ended with the year 1905, and New Year's day 1906 was bright and dry with the barometer at its proper height and a north-east to south-west pressure gradient only a shade steeper than is usual for New Year's day in Bengal and the Bay of Bengal, and temperature a trifle cooler than normal. This perfectly typical descent of cool air from the Himalayas and over Central India was maintained with only slightly increasing force on the 3rd, 4th and 5th, with diminishing force on the 6th and 7th, and disappearing altogether on the 8th and 9th. The variation of temperature from the normal synchronised closely with these changes in the pressure distribution, the maximum deficiency (viz., 6° in South-West Bengal) falling on the 6th. From the 10th to the 17th the centre of the anti-cyclonic air movement was shifted westwards over Central India, so that the winds, though of less force, were enabled to preserve a rather more than ordinary coolness in virtue of their more northerly direction. On the 18th, 19th, and 20th the pressure gradient flattened out and the monsoon diminished to its ordinary strength and temperature gradually rose to the normal for the season. On the 21st a shallow depression appeared over the south of the United Provinces and gave very general and heavy rain over Bihar, North Bengal, South-West Bengal, Chota Nagpur and Orissa; and extending into the parts of Bengal and Assam on the next two days, while the wind going round to the south and south-west, sent the mean temperature up to just above normal, and the heavy overclouding of the sky kept the night temperature as much as 10° or 11° above the normal minimum. On the 23rd normal barometric conditions were established over the Bay, and on the 24th the monsoon pressure gradient was even a little stronger than usual; but before the temperature had time to fall more than about 1° below normal a very shallow depression appeared over Central India on the 25th, and by giving the winds at the head of the Bay a southerly component caused the temperature to rise again to 4° or 5° above normal, while giving a pretty general precipitation in Chota Nagpur and more scattered showers in the adjoining western parts of Bengal on the 26th, 27th and 28th. On the 28th the mean temperature was as much as °8 above normal. On the 29th and 30th the pressure gradient was steep from north-west to south-east, but its component at right angles was practically zero or contrary in sign to that proper to a north-east monsoon. On the 30th and 31st there occurred one of those mysterious see-saw movements of the barometer, which on the former day fell through one-fifth of an inch along the base of the Himalayas and on the second day more than recovered its former height. The only other noticeable phenomenon associated with this oscillation of the barometer was a sudden fall of temperature which is no doubt sufficiently explained by the rapid evaporation of the clouds owing to the sudden compression, and the simultaneous shifting round of the direction of the winds.

Summary of Pressure.—All these barometric oscillations were so symmetrically above and below the mean that the integregated average pressure for the month scarcely varies at all from the normal, though it was on the whole just a trace above normal over the Province and a little below over the Bay, indicating a slightly stronger than ordinary north-east monsoon during the month.

From the following table it will be seen that the vertical pressure anomaly between Darjeeling and Calcutta which, after oscillating backwards and forwards during last year's rains, had disappeared in October and become markedly negative during the first two months of the present cold weather, has become slightly positive during January, thereby indicating that the large rainfall of the month was not connected with an excessive amount of moisture in the upper atmospheric strata:—

Summary of Temperature.—The month of January 1906 was a little cooler than January has usually been in former years all over Bengal, Bihar, Chota Nagpur, and the northern half of Orissa, while its southern half was just a little warmer than usual. The highest temperature recorded was 89°·4 at Cuttack and the lowest in the Plains 40°·1 at Motihari. At Calcutta the extreme limits of temperature were 81°·9 and 44°·4.

Summary of Rainfall.—The total rainfall for the month was in large excess above the normal average (of 100 to 270 per cent.) in every division of the Province, except in Bihar, where it was 19 per cent. less than the normal average.

The following table gives the summary of the temperature of each of the seven Meteorological Divisions of the Provinces of Bengal and of Eastern Bengal and Assam, and rainfall data of each of the four meteorolgical divisions of the Province of Bengal for the month of January 1906:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables compiled in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

(*h*) the special conditions and incidents, if any, of the tenancy;

(*i*) if the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;

(*j*) the custom of the village regulating the methods of irrigation, and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

No. 1115L.R.—The 26th February 1906.—In exercise of the power conferred upon him by section 27 of the Coöperative Credit Societies Act, 1904 (X of 1904), the Lieutenant-Governor is pleased to make the following rules to carry out the purposes of the said Act in the Province of Bengal:—

RULES.

Definitions.

1. In these rules,—

"the Act" means the Coöperative Credit Societies Act, 1904; and

"the rules" means rules made under the Act and for the time being in force.

Application for registration.

2. (*1*) Every application for the registration of a Society must be submitted to the Registrar, Coöperative Credit Societies, in the form contained in the schedule to these rules, and must be signed by the applicants.

(*2*) With every such application there must be submitted a copy of the by-laws (if any) which the Society proposes to make, and such copy must be signed by the applicants.

Procedure of Registrar on receipt of such applications.

3. (*1*) The Registrar shall examine such application and by-laws in order to satisfy himself as to—

(*a*) whether they are in conformity with the Act and the rules;

(*b*) whether the by-laws are suitable for ensuring the safe conduct of business and the carrying out of the intentions of the Act; and

(*c*) whether the Society fulfils the intentions and conditions of the Act and the rules;

and may require any alterations to be made in the application or by-laws in order to bring them into conformity with the Act or the rules.

(*2*) If the Registrar is not satisfied on all points mentioned in clauses (*a*), (*b*) and (*c*) of sub-rule (*1*), he shall refuse to register the Society; but if he is so satisfied, he shall grant a certificate of registration.

(*3*) Whenever the Registrar refuses to register a Society, he shall record his reasons in writing, and the applicants may appeal to the Board of Revenue whose decision shall be final.

Nominees of deceased members.

4. (*1*) Any member of a Society may nominate any person to whom or to whose credit the moneys referred to in section 16 of the Act shall be paid or transferred on the death of the member.

(*2*) The Society must keep a register of all persons so nominated.

Borrowing.

5. (*1*) Registered societies may borrow, in accordance with law, from either members or non-members; and all borrowings shall be regulated by by-laws.

(*2*) Borrowings from members shall ordinarily take the form of deposits.

(*3*) The maximum amount of borrowings shall be determined annually at a general meeting of the Society, and shall be reported to the Registrar.

Power to make by-laws.

6. (*1*) Any Society may make by-laws in respect of the following matters namely:—

(*a*) the name and registered address of the Society, and the area of its operations;

(*b*) the objects for which the Society is established; the purposes for which the funds thereof are applicable; the terms of admission of members; the conditions under which members may obtain loans, and the consequences of default in payment of any sum due by a member;

(*c*) the mode of holding meetings, the right of voting, and the manner of making, altering and abrogating by-laws;

(*d*) the rights and liabilities of membership;

(*e*) the mode of appointment and removal of a Committee and officers (if any), and the duties and powers of the Committee and the officers;

(*f*) the manner in which capital may be raised, by means of shares or debentures, or by borrowing from persons who are not members, or by taking deposits from members, or otherwise;

(*g*) the mode of custody and of investment of the funds, and, subject to the rules, the mode of keeping the accounts; and

(*h*) any other matters incidential to the management of the business of the Society.

(*2*) When a Society has been registered, the by-laws submitted under rule 2 shall, subject to any modifications approved by the Registrar, become the by-laws of the Society on their being adopted by a majority at a meeting of not less than two-thirds of the members.

(*f*) By-laws may be made, altered or abrogated thereafter in accordance with a resolution passed at a general meeting of the Society:

Provided that—

(*a*) due notice of any proposal to make, alter or abrogate is given in accordance with the by-laws;

(*b*) the resolution is passed by not less than two-thirds of the members present at the general meeting, and by not less than half of the total number of the members; and

(*c*) the making, alteration or abrogation is approved by the Registrar.

Accounts and books.

7. Every Society shall keep the following accounts and books, namely:—

(*a*) Register of members, together with their addresses, caste and date of membership;

(*b*) Register of shares or debentures (if capital is raised by shares or debentures);

(*c*) Cash account;

(*d*) Members' loan accounts;

(*e*) Depositors' accounts;

(*f*) Register of members' nominees to their interest in case of death;

(*g*) Savings Bank account;

(*h*) Minute-book, in which the proceedings of general meetings, of meetings of the Committee, and of Supervisors shall be recorded.

Certifying copies of entries in books.

8. For the purposes of section 22 of the Act, a copy of any entry in a book of a Society may be certified by a certificate written at the foot of such copy that it is true copy of such entry, that such entry is contained in one of the ordinary books of the Society and was made in the usual and ordinary course of business, and that such book is still in the custody of the Society; such certificate being dated and subscribed by the Chairman of the Society or by any other officer approved by the Registrar.

R. W. CARLYLE,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 899Medl.—The 27th February 1906.—Whereas by Notification No. 4107 Medl., dated the 11th August 1899, published at pages 1078-1079 of the *Calcutta Gazette*, dated the 16th idem;

It was notified that the Lieutenant-Governor of Bengal, in the exercise of the powers conferred by sections 4 and 5 of the Charitable Endowments Act, 1890, and upon the application and with the concurrence of the Administrators to the estate of the late Brigade-Surgeon Lieutenant-Colonel Rajendra Chandra Chandra, formerly a Professor of the Medical College, Calcutta, and Officiating Inspector-General of Civil Hospitals, Bengal, did thereby order and direct that the Government Promissory Notes of which the particulars are contained in Part I of the first Schedule hereunder written should as from the date of the first publication in the *Calcutta Gazette* of the reciting Notification vest and be thenceforth vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal, to be held by him and his successors (subject to the provisions of the said Charitable Endowments Act, 1890, and the rules from time to time framed thereunder by the Governor-General in Council) upon trust for ever thereafter to receive the interest of the said securities when and as the same should become due and payable, and from time to time to apply the same in terms of the scheme for the creation of an endowment for the purpose of founding and maintaining two scholarships for the benefit of the students of the Medical College, Calcutta, of which particulars were contained in the Second Schedule to the said notification: AND WHEREAS difficulty has been experienced in awarding the scholarships under the said scheme of which particulars were contained in the said Second Schedule to the said recited notification and the Principal of the Medical College, Calcutta, as the trustee appointed by the said scheme to administer the trust has with the approval of the surviving administrator of the estate of the donor applied to the Local Government to modify the said scheme under the authority in that behalf contained in clause 5 of such scheme; AND WHEREAS the Lieutenant-Governor of Bengal has approved of the proposed modifications of the said scheme, AND WHEREAS accumulations having resulted of the interest of the securities vested by the said recited notification the same have been invested in the purchase of the 3½ per cent. Government Promissory Notes of which particulars are contained in Part II of the Firt Schedule hereunder written, and it has been resolved that the said last mentioned securities shall be vested in the said Treasurer of Charitable Endowments upon the trusts hereinafter declared,

It is hereby notified that the Lieutenant-Governor of Bengal in exercise of the powers conferred by sections 4 and 5 of the Charitable Endowments Act, 1890, and of the authority in that behalf contained in clause 5 of the said scheme of which particulars were contained in the Second Schedule to the said recited notification doth hereby order and direct that in place of the said scheme of which particulars were contained in the Second Schedule to the said recited notification there shall be substituted the modified scheme of which particulars are contained in the Second Schedule hereunder written, and that the Government Promissory Notes of which particulars are contained in Part I of the First Schedule hereunder written and also the Government Promissory Notes of which particulars are contained in Part II of the last mentioned schedule shall as from the date of the first publication in the *Calcutta Gazette* of this notification vest and be thenceforth vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal to be held by him and his successors subject to the provisions of the Charitable Endowments Act, 1890, and any rules from time to time framed thereunder by the Governor-General in Council upon trust to receive the interest of the said securities vested by this Notification when and as the same shall become due and payable, and from time to time to apply the same in accordance with the said substituted scheme for the creation of an endowment for the purpose of providing and maintaining two scholarships for the benefit of the students and *ex*-students of the Medical College, Calcutta, of which scheme particulars are contained in the said Second Schedule hereunder written.

Government Promissory Note No. 172652 of the 3½ per cent. loan of 1865 for	2,000
Government Promissory Note No. 162621 of the 3½ per cent. loan of 1865 for	600

The second Schedule above referred to.

1. The endowment hereby created shall be called after the donor, "Dr. Chandra's Scholarship Fund," and its object is and shall be the maintenance of the said Fund, particulars whereof are given in the First Schedule hereto, for the purpose of founding two scholarships to be paid out of the income of the said fund, for the benefit of the students *and also as regards the scholarship referred to in clause 2 hereof of the* ex-*students of the Medical, College, Calcutta, as hereinafter mentioned.*

2. (*a*) One of the scholarships will be of the value of *Rs. 361-8 per annum* and shall be called "Dr. Chandra's scholarship in Materia Medica and Therapeutics" to be awarded to the best successful candidate, who shall be selected at an examination to be held annually, or, in the event of the scholarship being made tenable for two years as contemplated by clause (*f*) hereof, at such time as may be prescribed by the Principal of the Medical College, Calcutta. Such examination to be held by the Professor for the time being of Therapeutics of the Medical College, Calcutta.

(*b*) The examination shall be open (1) to all senior students, for the time being, of the Medical College, Calcutta, (2) to any *ex*-senior student of the Medical College, Calcutta, who may at the time of the examination be studying at any Medical College in India, or in Europe, and (3) to any graduate or licentiate in medicine of whatever standing, and, however employed, who may have obtained either in Europe or in India a medical diploma or degree entitling him to practise medicine, provided that such graduate or licentiate at some time received a portion of his professional education in the Medical College, Calcutta. Certificates to the effect that the candidate fulfils the above requirements, together with one of good moral character signed by a person of respectability must be submitted to the Principal of the Medical College, Calcutta, along with the candidate's application, at least a month before the examination.

(*c*) Personal attendance at the examination will not be insisted upon, but the submission, by such date as may be fixed by the said Professor, of a signed Thesis on some subject connected with Materia Medica and Therapeutics, with special reference to Indian drugs, to be selected by the said Professor shall be sufficient.

(*d*) The Thesis shall be examined and adjudicated upon by the said Professor.

(*e*) Evidence of original investigations in indigenous drugs shall not be insisted upon, but it shall be previously announced that preference will be given to the candidate whose Thesis bears evidence of original investigations of any worth in connection with such drugs.

(*f*) The scholarship to be ordinarily tenable for one year. But it may be made tenable for two years in case of exceptional merit on the recommendation of the Examiner.

(*g*) In case the scholarship is not earned in any year the amount shall lapse to the capital fund to be utilised either for the creation of a second scholarship, for increasing the value of the scholarship already existing, or for awarding a prize in a cognate subject to a deserving candidate, at the discretion of the examiner, with the sanction of the Principal, Medical College, Calcutta.

3. The other scholarship will be of the value of Rs. 241 per annum to be called after the donor's wife, "Mrs. Mary Chandra's scholarship," and will be awarded to the female medical student of the Calcutta Medical College who stands first at the end of the first year's examination. The scholarship to be tenable for two years whether the successful candidate completes her medical study in India or Europe. Such scholarship, if earned, is to be awarded every year, so that after the first year there will be two scholarships of the same value.

4. Should the above scholarships be not earned in any year, it shall be awarded in the next year as an additional scholarship in the particular branch of the endowment in which it is not earned, subject to the terms hereinbefore contained regarding such scholarship being fulfilled, and provided that in the case of the scholarship referred to in clause (3) the additional scholarship will be awarded to the female medical student of the Calcutta Medical College who stands second at the end of the first year's examination.

5. The person appointed under section 5 (1) of Act VI of 1890 to administer the trust shall be the Principal of the Medical College, Calcutta, for the time being.

6. The Principal of the Medical College, Calcutta, as such trustee as aforesaid, shall appropriate and apply the interest from the said Government securities, which shall be paid to him by the Treasurer of Charitable Endowments in the manner hereinbefore provided, and then, if there be any balance, in awarding an additional prize or prizes to the next best or successful candidate or student in order of merit in the respective classes described in clauses (2) and (3) respectively.

7. If at any time hereafter the said scholarships or either of them shall be deemed by the said Principal of the Medical College, Calcutta, to have become in any way unnecessary or inexpedient, the Lieutenant-Governor of Bengal may, with the consent or approval in writing of the administrators to the donor's estate, or their heirs or representatives, if any, whom failing then at the sole discretion of the Lieutenant-Governor appropriate the interest of the said Government securities for any other similar purpose as may be decided upon by the Local Government.

No 1M.P.I.—In exercise of the powers conferred by section 4 (1) of the Indian Electricity Act (III of 1903), the Lieutenant-Governor of Bengal is pleased to grant to the Calcutta Tramways Company, Limited, a license for the supply of energy for electric traction within the area specified in the first annexure to the license.

No. 2M.P.I.—The following license under the Indian Electricity Act (III of 1903), which has been granted to the Calcutta Tramways Company, Limited, under the authority of the notification of the Government of Bengal, No. 1M.P.I., dated the 27th February 1906, is published for information.

A. S. THOMSON,
Offg. Secy. to the Govt. of Bengal.

LICENSE.

LICENSE for purposes of supply of energy for electric traction within the Municipality of Howrah granted by the Government of Bengal under the Indian Electricity Act, 1903, to the Calcutta Tramways Company, Limited, incorporated under the English Companies Act, and having its Registered Office at No. 1 Queen Victoria Street, in the City of London, and a local office and accredited agents at No. 1 Corporation Street, Calcutta.

I. This license may be cited as the Calcutta Tramways (Howrah) Electric Traction License, 1906.

II. (*i*) The provisions contained in the schedule to the Indian Electricity Act, 1903, are deemed to be incorporated in this license except the provisions contained in clauses VI to XIII, inclusive, which do not apply to this undertaking.

(*ii*) This license shall be read and construed subject in all respects to the provisions of the said Act so far as the same are applicable to the supply of energy hereby licensed, and the several words and expressions defined thereby shall have in this license the same respective meanings as in the said Act.

(*iii*) The expression "deposited map" shall mean the plan of the area of supply deposited by the licensee with, and signed by, the Secretary to the Government of Bengal in the Public Works Department.

(*iv*) The expression "Licensee" shall mean the Calcutta Tramways Company, Limited, and its permitted assigns.

III. *Area of supply.*—The area of supply is the area described in the first annexure to to this license and more particularly delineated on the deposited map and thereon coloured red.

IV. *Commencement of license.*—This license shall come into force and have effect upon the day when a notification confirming it is published in the *Calcutta Gazette*, and that day shall, for the purpose of the said Act, be deemed to be the commencement of this license.

V. *Terms of purchase.*—The option of purchasing the undertaking accorded to the local authority and the Local Government by section 7 (*i*) and (*ii*) of the said Act shall be exercisable on the 1st day of January 1931 and at the end of every subsequent period of seven

years after the 1st day of January 1931 during the subsistence of this license and the terms of such purchase shall be as follows :—

The local authority or the Local Government shall have the right of purchasing the tramways with the plant, machinery, land, buildings, rolling stock, stores and things used in connection therewith belonging to the licensee and its undertaking within the Municipal area of Howrah on the 1st day of January 1931 upon the purchaser declaring its intention so to purchase the same in writing not less than twelve calendar months before the said date and the local authority or the Local Government shall have a renewed right of purchase at the end of every seven years after the 1st day of January 1931 upon similar notice being given. The consideration for such purchase shall be a cash payment of 25 times the difference between the average gross annual receipts and the working expenses of the licensee in respect of the said tramways which said working expenses shall *inter alia* include track rent and the upkeep and maintenance of the said tramways, plant, machinery, buildings and rolling stock. The average of the gross annual receipts and the working expenses for the purposes of such purchase shall be determined by taking the average of the seven years immediately preceding the date of such purchase. Upon the expiry of the said notice the licensee shall make over to the purchaser the said tramways, plant, machinery, land, buildings, rolling stock, stores and things connected therewith within the Municipality of Howrah. If the payment by the purchaser of the consideration for such purchase shall be delayed beyond the period of thirty days from the date of the purchase the purchaser shall pay to the licensee interest on the amount of such considera ion or such part thereof as shall be then unpaid at the rate of 5 per cent. per annum from the date of purchase until payment, but in no event shall the said consideration be allowed to remain unpaid for more than six months from the date of the purchase.

The Company will prior to the date of the expiration of any notice to be given by the local authority or the Local Government under and pursuant to the last preceding paragraph well and sufficiently repair to the satisfaction of the purchaser such of the said tramways and of the said plant, machinery, buildings, rolling stock and other things or such portions thereof respectively as shall then be in need of repair and will place or restore the same in or to a good and serviceable order and condition and will so make over the same to the purchaser. If default shall be made by the Company in complying with the provisions of this clause the purchaser shall for such default and to the extent thereof be entitled to a deduction from the consideration for the purchase of the said tramways plant, machinery, land, buildings, rolling stock, stores and other property of the Company mentioned in the last preceding paragraph, the fact of such default and the amount of such deduction to be determined by the arbitration of two indifferent persons—one to be appointed by the licensee and the other by the purchaser, or an umpire to be appointed by the arbitrators before entering on the business of the reference, and the decision or award of the said arbitrators or umpire as the case may be, shall be final and binding on the licensee and the purchaser, and these presents shall be deemed to be a submission to arbitration within the meaning of the Indian Arbitration Act, 1899, or any statutory modification or enactment thereof for the time being in force, the provisions whereof shall apply as far as applicable.

VI. *General description of works and system of supply.*

(*a*) This license is given for the purposes of the supply of energy for electric traction only.

(*b*) *System of distribution.*—Three-phase current at a pressure of 6,600 volts to be transmitted at a frequency of 25 cycles per second from the power station of the licensee located on the Lower Circular Road, Calcutta, to a sub-station located in Howrah, by means of special duplicate 3-core high tension cables laid underground. In the sub-station the high tension alternating current will be transformed to continuous current at a pressure of 550 volts by means of static transformers and rotary convertors. This continuous current will be distributed to various points along the system by means of underground cables where they will feed into the overhead trolley wires from which the Motor Cars will derive the necessary current

(*c*) Both the high tension transmission mains and the low tension distributing mains will be laid in earthenware troughings filled with pitch, and in the case of the former, a separate trough will be provided for each Duplicate high tension submarine cables will be laid under the Hooghly River to join the Calcutta mains with those of Howrah.

It is proposed to instal the overhead Trolley system, using steel poles for the support of the trolley wires, of which there will be two, one for each track. The size of the trolley wires will be 3/0 S. W. G. The overhead trolley line will be divided into half-mile sections, conforming to Government rules, and will be doubly insulated throughout.

VII. *Power to break up Streets, Railways, Tramways and Bridges, etc.*—In pursuance of the provisions of section 12, sub-section (4) of the said Act, the Licensee is hereby specially authorised to open and break up the railways mentioned in the second annexure hereto, so far only as concerns level-crossings and parts of the railway running along the highway on the level, and the streets, roads, drains or sewers which are mentioned in the third annexure to the license.

VIII. For the purpose of conveying and transmitting energy to the area of supply, the Licensee may lay down mains from a generating station in Calcutta throughout or along such streets or parts of streets without the area of supply as the Local Government may, by order in writing, direct to and up to the point on the boundary of the area of supply, which is

delineated on the deposited map and thereon indicated by the letter "M," and the Licensee shall and may for the purposes of this clause have and exercise in respect of such streets or parts of streets as aforesaid all and every the powers conferred by the Act, subject to the restrictions or limitations in the exercise thereof therein also contained.

IX. *Compulsory works.*—Without prejudice to the further powers herein contained, the Licensee shall, within three years after the commencement of the license, lay down such suitable and sufficient mains or conductors in the streets and parts of streets mentioned in the third annexure to this License as may be necessary for the distribution of energy for traction. This period shall, however, be extended as may be necessary in case the work in connection with the suitable laying or erection of such mains or conductors is interfered with by reason of any delay on the part of the Municipal Commissioners of Howrah in acquiring the necessary land and in completing the necessary road widening or other works in connection therewith.

X. *Deposit.*—The sum to be deposited by the Licensee in pursuance of clause I of the schedule to the said Act shall be a sum equal to 10 per cent. of the probable outlay to be incurred by the licensee but not exceeding Rs 20,000.

XI. *Scale of Plans.*—Where any plan is required by or under the Act with respect to this License or the work to be carried out thereunder, the plan shall be on the largest scale available for the district, except with the written consent of the Local Government. Sections will be drawn to any horizontal scale as the Local Government may direct.

XII. *Price of License.*—Copies of this License may be obtained from the Licensee at No. 1, Corporation Street, Calcutta, at a cost not exceeding one rupee per copy.

A. PEDLER,
Director of Public Instruction, Bengal.

RULES FOR GRANTS-IN-AID TO SCHOOLS IN BENGAL FOR INDIAN PUPILS (SANCTIONED IN BENGAL GOVERNMENT ORDER No. 1413 T.—G., DATED THE $\frac{\text{20TH JULY}}{\text{2ND AUGUST}}$ 1905).

1. An allotment from Provincial revenues is assigned annually by Government to be expended in grants-in-aid to schools not under Government management, provided they fulfil the conditions prescribed in the following rules and are conducted in accordance with the general rules laid down by the Department.

2. The allotment is distributed by the Director of Public Instruction, on the recommendation of the Divisional Inspectors, to schools which are certified to be eligible under these rules, reference being had to the requirements of each locality, as compared with others, and to the funds available. In determining the amount of the grants, special consideration shall be shown to schools which have a highly-qualified and well-paid staff and which levy fees at comparatively high rates.

Ordinary grants are given in aid of ordinary recurring expenditure.

Special grants are given in aid of non-recurring expenditure of a special character.

Temporary grants are given in certain cases in aid of boarding-houses and hostels in accordance with the principle that such establishments should generally be made self-supporting in so far as recurring expenditure is concerned.

3. Any school to which a grant-in-aid is given, together with all its accounts, books and other records, shall at all times be open to inspection and examination by any officer appointed by the Government for the purpose, and to this end the records and accounts shall be placed in such custody that they shall be always accessible on the visit of any inspecting officer. Such inspection and examination shall have no reference to religious instruction, but only to secular education.

NOTE.—The following books shall be kept by all aided schools:—

(*a*) An admission register.

(*b*) Attendance registers for teachers and scholars, together with a summary of such attendance, and a book for keeping copies of "D" forms for preserving the monthly abstract of attendance.

(*c*) A register showing whether boys attending the school live with parents or recognised guardians or in hostels or messes, and, if in the last, whether such institutions are under proper supervision.

(*d*) A cash-book and a book containing copies of "C" forms for preserving the monthly abstract account and also acquittance-rolls showing the payment of all teachers and all scholarship-holders.

(*e*) A visitors' book.

(*f*) A diary, stoutly bound and containing not less than 200 pages.

(*g*) A book in which all transfer certificates received, and all declarations of guardians on scholars first entering school are duly kept, and a guard-book in which details of all transfer certificates issued from the school and signed by the head-master are kept under the care of the head-master.

(*h*) A book containing the proceedings of the Managing Committee of the school, if any such Committee exists.

(*i*) Service-books of teachers, which shall be kept up to date.

(*j*) A catalogue of library books, and also a book in which the dates of issue and return of such books shall be entered.

(*k*) A correspondence book or file.

(*l*) A conduct register, in which all corporal punishment inflicted upon students shall be recorded.

(*m*) A book showing the results of class examinations and at departmental examinations, as also at the University Entrance or other similar examinations.

The head-master shall, from time to time, make entries in the diary, showing the visits of the Managers and Inspectors, the curricula and progress of the various classes, and other important facts concerning the school or its teachers and students, such as appointments, dates of joining, dismissal or resignation, or absences due to illness of teachers, instructions to staff, serious infringement of discipline, use of school buildings for purposes other than school, etc., which are likely to be required for future reference. Such communications from the Inspector of Schools as he may direct to be inserted in the diary must be copied *verbatim* therein. An entry shall be made at least once a month by the head-master showing the progress of the various classes in their different subjects of study, but no reflections or opinions of a general character are to be entered.

The only persons authorised to make entries in the diary are the head-master, the Inspector, and the Assistant Inspector of Schools in the case of high schools, while in the case of middle schools the Deputy Inspector may also make entries. The diary shall be kept in the custody of the head-master, but shall be open at all times to the inspection of the Managers as well as of inspecting officers. No entry once made may be erased or removed, nor may it be altered otherwise than by a subsequent entry.

At the commencement of each school session, the names of all teachers who are to form part of the school staff for the year, and the distribution of the work among them, shall be entered in the diary and signed by the head-master. Any subsequent change in the staff, or in the distribution of the work, should similarly be recorded.

4. Inspecting officers will interfere as little as possible with the local management of the school, but shall satisfy themselves that the instruction is efficient, and that the conditions on which the grants were made are fulfilled; and aid will be withdrawn from any school in which such conditions are not fulfilled.

5. Grants are given on the principle of strict religious neutrality, and no preference will be shown to any school on the ground that any particular religious doctrines are taught or not taught therein.

6. Grants will be made to such schools only (with the exception of training schools, girls' schools, night schools for adults, and schools for aborigines and low castes) as realize some fee, however small, from all their scholars. Exemption from this rule may be allowed in exceptional cases by the Director of Public Instruction

7. No grant shall be made to a high school unless provision is made for (*a*) instruction in drawing, drill, gymnastics, and, if required, in manual training also; (*b*) employment of graduates and trained teachers; (*c*) employment of teachers who have passed the oral examination in English for teaching all the subjects taught through the medium of English; (*d*) instruction in any subjects which may be required by the local conditions of the place in which the school is situated; and (*e*) spending a portion of the grant on purchase of educational and other appliances for practical teaching of various subjects; nor shall a grant be admissible unless the medium of instruction in classes below the fourth be in accordance with the requirements of the scheme for vernacular education sanctioned in Government Resolution No. 1, dated the 1st January 1901.

8. The managers of any school applying for a grant must appoint a Secretary to conduct their correspondence with the Department, and all their names must be stated.

9. The managers shall be responsible for the due expenditure of the school funds in accordance with the conditions of the grant.

10. In respect of any school for which application is made, full information must be supplied on the following points, on which the grant will depend, and must be given in the shape required in Form A appended to these rules :—

(*a*) The pecuniary resources, permanent and temporary, on which the school depends for support.
(*b*) The proposed monthly expenditure in detail.
(*c*) The average number of pupils under instruction.
(*d*) Class of children attending the school, together with their races and creeds.
(*e*) A rough statement of social position or calling of parents of the pupils.
(*f*) The names and social standing of the persons who will form the Committee of Management, and the classes they represent.
(*g*) The class of school and course of instruction.
(*h*) The number, qualifications, and salaries of the teachers.
(*i*) The fees to be charged in each class.
(*j*) The amount of aid sought.
(*k*) The treasury at which the grant, if sanctioned, is to be payable.
(*l*) The existence of other schools of whatever class within a distance of four miles of the school applying for a grant. In the case of towns like Calcutta, the four-mile limit will not be observed, but in such cases information as to neighbouring schools must be fully given.
(*m*) The nature and size of the school-house and of the rooms contained in it, and also a description of the surroundings of the school. If possible, a rough map of the school and its immediate surroundings should be sent in, showing whether the school has a garden or play-ground and whether there are any arrangements for the residential accommodation of either masters or pupils.
(*n*) The nature of the provision which has been made for the sanitary arrangements of the pupils and teachers, and the sanitation of the school buildings and its compound.

11. An application for a grant shall be made either directly to the Divisional Inspector or to the District Deputy Inspector, who shall forward it, with his remarks, to the Inspector. The Inspector shall consult the District Magistrate, and, if they agree as to the rejection of the application, shall reject it; otherwise it shall be forwarded to the Director of Public Instruction for sanction or orders as the case may be with the opinion of the District Magistrate and his recommendation.

12. Grants shall not exceed in amount the sums to be expended from private sources except in special cases, under special orders of Government. Municipal contributions will be reckoned for this purpose as receipts from public sources.

13. Aided schools are divided into the following classes :—

High Schools—In which the pupils are educated up to the standard of the Entrance Examination of the Calcutta University or up to the standard of the "B" and "C" classes, or to similar standards.

Middle Schools—In which the pupils are educated up to the Middle Scholarship standard.

Primary Schools—In which the pupils are educated up to the Upper or Lower Primary Scholarship standard.

Girls' Schools—Including agencies for *zanana* instructions.

Training Schools—For the training of masters and mistresses.

Special Schools—For instruction in special subjects or for special classes of pupils, such as music schools, schools for the deaf and dumb and for the blind.

14. Grants are of two kinds—Annual grants and special grants.

Annual Grants.

15. For high schools the grants shall not exceed one-half of the income guaranteed from private sources, except in the districts of—

Birbhum,
Dinajpur,
Rangpur,
Bogra,
Darjeeling,
Jalpaiguri,
Mymensingh,
The island of Dakhin Shahbazpur in Backergunge,
Chittagong,
Tippera,
Noakhali,
The Patna Division,
The Bhagalpur Division,
The Orissa Division,
The Chota Nagpur Division, and the thanas of Khatra, Raipur and Simlapal in Bankura,

in which the grants may equal two-thirds of the income so guaranteed.

16. For middle schools, in which the expenditure is more than Rs. 40 a month, the grants shall not exceed two-thirds of the income guaranteed from private sources, except in the places mentioned above, in which the grants may equal the income so guaranteed.

17. For primary schools, and for middle schools in which the expenditure does not exceed Rs. 40 a month, as well as for girls' schools, training schools and special schools, the grant shall not exceed a sum equal to the full amount of the income guaranteed.

18. The amounts laid down are maximum grants, but it must be understood that the maximum grant will not in all cases, and as a matter of course, be sanctioned.

19 No grant shall be made, or, if made, shall be continued, unless the buildings are well constructed and contain sufficient accommodation for the scholars in attendance. The rooms also must be properly furnished, lighted and ventilated, and the surrounding premises properly drained. (General directions on these points have been issued by the Department.)

20. Grants will be sanctioned ordinarily for a term of three years; but the Inspector may, at any time during its currency, recommend the revision of any grant. Notice of a proposed reduction, or suspension, if considerable, shall be given to the managers, who may, if considered necessary by the Inspector or Director, be allowed an opportunity of stating any objection that they may have.

21. When a grant is sanctioned the managers shall sign an agreement, on stamped paper, to the effect that they will conduct the school in accordance with the conditions of the grant.

22. The sanction of a grant shall be conveyed in the following form:—

Office Memorandum of the Director of Public Instruction.

(1) A grant of Rs. a month is sanctioned from the 190 , for the school at , in the district of , on the following conditions:—

(*a*) That Rs. a month at least be regularly contributed from private sources.

(*b*) That the following scale of expenditure be maintained, subject to any alteration that may be sanctioned by the Inspector:—

	Rs.
Head-master	
Second master	
Third master	
Servants } In case of girls' schools only ...	
Contingencies }	
Total ...	

(2) The grant shall be payable every month.

(3) The monthly bill (in Form B annexed) must be sent to the Inspector for countersignature, and must be accompanied by an account (in Form C) for the month preceding that for which the bill is drawn and by a certificate that all salaries for the previous month have been paid in full.

After countersignature the bill will be paid at the treasury.

[NOTE.—Where the sanctioned scale contains an item for prize or library, separate accounts should be kept and vouchers should be filed of the prize or library fund expenses.]

(4) The monthly bill and the certificate must be signed by the Secretary of the school.

(5) The bill shall be countersigned on the distinct understanding that the salaries and other charges, certified by the Secretary to have been paid, have actually been paid.

(6) Salaries for service in any month shall become due on the first day of the following month.

(7) The appointment and dismissal of every teacher shall be notified to the Department. No appointment shall be confirmed until it has received the sanction of the Department; and the Department shall have the power to enquire into any case of dismissal of a teacher.

(8) The grant shall be liable to be reduced or withdrawn if the payment of any teacher's salary is delayed for more than two months after it has become due.

(9) The grant shall be liable to be reduced or withdrawn if the school is unfavourably

reported on as regards the attendance or proficiency or discipline of the scholars. With the monthly bills for grant-in-aid a statement of the attendance of pupils in all the classes for the previous month shall be submitted in Form D.

(10) The grant shall be liable to be reduced or withdrawn if the managers keep their accounts in a negligent or untrustworthy manner, or if they send up incorrect accounts, or if they fail to transmit punctually the periodical returns required by the Department, or if the Department is otherwise dissatisfied with the management.

(11) The grant shall be liable to be reduced or withdrawn, if the teachers are inefficient or if they are absent from duty otherwise than in accordance with the rules of the Department, or if they keep the school registers in a negligent or untrustworthy manner.

(12) Holidays shall not exceed 65 days in the year, exclusive of Sundays, except under peculiar circumstances and with the sanction of the Inspector.

(13) Free studentships shall not ordinarily exceed 5 per cent. of the total number of pupils on the rolls, exclusive of scholarship-holders. Managers of high schools may, with the sanction of the Inspector, admit an additional number (not exceeding 12) of Muhammadans as free students up to the limit of 8 per cent. of the total number of pupils on the rolls.

(14) The Department shall have power to define the subjects of instruction to be given, and to have a voice in settling the fee-rates, in controlling expenditure, in enforcing discipline, and in regulating attendance.

(15) The Department shall have power to direct the Managers to purchase such articles as furniture, teaching appliances, black-boards, maps, library books, etc.

(16) Every new election to the Committee of Management shall be notified to the Inspector under the signatures of the Secretary and of the member or members elected.

(17) Every change of Secretary shall be notified to the Inspector under the signatures of the new Secretary and the members of the Committee of Management.

(18) All receipts, from whatever sources or for whatever purposes collected, shall be entered in the account book of the school, which shall be open to inspection and examination by any officer appointed by Government for the purpose. All receipts collected by the headmaster should be remitted on the same date, as far as possible, to the Secretary with a challan to be signed by the Secretary after the receipt of the money.

(19) No part of the previous balance of the school shall be spent without the sanction of the Inspector, except for payment of the sanctioned establishment, in order to make up any deficit in the private contributions in any particular month.

(20) The surplus funds of the school shall be placed in the Postal Savings Bank at the end of each quarter, and the savings bank account should be made out in the joint names of the Secretary and one of the members of the Managing Committee, who will be selected for the purpose by the Committee.

(21) No new building shall be constructed for the school until the plan and estimates have been approved by the Inspector.

22. Government may claim a fair share of any balance at the credit of a school at the time of its abolition, as well as of the sale-proceeds of any school-house or furniture towards the erection, enlargement, repairs or purchase of which a grant may have been given by Government.

Special Grants.

23. Grants may be given to managers of schools in aid—

(*a*) of erecting, enlarging or furnishing school buildings;

(*b*) of attaching boarding establishments to high schools;

(*c*) of executing extensive repairs; and

(*d*) in special cases, of paying off debts incurred in erecting or enlarging school buildings.

NOTE.—(1) Expenditure in the purchase of buildings may be treated as expenditure in the erection of buildings.

(2) The sum to be allotted annually for building grants to schools shall be fixed provisionally for a term of years. It shall not, in ordinary circumstances, be reduced, though it may be increased for any year during that term.

(3) Every application for a grant shall be submitted to the Department not later than on the 31st December, if the grant is to be admissible for sanction during the following financial year. If found to be in accordance with the rules, and in other respects deserving of support, it will be included in the list of "approved applications." If not so included, the reasons shall be notified to the managers.

(4) The total sum allotted for the year will be divided between schools for different sections of the community (Europeans, Hindus, Muhammadans, Native Christians, etc.), in some proportion to the requirements of each community, as indicated by the amount of the "approved applications" received from each, regard being also paid to preferential claims as explained in note (5).

Grants not required by one section of the community may, towards the close of the year, be reappropriated to meet the wants of another section.

(5) In selecting "approved applications" for sanction, those projects that involve the education or boarding of an increased number of pupils shall ordinarily be preferred to those that merely seek to improve the accommodation of existing pupils.

(6) In the case of an application for a repair grant under rule (*c*), the managers will be required to show that the necessity for such a grant has not arisen from the neglect of current repairs in previous years.

24. Except in the case provided in the foregoing rule, no grant shall be made in consideration of previous expenditure on school buildings.

25. In general, the proportion of the Government contribution made under rule 23 shall not exceed the proportion laid down in rules 15 to 18 for a school of the same class.

NOTE.—The sum of Rs. 10,000 is fixed as ordinarily the maximum grant for any undertaking or project.

26. Before a building grant is sanctioned, the site, plans, estimates, specifications, title and draft trust-deeds must be approved by the Director of Public Instruction. If the school receives no monthly grant, the managers must also satisfy the Department that it is likely to be maintained in efficiency and that it will be open to inspection.

27. The trust-deed must declare the building to be granted in trust for school purposes only. It must also provide for the legal ownership of the premises, for the proper maintenance of the building, and for the inspection and management of the school.

NOTE.—(1) This rule does not preclude the managers from using the building for other purposes, subject, if necessary, to the sanction of the Department, when not required for the purposes of the school.

(2) When the grant does not exceed Rs. 1,000, the manager may execute a deed of acceptance in place of a trust-deed (*vide* Government order No. 584, dated the 13th November 1890).

28. No grant will be finally sanctioned until a certificate is received from the managers, setting forth that the funds in their hands will, when added to the grant, be sufficient to meet all claims and to close the account.

29. Advances may be made from time to time out of the sanctioned grant on receipt of a report from the Public Works Department that the work is proceeding satisfactorily.

30. No grant will be paid in full until—

(1) a report is received from the Public Works Department or other competent authority that the building is satisfactorily completed, and

(2) the trust-deed is duly registered and lodged with the Department.

NOTE.—"Title-deeds of property mortgaged to Government on account of building grants may, as hitherto, remain with the mortgagor" (*vide* Government order No. 44T.—G., dated the 16th June 1890).

THE ELLIOTT PRIZE FOR SCIENTIFIC RESEARCH FOR 1906.

WITH reference to Notification No. 5058-F., in the *Calcutta Gazette* of the 28th December 1892, Part I, page 1172, the Elliott Prize for Scientific Research will be given this year to the author of the best original essay composed during the year 1906, giving the results of original research or investigation by the essayist in Natural Science.

2. Any native of Bengal, including any Eurasian or domiciled European residing in Bengal, may compete for the prize.

3. The essays of competitors *must be* sent to the President of the Asiatic Society of Bengal, 57, Park Street, Calcutta, by the end of December 1906. The prize will be adjudged to the best competitor, and awarded publicly at the Annual General Meeting of the Asiatic Society in February 1907.

4. Preference will be given to researches leading to discoveries likely to develop the industrial resources of Bengal. In the case of no essay being deemed by the Trustees to be of sufficient merit, no prize is to be awarded, but the amount is to be retained, so that in any future year two or more prizes may be given, or the prize may be enhanced in the case of an exceptionally good essay.

A. H. L. FRASER,
President of the Asiatic Society of Bengal

ALEX. PEDLER,

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 820M.—The 22rd February 1906.—Under the provisions of section 308 of the Bengal Municipal Act, III of 1884, the following plan, which has been submitted by the Commissioners of the Cossipore-Chitpur Municipality for lighting with gas the following roads in the said Municipality and 100 feet from their edges, is published for general information—

24-Parganas.

(1) The whole of the Cossipore Road, commencing from the Bagbazar Canal Bridge and ending in Baranagar Bazar situate within the Municipality.

(2) The portion of the Barrackpore Trunk Road from the Talla Canal Bridge to its junction with the Gun Foundry Road.

2. An agreement has been entered into between the Commissioners of the Cossipore-Chitpur Municipality and the Oriental Gas Company for the supply and lighting of lamps at the rate of Rs. 63-1 per lamp per year. The expenditure for lighting 98 lamps in the above roads is estimated at Rs. 6,180, including charges for repair of lamps according to the existing arrangements with the Oriental Gas Company.

3. The Municipal Commissioners propose to meet the charge to be incurred on account of lighting the aforesaid areas by imposing a lighting rate of 3 per cent. on the annual value of holdings situated in the areas referred to. The income to be realized from the lighting-tax in the aforesaid areas is estimated at Rs 5,716 a year.

No. 847M.—The 23rd February 1906.—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor is pleased to appoint Revd. W. Stanber to be the Chairman of the Lohardaga Municipality, in the district of Ranchi, *vice* Revd. G. Beemann, resigned.

Ranchi.

No. 844M.—The 23rd February 1906.—It is hereby notified for general information that under section 82 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor intends to make the following additions and alterations in the Rules in Appendix A of the rules framed under the above section of the Act for keeping the accounts of municipalities and for the audit of such accounts and which were published under Notification No. 5472M., dated the 13th December 1897 at pages 297 to 358 of the *Calcutta Gazette* of the 15th idem.

These rules will be taken into consideration with a view to their final adoption on the 1st May 1906, when any objection or suggestion which may be made by any person and received before that date will be considered.

In Rule 28, line 1, *substitute* "two" *for* "three."

In Rule 30, line 3, *after* the words "100 forms" *insert* the sentence—

"Each bill book should have stitched to it at the commencement, a memorandum in Form F(*a*)."

36. The bill shall be filled up from the Demand Register, Form A (or columns 1 to 5, Form B). Before the bills are brought to be signed they should be compared with the Demand Register by some responsible officer, who shall record a certificate in the fly-leaf of each book as follows :—"I hereby certify that I have examined this bill book and have ascertained the correctness of the numbering and correspondence of the sums and names in the bills and receipts and this memorandum with the Demand Register, and I certify that the number of forms in this book for the rate for the quarter of amounts to (in words)." This certificate may be printed on the memorandum at the commencement of the bill books.

42. The Tax-daroga shall commence the service of the bills on the first day of the quarter by making over to each of the sarkars one or more books of his circle for delivery to the rate-payers. If the tax be paid upon presentation of the bills, the sarkar shall sign the red receipt which he shall deliver to the tax-payer, and shall note the date of payment in the memorandum at the commencement of the bill book, and enter details of each paid bill in the Daily Register of Collection, Form I.

43. If the tax be not paid on presentation of the bill, the sarkar shall (if duplicate bills be used) separate the bill from the receipt and serve the bill in manner prescribed in section 356 of the Act. He shall at the same time, whenever possible, mention the date when he will again demand payment. The date of service shall be noted in the memorandum at the commencement of the bill book. The receipt shall not be detached from the book except on payment or remission in full of the demand, and it shall be the duty of the Tax-daroga to bring to the notice of the Vice-Chairman any instance in which he may detect an infringement of the rule.

44. The sarkar shall return to the Municipal office either every day, or if so permitted by the Vice-Chairman, every alternate day, and shall deliver to the Tax-daroga all the money he has collected, together with the Daily Register, Form I, and the bill books in his possession.

The Tax-daroga or his assistant shall check the account by comparing the credits with the amounts in the memorandum and initial and date each entry in the latter. He will then work out in the memorandum the number of unrealised bills and verify it by actually counting the number still remaining in the bill book and initial the entries concerned in the bill book. He shall then total the Register and see that it corresponds with the money given to him by the sarkar; and if all is in order, he shall initial the account in token of having received the money. If the service of the bills in the book or books in the possession of the sarkar has been completed, he shall return them to the Tax-daroga, and take away a fresh batch for service.

45. As soon as a bill book has been completely written up and compared, its particulars should be entered in the first three columns of the transit register and then submitted with it to the officer authorised to stamp his facsimile signature upon the bills. After this has been done, he will initial the entry in column 4 to ensure that all bill books stamped by him have been entered in the transit register and to guard against duplicate sets of bill books being stamped with his signature. The initials of the sarkars should always be obtained in the register against the entry for the book concerned at the time it is issued to him. Similarly, when a book is returned and is not issued again the same day, the number of uncollected bills in it should be counted and entered in the register, the entry being initialled by the Tax-daroga in the presence of the sarkar returning the bill."

Hazaribagh.

No. 858L.S.-G. —The 24th February 1906.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor is pleased to re-appoint the Deputy Commissioner of Hazaribagh to be the Chairman of the District Board of Hazaribagh.

No. 929M., dated the 27th February 1906.—Whereas an application for the purpose of constructing an electric tramway within the Municipality of Howrah has been made to the Lieutenant-Governor of Bengal by the Calcutta Tramways Company, Limited, hereinafter called "The Promoters," with the approval of the Municipal Commissioners of Howrah given at a special meeting convened for the purpose agreeably to the provisions of section 3, Bengal Act III of 1883; and whereas in accordance with section 4 of the said Act the plans and drawings of the proposed works, together with an estimate and the provisional agreement hereinafter published made between the promoters and the local authority have been submitted to Government; and whereas no objections to such application have been filed within the time appointed; and whereas it appears to the Lieutenant-Governor after due enquiry, to be expedient and proper to grant the said application; the Lieutenant Governor, under the authority vested in him by section 5 of the said Act, is pleased to make the following order :—

L. P. SHIRRES,
Secy. to the Govt. of Bengal.

ORDER.

1. This Order may be cited as the Calcutta Tramways (Howrah) Order 1905.

2. The Tramway authorized under this Order shall be subject to all the provisions of the Bengal Tramways Act, 1883, and the Calcutta Tramways Company, Limited, who

and their Assigns are hereinafter called "The Promotors," shall in addition to the powers and authorities herein contained, have all the powers and authorities conferred by the said Act.

3. The Promoters and their Assigns are hereby authorized to construct, maintain and work, subject to the provisions of this Order, and in accordance with plans and sections deposited with the Local Government, a Tramway with double lines on the following routes, and between such other places and by such other routes as may hereafter be approved by the Municipal Commissioners of Howarh and sanctioned by the Local Government:—

Route A.—Starting from Grierson Road (Hooghly Floating Bridge) *viâ* Dobson Road, Golabaree Road, Grand Trunk Road and Hurrogunge Road, to a terminus at the Southern end of the Ghoosery Road.

Route B.—Starting from Grierson Road (Hooghly Floating Bridge) *viâ* Dobson Road, Golabaree Road, East, and Howrah Road to the Southern end of the Ghoosery Road.

Route C.— Starting from Grierson Road (Hooghly Floating Bridge) *viâ* Buckland Bridge Road, Maidan Road and Grand Trunk Road to a terminus at Kaurapara Ghât Road.

Route D.—Starting from Kaurapara Ghât Road along Grand Trunk Road joining Route "A" to Golabaree Road, and proceeding, if necessary, along Hurrogunge Road, to the terminus of Route "A."

4. The Promoters have entered into an Agreement with the Local Authority as to the terms on which the said authority will permit such Tramway within their Municipal limits, which Agreement is hereby confirmed subject to the modification that the Promoters, should have 12 months' notice of the intention of the Commissioners to purchase the Tramway in lieu of six months as provided for in Article 7 thereof and a copy of which is set out in the Schedule hereto.

5. The Local Authority shall have power to purchase such Tramway with the plant, machinery, land, buildings rolling-stock, stores and all other things used in connection therewith belonging to the Promoters and their undertaking within the area of the Municipality at the time or times and upon the terms and conditions laid down and contained in Articles 4 and 7 of the agreements entered into between the Chairman of the Municipal Commissioners of Howrah and the Promoters dated the 9th day of May 1905.

6. The Tramway shall be completed and opened for traffic in the case of the Routes "A," "B" and "C" abovementioned within two years from the date when the whole of the roadways over which the said routes respectively run widened in accordance with the provisions of the said agreement dated the 9th day of May 1905, have been made over by the Local Authority to the Promoters with full liberty, right, and sanction to the Promoters to lay their lines and construct their Tramway thereon or from the date when the Promoters shall have obtained the necessary License from the Government of Bengal for the supply of energy under the Indian Electricity Act, 1903, whichever shall be the later date.

7. Such land as may be required by the Promoters as necessary for the purposes of the Tramway shall, on the application of the Promoters, be acquired by the Local Government on behalf of the Promoters under the Land Acquisition Act, 1894, and the cost of acquiring such land shall be met by the Promoters; such land when no longer required by the Promoters for the purposes of such Tramway may be disposed of by them as and when they think fit.

8. The Tramway shall be constructed to a gauge of 4 feet 8½ inches. The rails will be of the grooved girder type weighing 101 lbs. per yard, and in general shall be laid on a concrete stringer foundation and held to gauge by means of tie-bars spaced according to standard practice. The Promoters may from time to time with the approval of the Local Government adopt any such improvements in the rails, in their situation and in the sub-structure upon which they rest as they may deem necessary for the proper working of the said Tramway.

9. The Promoters shall at all times maintain and keep in good condition and repair to the satisfaction of the Local Government, and so as not to be any danger to the ordinary traffic, the rails and overhead wires and appliances and the sub-structure of the Tramway.

10. The Promoters may stack material excavated, road metal and other materials used in the construction or maintenance of the Tramway on the side of the road occupied by the Tramway, but the same shall be stacked in such a manner as not to impede the traffic on the road, and the Promoters may use, when necessary for the purposes of such repairs of the roads and streets as they are liable for, the materials excavated during the course of construction and maintenance of the said Tramway. The Promoters shall with the consent of the Local Authority cut down or lop any tree alongside of the road which will interfere with the operation of the cars or be a source of danger to the Tramway traffic.

11. Subject to the approval of the Local Government the Promoters may from time to time hereafter make all such crossings, passing places, sidings, junctions or other works in addition to those particularly specified in and authorised by this Order as may from time to time be necessary or convenient for the efficient working of the Tramway, or for providing access to any building or work of the Promoters.

12. The motive power of the said Tramway shall be electrical energy conveyed by means of overhead trolley wires. The rails will be used as return conductors, and for this purpose will be adequately provided at the joints with copper bonds to ensure a complete circuit.

13. The rates to be charged shall not exceed 2 annas per mile for 1st class and 1 anna per mile for 2nd class passengers.

THE SCHEDULE ABOVE REFERRED TO.

ARTICLES OF AGREEMENT made this 9th day of May 1905 between the Chairman of the Municipal Commissioners of Howrah (hereinafter called "the Commissioners") of the one part and the CALCUTTA TRAMWAYS COMPANY, LIMITED, a Company incorporated under the English Companies Acts and having its Registered Office at 1, Queen Victoria Street, in the City of London (hereinafter called "the Company") of the other part, WHEREAS the Company are desirous of constructing, maintaining and working tramways within the Municipality of Howrah along the following routes:—

Route A.—Starting from Grierson Road (Hooghly Floating Bridge) *vid* Dobson Road, Golabaree Road, Grand Trunk Road and Hurrogunge Road to a terminus at the Southern end of the Ghoosery Road.

Route B.—Starting from Grierson Road (Hooghly Floating Bridge) *vid* Dobson Road, Golabaree Road, East, and Howrah Road to the Southern end of the Ghoosery Road.

Route C.—Starting from Grierson Road (Hooghly Floating Bridge) *vid* Buckland Bridge Road, Maidan Road and Grand Trunk Road to a terminus at Kaurapara Ghât Road.

Route D.—Starting from Kaurapara Ghât Road along Grand Trunk Road, joining Route "A" at Golabaree Road, and proceeding, if necessary, along Hurrogunge Road to the terminus of Route A.

AND WHEREAS the Company are about to apply to the Local Government under the Bengal Tramways Act, 1883, as amended by Act I of 1904, for an order authorising the construction of such Tramways, NOW THESE PRESENTS WITNESS, and it is hereby agreed as follows:—

1. The Company shall forthwith apply to the Local Government for an order under the Bengal Tramways Act, 1883, authorising the Company to construct, maintain and work a tramway with double lines to be worked by electric traction by means of overhead wires along each of the said routes, and the Company shall use its best endeavours to obtain such orders.

2. The gauge of such Tramways shall be 4 feet 8½ inches.

3. The Commissioners shall forthwith apply to the Local Government for the loan of such a sum of money as shall be sufficient to cover all expenses of and incidental to the acquisition of the land required for the widening of the roads on which the said Tramways are under the provisions of this agreement to be laid and of and incidental to the widening of such roads so that such roads when so widened shall not be more than 40 feet nor less than 32 feet in width and shall immediately upon such loan having been granted and the money so lent becoming available take steps to acquire the land so required for the purpose of widening the roads as aforesaid and shall commence and complete with all due expedition and diligence the work of and in connection with such widening PROVIDED that in the event of the money to be so advanced by the Local Government being sufficient to permit of the said roads being widened to a greater extent than 32 feet then the roads shall be widened to such extent beyond 32 feet as the said monies shall permit, it being the intention of the parties that all monies to be so advanced by the Local Government shall be expended on the widening of the said roads and the acquisition of the lands necessary for such a purpose, and that in no event shall the width be less than 32 or more than 40 feet.

4*. The Company will during the period of four years from the ninth day of May one thousand nine hundred and five pay interest at the rate of four per cent. per annum on one-half of the amount of any loan advanced to the Commissioners by the Government pursuant to any application made under the provisions of clause 3 hereof but the amount on which the Company shall be required to pay interest shall not in any case exceed one half of rupees two hundred and fifty-thousand. During the said period of four years the Commissioners shall sell the surplus of all lands which may have been acquired by them for such widenings as are referred to in clause 3 hereof. If the aggregate net proceeds of sale of all such surplus land shall exceed the aggregate expenditure incurred by the Commissioners in or about the acquisition of all lands which may have been acquired by them in pursuance of clause 3 the Commissioners shall out of such excess sale-proceeds repay to the Company the amount of all interest paid by the Company under this clause the repayment of which interest shall be a first charge on such excess sale proceeds and the balance (if any) of such excess sale proceeds shall be divided equally between the Commissioners and the Company. If however the aggregate net proceeds of sale of all such surplus land shall be less than the aggregate expenditure incurred by the Commissioners in or about such acquisition as aforesaid then the Company shall pay to the Commissioners one-half of the difference between the said net sale proceeds and the said expenditure provided that the

*As revised under Agreement dated the 23rd November 1905.

Company shall not be liable to pay under this stipulation a larger sum than rupees one-hundred and twenty-five thousand.

5. The Company shall commence the construction of the Tramways along the Routes "A" and "B" so soon as the Commissioners shall have completed the road widenings necessary along the whole of those routes and shall commence the construction of the Tramway along the Route "C" so soon as the Commissioners shall have completed the road widenings necessary along the whole of such route and so soon as the Buckland Bridge Road shall have been reconstructed so as to be fit to carry the Tramway to be laid thereon. The Company may postpone the construction of the Tramway along the Route "D."

6. The Company shall pay to the Commissioners an annual track rent from the dates or times hereinafter mentioned at the rate of Rs. 1,500 per mile of double line of track completed and open for traffic. Such rent shall be payable by equal half-yearly instalments and shall form a first charge on the undertaking to be authorised by the said order. The Commissioners shall allow to be deducted from such rent all Municipal rates and taxes from time to time levied upon or in respect of the Company's tramways in Howrah and the rolling-stock used therefor, but not the rates and taxes on the Company's depôts and buildings or any other property and effects. Such track rent as aforesaid shall become payable from the following dates or times that is to say :—

In the case of the Routes A, B, and C respectively on the expiration of two years and in the case of Route D on the expiration of three years (*a*) from the date when the whole of the roadways forming the said routes respectively, widened in accordance with the provisions of this agreement, have been made over by the Commissioners to the Company with full liberty, right and sanction to the Company to construct the said Tramways thereon or (*b*) from the date when the Company shall have obtained the necessary license from the Government of Bengal for the supply of electrical energy under the Indian Electricity Act of 1903, whichever shall be the later date. Such rent shall continue to be payable until the exercise by the Commissioners of their right of purchase hereinafter recorded.

7. The Commissioners shall have the right of purchasing the said Tramways with the plant, machinery, land, buildings, rolling-stock, stores and things used in connection therewith belonging to the Company and its undertaking within the Municipality on the 1st day of January, 1931, upon declaring their intention so to purchase the same in writing not less than 6 calendar months before the said date and the Commissioners shall have a renewed right of purchase at the end of every seven years after the 1st January 1931 upon similar notice being given. The consideration for such purchase shall be a cash payment of 25 times the difference between the average gross annual receipts and the working expenses of the Company in respect of the said Tramways which said working expenses shall *inter alia* include track rent and the up-keep and maintenance of the said Tramways plant, machinery, buildings and rolling-stock. The average of the gross annual receipts and the working expenses for the purposes of such purchase shall be determined by taking the average of the seven years immediately preceding the date of such purchase. Upon the expiry of the said notice the Company shall make over to the Commissioners the said Tramways plant, machinery, land, buildings, rolling-stock, stores and things connected therewith within the Municipality. If the payment by the Commissioners of the consideration for such purchase shall be delayed beyond the period of 30 days from the date of the purchase the Commissioners shall pay to the Company interest on the amount of such consideration or such part thereof as shall be then unpaid at the rate of 5 per cent. per annum from the date of the purchase until payment, but in no event shall the said consideration be allowed to remain unpaid for more than six months from the date of the purchase.

8. The Company will prior to the date of the expiration of any notice to be given by the Commissioners under and pursuant to the last preceding clause well and sufficiently repair to the satisfaction of the Commissioners' Engineer such of the said Tramways and of the said plant, machinery, buildings, rolling-stock and other things or such portions thereof respectively as shall then be in need of repair and will place or restore the same in or to a good and serviceable order and condition and will so make over the same to the Commissioners. If default shall be made by the Company in complying with the provisions of this clause the Commissioners shall for such default and to the extent thereof be entitled to a deduction from the consideration for the purchase of the said Tramways plant, machinery, land, buildings, rolling-stock, stores and other property of the Company mentioned in the last preceding clause the fact of such default and the amount of such deduction to be determined by arbitration in the manner provided in the 11th clause of these presents.

9. The Commissioners hereby consent to the Company's application for the said order referred to in clause I hereof and shall by themselves or their officers do all such acts and things as the Company may reasonably require to enable the Company to obtain such order.

10. The Commissioners hereby so far as they lawfully can grant to the Company during the continuance of this agreement the exclusive right of constructing, maintaining and working all Tramways in Howrah other than those now already constructed or in use, and the Commissioners will not consent to or assist any application by any other persons or Company, nor themselves apply for authority to construct any other Tramways, PROVIDED ALWAYS that if the Commissioners shall give the Company notice in writing to apply for an

order authorising the Company to construct such additional Tramways as may be specified in such notice and the Company shall during a period of 12 months from the receipt of such notice neglect to apply for such order the provisions of this clause shall not apply to the Tramways specified in such notice or such of them as the Company shall not include in any application for such order to be made by them pursuant to such notice.

11. If any difference, dispute or question shall arise between the Company and the Commissioners or their respective successors or assigns touching the construction, meaning or effects of these presents or any clause or thing herein contained or the rights or liabilities of the Company or the Commissioners or their respective successors or assigns under these presents or otherwise howsoever in relation to the premises, then every such difference, dispute or question shall be referred to the arbitration of two indifferent persons, one to be appointed by each party to the reference or an umpire to be appointed by the arbitrators before entering on the business of the reference, and the decision or award of the said arbitrators or umpire as the case may be shall be final and binding on the Company, and the Commissioners and their respective ssuccessors and assigns AND these presents shall be deemed to be a submission to arbitration within the meaning of the Indian Arbitration Act, 1899, or any statutory modification or enactment thereof for the time being in force the provisions whereof shall apply as far as applicable.

As witness the Common Seal of the Commissioners and the hand of the Chairman and a Commissioner and hand of the Company the day and year first above written.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Khulna, will be put up to sale at the Khulna Collectorate on the 24th March 1906, corresponding with 10th Chaitra 1312 B.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estates to be sold to the highest bidders above the upset price which will be fixed by the Collector at the time of sale. The purchaser or purchasers will be considered as proprietor or proprietors of the estates, and the entire proprietary rights of Government in such estates will be transferred to him or them subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to the existing leases and to the rights conferred by the settlement proceedings and by the law in force, and the purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estates to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisements, as in the case of original sale.

Revised Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Hajipur Branch Railway, in the district of Muzaffarpur, will be put up to sale at 1 o'clock on Monday, the 29th March 1906, corresponding with the 2nd Chait 1313 Fusli, at Muzaffarpur.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway boundary, or to plough the land nearer than 3 feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

GANGA GOVINDA GUPTA, for Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on the 7th March 1906, corresponding to 18th Chaitra 1312 (B.S.).

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them with effect from 1st April 1906 as revenue free or subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the estate will be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

LEGISLATIVE DEPT.,
BOOK DEPÔT BRANCH,
The 9th January 1906.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

APPENDIX TO

The Calcutta Gazette,

WEDNESDAY, FEBRUARY 28, 1906.

NOTICES TO MARINERS.

THE following Notices are published for general information.

W. A. INGLIS,
Secretary, Marine Department.

CALCUTTA, *the 27th February 1906.*

INDIA, WEST—BOMBAY COAST.

Port of Agvada—Light to be fixed.

No. 72 (first publication).—The Bombay Government has given notice (No. 16 of 1906) that information, dated 22nd January 1906, has been received from the Captain of the Port, Aguada, through the Consul-General for Portugal in British India, Bombay, that from the 10th February 1906 Aguada light will be fixed until further notice.

This Notice affects the following Admiralty Charts:—No. 827, Vengurla to Cape Comorin; No. 2737, Viziadrug to Cochin; No. 740, Achra river to Cape Ramas; No. 492, Aguada to St. George Islands, including Marmugoa and Goa roadstead, and West Coast of Hindustan Pilot, 4th edition, 1898, page 164; also list of Light-houses and Light-vessels in British India, page 28, No. 257.

ARABIA, NORTH-EAST COAST—PERSIAN GULF.

Rennie Shoal—Depth of water.

No. 73 (first publication).—The Bombay Government has given notice (No. 18 of 1906) that the Commander of the B. I. S. N. Co.'s S.S. *Waroonga* reports that on her recent voyage from Koweit to Bahrein the vessel grounded on the shoal which was reported by H. M. S. *Sphinx* in 1897, bearing S. ¼ W. 2¾ miles from Rennie Shoal and to have a depth of 19 feet.

It appears that there is less water on this shoal than previously reported, as the S.S. *Waroonga* was only drawing 15′ 6″ at the time of her grounding.

This Notice affects the following Admiralty Chart:—Amarube saki to Aodo saki, No. 2174: Also, Sailing Directions for Japan, &c., 1904, page 648.

KOREA, EAST COAST—Sivuch bay.

Rock reported.

No. 59 (third publication).—The British Admiralty has given notice (No. 52 of 1906) that a rock, with a depth of 2¼ fathoms over it, is reported to exist in Sivuch bay, situated in a position from which Mojaiski point bears S. 19° E., distant 11 cables, and the western point of the entrance to the bay S. 23° W.

Approximate position, lat. 41° 58′ N., long. 130° 00¾′ E.

A red buoy has been moored on the rock.

(*Variation 5° Westerly in 1906.*)

This Notice affects the following Admiralty Chart:—Plan of Sivuch bay on Chart No. 1271: Also, Sailing Directions for Japan, &c., 1904, page 151.

CHINA, NORTH—Manchuria, south coast.

Talien hwan—Buoyage of—Light altered.

No. 60 (third publication).—The British Admiralty has given notice (No. 53 of 1906) that the undermentioned buoys have been established in Talien hwan, in the following positions:—

1. A red cylindrical buoy has been moored in a position from which Probyn head ▲ bears N. 51° W., distant 1 1/10 miles, and North Shan tau summit S. 49° W.

   Approximate position, lat. 38° 56′ N., long. 121° 52½′ E.

2. A red conical buoy has been moored in a position from which the western extremity of Ho shang shan bears N. 22° W., distant 6¼ cables, and Haimyo to (Disaster rock) S. 70° W.

   Approximate position, lat. 38° 59½′ N., long. 121° 43½′ E.

3. A buoy has been moored at a distance of three-quarters of a cable S. 21° E. from the eastern end of the breakwater.
4. A buoy has been moored at a distance of six-tenths of a cable N. 40° W. from the western end of the breakwater.

   Approximate position, lat. 38° 56′ N., long. 121° 39¾′ E.

5. A red conical buoy has been moored on the half-fathom patch situated 7 cables N. 61° E. from Bay rock.

With reference to Notice to Mariners No. 1069 of 1905 (See this Office No. 447 of 1905).

6. A red conical buoy has been moored on the 2½-fathom shoal situated at a distance of 9 cables S. 39° W. from Haimyo (Disaster) to.

   Approximate position, lat. 38° 57½′ N., long. 121° 39½′ E.

Also, with reference to Notice to Mariners No. 734 of 1903, (see this Office No. 326 of 1903) that, on 29th November 1905, a *white revolving* light *every fifteen seconds*, of the 4th order, elevated 257 feet above high water, and visible in clear weather from a distance of 18 miles from the bearing of S. 73° W., through west and north, to S. 12° E., would be established on South San shan tau. It is assumed that this light replaces the former white fixed light.

Approximate position, lat. 38° 51½′ N., long. 121° 50½′ E.

* In addition to this area, 540,000 acres are efficiently protected by the flood banks of the Orissa Canals, the total length of which is 223 miles 4,674 feet.

† Inclusive of 1,717 feet of spur embankments Panar river. The length in 1903-1904 was 1,764 feet.

There has been an addition of 5 miles 2,227 feet in the length of the class A embankments in Orissa, mainly due to the restoration to the schedule of certain embankments which had been temporarily removed from it. There has been no alteration in the other classes.

3. *Floods.* During the year the floods in most of the rivers in the Orissa Circle were fairly high. There was a moderately high flood of short duration in the Mahanadi river and its branches. A noticeable feature of the flood was that the gauges along the Bhargovi branch in the Puri district recorded the highest known readings. This was due partly to the closing of the Adlabad breach and also to the occurrence of comparatively few breaches in the

Haldi rose to within 3·23 feet of the maximum for that river. In the Gandak Circle the floods were of an ordinary nature. The Gandak river rose on 24th June to 239·40 at Siswa against 242·40, the highest recorded flood level. The flood in the Ganges as recorded in connection with the Bazitpur embankment was 3·05 higher than that of the previous year, and 3·09 lower than the flood recorded in 1879.

There were heavy floods in most of the rivers in the South-Western Circle and the embankments were damaged to a certain extent. The highest flood of the year in the Cossye and Selye rivers occurred on the 8th and 9th July. It was of moderate height. The flood in the Hooghly river was unusually high. The gauge at Uluberia read 15·80 on 13th August, against a previous maximum of 15·50. The canal terminus was slightly affected and had to be strengthened by stone pitching. There were altogether five floods in the Damodar river between July and September 1904, of which the highest was on the 8th July, when the water at the Edilpur gauge was only 9 inches lower than during the very high flood of 1902. Three floods occurred in the Ajai river, of which the highest was on the 23rd July 1904, being 7 feet 3 inches lower than the highest recorded level of 20 feet 9 inches in 1899. The river protective works were slightly damaged. The Bhagirathi river was also in high flood. On the 26th August the Berhampur gauge stood at 63·75, being 0·98 below the maximum flood level of 1890. The floods in the rivers in the Malda, Purnea, Bogra, Pabna and Bhagalpur districts were of ordinary character and caused no injury to the embankments.

4. *Surveys and investigations.*—In the Orissa Circle an investigation was made in the Puri district, with respect to the utility of the existing sluices in the embankments and to ascertain where additional sluices might with advantage be provided. In the South-Western Circle surveys for retired lines at Magra and Raipur and a survey of the right bank of the Hooghly from Uluberia to Alipore were completed during the year. Surveys of the creek and some of the main channels in connection with the Magra Hât drainage scheme were completed. Surveys were also made of the village sites in the country which is now exposed to flood in consequence of the alterations in the line of embankments at Laltakuri in the Murshidabad district. In the Gandak Circle surveys in connection with three retired lines proposed for the Saran embankment were carried out.

5. *Original works.*—The outlay of the year (without charges for establishment) under this head amounts to Rs. 38,338 distributed over the different classes of embankments as under :—

	1904-1905.	1903-1904.
	Rs.	Rs.
Class A	20 560	17,649
„ B	16,674	25,810
„ C	Nil	Nil
„ D	1,104	Nil
Total ...	38,338	43,459

The more important works are briefly noted.

In the Orissa Circle a paved escape on the left bank of the Bhargovi river was completed and two similar escapes on the Kushbhadra river were commenced. A short length of new embankment on the left bank of the Byturni at Anandpur was completed.

In the South-Western Circle Rs. 3,913 were expended on the remodelling of the Mohanpur-Kharagpur road to serve as a flood bank of the Cossye river near Midnapore. This work was completed during the year at a total cost of Rs. 48,405. Half the cost has been debited to the Bengal-Nagpur Railway. The Inspection bungalow at Edilpur on the Damodar was enlarged at a cost of Rs. 1,631.

A sum of Rs. 8,076 was also expended in the Nadia Rivers Division principally on works in connection with the Kalukhali sluice and the Bhagwangola retired line, the outlay on the latter being Rs. 4,670.

In the Gandak Circle the construction of the drainage sluice in the 6th mile of the Bazitpur embankment was nearly completed. A new sluice was [illegible] 37th mile of the Tirhut embankment at cost of Rs. 1,104 paid

6. *Ordinary repairs.*—The expenditure on repairs (without book charges for establishment and tools and plant) aggregated Rs. 3,96,147, which is distributed under the different classes of embankments as follows:—

	1904-1905.	1903-1904.
	Rs.	Rs.
Class A	26,689	35,437
„ B	2,36,572	2,37,231
„ C	1 27,828	65,106
„ D	5,058	6,057
Total ...	3,96,147	3,43,831

The expenditure during the year on repairs to the Orissa embankments was the smallest of the quinquennial period ending March 1905. The total cost of repairs to those of the schedule D embankments (class B) in the Midnapore district which are in the Orissa Circle was Rs. 36,916, of which Rs. 31,770 were expended on repair and river protective works; Rs. 5,146 on construction of retired lines, and Rs. 3,569 in protecting the Doro embankment near Luff Point from the erosion of the Hooghly river.

In the South-Western Circle the expenditure on ordinary repairs to schedule D and other embankments was Rs. 1,02,629 against Rs. 1,27,382 in the previous year. In the Burdwan and 24-Parganas districts there was a reduction in expenditure of Rs. 31,565, while in the Hooghly, Midnapore and Murshidabad districts the charge for maintenance was Rs. 7,213 in excess of the preceding year.

The heavy expenditure in the Hooghly district was due to special repairs and extension of the rubble stone revetments on the left bank of the Rupnarain river. The excess in the Midnapore district was mainly due to the charges for similar work carried out on the Rupnarain right bank The somewhat heavy expenditure in the Murshidabad district was due to extensive repairs to the Bhagirathi embankment.

On (class C) takavi embankments under contract in the Midnapore, Muzaffarpur, Saran and Champaran districts a sum of Rs. 1,27,828 was expended during the year, as compared with the contract provision of Rs. 1,05,070. The outlay incurred on the maintenance of the Gandak embankments was Rs. 67,525, against Rs. 37,769 in the preceding year. Of this amount Rs. 43,317 were spent on special work done in raising the embankments. The expenditure on repairs to the Midnapore embankments was Rs. 60,303, against Rs. 27,295 in the previous year. The large outlay was partly due to the construction of retired lines and partly to special repairs to make good damage from flood.

On (class D) takavi embankments the total outlay incurred on repairs was Rs. 5,058, against Rs. 6,057 in the previous year.

7. *Breaches.*—In the Orissa Circle a large breach occurred in the 9th mile of the Kushbhadra river right bank, while three breaches occurred in the Bhargovi embankment. No damage was, however, done to the crops. On the contrary the inundation is reported to have been on the whole beneficial, as the local rainfall was short at the time. There were also four breaches in the Jamkunda embankment and one in the Darboree embankment. These were speedily closed and the crops were not damaged. The expenditure during the year for filling breaches was Rs. 3,037, against Rs. 2,227 in the previous year. In the South-Western Circle the total expenditure incurred in closing breaches and in making good damage caused by flood was Rs. 32,693, against Rs. 1,209 in the previous year. The small outlay during the year 1903-1904 was due to the absence of high floods in the Hooghly, Midnapore and 24-Parganas districts. During the year under review the expenditure in these districts amounted to Rs. 18,129. In the Burdwan district a sum of Rs. 14,198 was expended, against Rs. 1,424 in the previous year. There were no breaches in the embankments in the Gandak, Northern and Bhagalpur Circles.

8. *Retired lines.*—In the Orissa Circle the amount expended in constructing retired lines of embankments, including in this head slope cutting, which is an alternative measure, was Rs. 5,064, against Rs. 11,699 in the previous year. In the South-Western Circle the cost of constructing retired lines in the Burdwan, Hooghly, Midnapore, Murshidabad and the 24-Parganas districts was Rs. 63,165, against Rs. 66,120 in the previous year. In the Gandak Circle three retired lines were constructed in the Saran embankment and one in the 30th mile of the Tirhut embankment. No retired lines were constructed in the Northern and Bhagalpur Circles.

9. *River Protective works.*—In the Orissa Circle the total outlay incurred on repairs to the revetment and river protective works was Rs. 675, against Rs. 1,305 in the preceding year. In the Gandak Circle the existing spurs at 27th and 44th miles of the Saran embankment were repaired and nine new spurs were constructed at the former and three at the latter place. The old spurs in the Tirhut embankment were also repaired. Protective works were carried out opposite 58th mile on the Champaran embankment to prevent erosion.

10. *Financial.*—The actual outlay during the year on the Orissa embankments (class A) maintained as agricultural works exclusive of charges for establishment and tools and plant was Rs. 26,689, against Rs. 35,437 in the previous year, the average rate per mile being Rs. 52. The expenditure on class B Government embankments was Rs. 2,36,572, against Rs. 2,37,231 in the previous year, the average rate being Rs 217, against Rs. 218 in 1903-1904.

Government has contracted to maintain certain embankments on behalf of the persons benefited at a fixed annual charge in the districts of Saran, Champaran, Muzaffarpur and Midnapore. The following statement shows the expenditure incurred in these embankments as compared with the contract payments:—

Year.	Midnapore District.		Saran District.		Champaran District.		Muzaffarpur District.

†Note.—The figures in this table under column "Maintenance charge" represent the cash outlay only on maintenance and repair without any book charges for establishment or tools and plant.

The contract for the maintenance of the Midnapore takavi embankments in charge of the Executive Engineer, Cossye Division, has been renewed for 15 years from 1st April 1904 at Rs. 49,761 per annum, while the previous rate had been fixed for three years only from 1st April 1901 at Rs. 55,297 per annum. The contract for the maintenance of the Joki takavi embankment in the Balasore Division has also been renewed for 15 years from 1st April 1901, at an annual rate of Rs. 994. The Joki embankment lying in the Midnapore district the contract amount for its maintenance is included in that for the Midnapore takavi embankments. The contract for the maintenance of the Gandak takavi embankment in the district of Saran has been renewed for 20 years from 1st April 1900 at an annual rate of Rs. 23,900. The rate for the maintenance of the Gandak takavi embankments in the districts of Champaran and Muzaffarpur has been fixed for 20 years, from 1st April 1903, at Rs. 20,000 and Rs. 10,415 respectively per annum.

11. *Works undertaken under the provisions of the Drainage Act VI (B.C.) of 1880.*—The Dankuni, Howrah, Rajapore and Burajalla drainage works in the Hooghly district in charge of the Executive Engineer, Northern Drainage and Embankment Division were maintained in good order during the year. The cost of their maintenance compared with the previous year is shown below:—

	1903-1904.	1904-1905.	Annual amount fixed for maintenance.
	Rs.	Rs.	Rs.
Dankuni	7,170	1,119	4,300
Howrah	1,458	3,071	2,000
Rajapore	8,760	7,828	5,000
Burajalla			
Total ...	17,388	12,018	11,300

The sluices of the drainage schemes were used during the year both for irrigation and drainage purposes, and fairly good crops were obtained from the whole of the area assessed. The income derived from land rent, fisheries,

tolls on boats and other sources was credited to the Civil Department direct, only petty miscellaneous receipts amounting to Rs. 419 were realised by this Department.

12. *Works undertaken under the provisions of the Sanitary Drainage Act VIII (B.C.) of 1895.*—The only work taken up under the Sanitary Drainage Act is the Magra Hât drainage scheme in the 24-Parganas district. It is designed to drain the swamps around Magra Hât and in the central portion of the tracts enclosed by the 24-Parganas embankments. The swamps are mainly those along the Kaorapokhar khal near Hotar, those connected with the Surjipur sluice, those at Joynagar and along the Srichandra and Sangrampur khals, as well as north of the railway near Sangrampur and at Dhosa and Habka. The rough estimates amounting to Rs. 17,39,000 have been approved by the Municipal Department of this Government. The Government contribution for the scheme is Rs. 5,00,000, and the balance will be advanced by Government as a loan to the District Board and recovered from the persons whose lands will be benefited. The allotment for the year 1904-1905 was Rs. 1,25,000, and a sum of Rs. 93,133 was expended on the following works:—

	Rs.
Re-excavation of Surjipur khal, including cross dam at the mouth of the khal	10,474
Excavating the diversion channel for the main sluice at Diamond Harbour and excavation for the sluice and value of bricks supplied	80,703
Work establishment, survey and contingencies	1,956
Total ...	93,133

The excavation of the Surjipur khal made it posible to drain out most of the water from the swamps round Surjipur and Magra Hât after the rains into the Peali river. In the diversion channel at Diamond Harbour, about 30 lakhs of earthwork were completed, and excavation for the main sluice started. The manufacture of bricks for Diamond Harbour and Peali sluices was commenced and surveys of the creek and some other main channels were completed.

13. *Drainage works carried out at the cost of Government but not under the provisions of the Drainage Act.* There was no expenditure on original works during the year. The outlay incurred on maintenance and repairs of the works is given below:—

On the Bullee Bhil, South-Western Circle (Rs. 6,044 were expended on repairing and maintaining the escape weirs, sluices, regulators, drainage channels, dividing embankments and plantation and in clearing silt from Koijuri and Boyarghatta channels. In the Balasore Division the Balighai main and branch drains were kept open to traffic throughout the year. The cost of maintenance amounted to Rs. 1,219, including cost of repairs to inspection bungalows.
